Follow us on Social Media

Hello and welcome, we are proud to present our new NYTRO CATALOGUE for 2025, packed with innovative 'performance first' products! Over the last 12 months our development team, together with our key team members, have been extremely busy developing lots of new and innovative products, that we are sure you will enjoy using out on the bank.

We have expanded our best-selling Aryzon and Marvelist ranges of rods, adding in some more powerful feeder versions. We have also developed a tight range of classic float rods which have been included in the Marvelist range. In the StarkX range, we have designed a couple of 'specialist' rods for barbel fishing and under the Aryzon sub brand, we have included a new rod, reel and braid range, specifically for baiting up!

For the first time you will also find a small range of telescopic whips and take-apart margin poles up to 6m in length and in the most popular price brackets! Watch this space... there is more in the pipeline!

Besides rods, reels and poles we have also been busy with further developments including fluorocarbon power rig line and a whole range of 'Connect-It' products to complement the success of the top selling SLS36 Seat Box.

We continue to grow and build on the success that Nytro offers and we have also developed more accessories in the 'Targetz', 'Steady Rest' and 'Connex' (terminal tackle items), ranges, plus our brand new TCS Targetz Change System Flat Method Feeders and Moulds.

WE CONTINUE TO GROW

At Nytro, we aim to be the first-choice brand for consumers by offering the best value-for-money, forward-thinking and cutting-edge products. Our growth over the past couple of years is a testament to this commitment. This growth continues into 2025 with many new and innovative Nytro products.

We will keep driving innovation and new product development with a focus on delivering total consumer satisfaction. When it comes to price, aesthetics and performance, you and the consumer can be confident that Nytro products offer the best value for money.

We will also continue to grow our presence on social media and in traditional printed media, to keep anglers informed about our new products. We are constantly expanding our team of anglers to maximize the brand's exposure on social media and where it matters most – out on the bank.

From our UK head office and warehouses in both the UK and the Czech Republic, our product design team, customer service, sales teams, marketing, and management, we wish you and your business all the very best for the coming year.

Enjoy the 2025 NYTRO catalogue and thank you for your trust and continued support.

NTR COMMERCIAL SERIES

CRB CARBON-CURVE  **Ø2.5MM TIPS**

This entry-level range of carbon crafted rods are designed with the commercial water angler in mind. Great rods for those just entering the commercial scene and at a very affordable price. Their action is powerful enough to tame small to medium sized carp and they offer a perfect combination and balance, when used in conjunction with the NTR reels.

IMPAX COMMERCIAL SERIES

CRBN CARBON-CURVE  **Ø2.5MM TIPS**

The Impax Commercial rods fall into a popular-price category, offering great value for money. It is amazing to see what our designers have been able to achieve, creating a series of rods that can handle FI's and big carp alike. These rods have been used, abused and tested to the limit on a wide range of commercial waters, ensuring they withstand what is expected of them. They feature a splendid through-action blank, which offers sufficient backbone to boss and direct hard fighting fish straight into the net!

IMPAX POWER METHOD SERIES

NEW

24T CARBON-CURVE  **Ø3.5MM TIPS**

The Impax Power Method 80 joins the IMPAX range of feeder rods as its most robust addition. This powerhouse model is designed to boss and land big fish with ease. It's the ideal choice and length fishing 'snake lake' style venues.

Available in both 8ft and 9ft lengths, the Power Method Feeder rods feature a slim 24T Carbon-curve blank with sufficient power reserves. Each rod comes with two 3.5mm tips, one 1.5oz carbon and one 2oz glass tip, equipped with large lined guides for optimal performance. The rod blank is equipped with modern, ultra-light guides, while the butt section is reinforced with a carbon wrap for added durability. The handle merges cork and EVA materials, offering a comfortable and secure grip.

- Oversized hook keeper
- All feeder rods feature two 2.5mm carbon quiver tips
- Handles combine cork and EVA grips
- Half-mat black finish with epoxy varnished guide wrapping
- Screw-down reel seat
- Six different models for most allround feeder fishing conditions
- Supplied in a rod bag
- Butt caps feature epoxy Nytro logo

IMPAX ALLROUNDER SERIES

CRB CARBON-CURVE  **Ø2.5MM TIPS**

This range of entry-level Impax ALLROUNDER rods with ultra-light minima-style guides, have been developed to offer a range of rods that anglers can fish throughout the year. Whether fishing at close-range for roach and skimmers or long distance for bream, whether at a commercial for carp or in natural venues. The Impax ALLROUNDER does as it says on the tin. All rods come with two dedicated 2.5mm carbon quiver tips. A full range of four different tips are available, from 0.75oz to 2oz.

CODE	DESCRIPTION	LENGTH	TR. LENGTH	SECT.	TIPS	C/WEIGHT
20200070	ALLROUNDER 8'	8' (2.40M)	127CM	2+2	0.75 & 1OZ	20G

20200079	ALLROUNDER TIP 2OZ (Ø2.5MM) RED	*	52CM	*	2OZ	*

- > 8ft / 2.40m: The 8ft Impax Allrounder classifies as your classic picker rod for close range fishing for roach and skimmers. Or as a light bomb-rod on a commercial.
- > 9ft / 2.70m: The 9ft Impax Allrounder classifies as a quiver rod for close range fishing for roach, skimmers and bream. Or as a light bomb and method feeder rod on a commercial.
- > 10ft / 3.00m: The 10ft Impax Allround is the ideal allrounder when it comes to short to medium distance fishing in natural venues and commercials. The 24T carbon-curve blank offers sufficient backbone to challenge bream and bigger FIs.
- > 11ft / 3.30m: The 11ft Impax Allrounder is perfect for fishing up to about 40m with a classic cage, method or hybrid feeder.
- > 12ft / 3.60m: The 12ft Impax Allrounder is probably the most allround length for fishing up to about. 50-60m with a classic cage, method or hybrid feeder, fishing for bream and carp in still and faster flowing waters.
- > 13ft / 3.90m: The 13ft Impact Allrounder is the to-go-to length when you need to reach longer distances in both still water and running water conditions. The 24T carbon-curve blank offers enough power for reaching distance yet has sufficient reserves when reeling in bigger fish.

IMPAX CONTINENTAL POWER SERIES

CRBN CARBON-CURVE  **Ø3.5MM TIPS**

Power feeder rods in a popular price range, that is what these Impax Continental rods are. Designed for fishing with heavier weights and casting longer distances, especially on the continent. Ideal for faster running waters too. We have selected the most popular length (12ft and 13ft) and casting weights (100 – 120 and 150gr) for this type of fishing, resulting in this range of six different models with a faster and more power action. Allowing for improved balance and lighter weight, these rods are designed with ultra-light minima-style guides. All rods feature two dedicated 3.5mm carbon tips, ranging from 1.5oz to 4oz.

ARYZON COMMERCIAL SERIES

CBN CARBON-CURVE  **Ø2.5MM TIPS**

When you are looking for a seamless, powerful, yet forgiving through action rod, in a range that covers just about every discipline on a commercial fishery, look no further! The Aryzon range of rods are exactly that! Starting with the Carp Feeder rod in 9ft, 10ft and 11ft models, for short, medium and long-distance casting. Aryzon rods are lightweight and well balanced, yet offer the right amount of power to be in control of a fish very quickly, especially right before netting.

ARYZON METHOD FEEDER: There is also a 12ft Method Feeder which, with its heavier casting weight, allows you to cast distances up to 60-70m. These rods offer sufficient power to take control of larger fish very quickly.

ARYZON PELLET WAGGLER: This series also features two, 10ft and 11ft, Pellet Waggler rods that are designed for casting floats either short, medium or longer ranges. Aryzon rods are lightweight and well balanced, yet offer the right amount of power to be in control of a fish very quickly, especially right before netting.

ARYZON DISTANCE POWER BAIT-UP SERIES

CARBON CURVE

NEW

COMPATIBLE WITH:
ARYZON BAIT-UP REEL

Bait-up rods are becoming increasingly popular for baiting up your swim quicker and with larger quantities of bait. Thereby, a bait-up rod allows you to cast heavier weights more accurately at the intended distance, without the risk of breaking off. We have designed the 12' Aryzon Distance Power Bait-up rod to be powerful enough for casting out big bait-up feeders at medium to long range distances. They are also powerful enough to launch smaller bait rockets and mini spods too. For effortless distance casting, this blank, from the start of the cast loads the right amount of strength to cast a bait-up feeder packed with groundbait, far and accurately. The strength in the tip section of the blank also allows you to empty your feeder with one strong pull.

To compliment the Aryzon Distance Power Bait Up Rod we have also produced the Aryzon Bait-up Reel and Braid.

See pages: 40 and 45

ARYZON CONTINENTAL SERIES

CCB CARBON-CURVE

Ø2.9MM & 3.4MM TIPS

These rods radiate stealth and power and are designed for fishing big, natural European venues. Superb actions that help the angler to cast further and even more accurately, whilst retaining a controlled bend when playing hooked fish. Ideal rods when fishing for larger species or when heavier feeders are required. The 3.60m is perfect for casting with 60g up to about 60 meters. If longer casts or heavier feeders are required, then the 3.8m and 4.0m versions are the perfect choice.

ARYZON DISTANCE POWER SERIES

NEW

CARBON-CURVE Ø2.9MM TIPS

These fast tapered Distance Power Feeder rods have been developed to cast long distances on bigger venues. The other major advantage of a fast tapered blank is that it helps pick-up the line quicker on the strike, which is important when fishing at long ranges. For advanced casting efficiency these rods come with oversized guides, all the way to the tip. Each rod in the range is supplied with two dedicated carbon tips. A wider range of seven different interchangeable carbon tips 1oz, 1.5oz, 2oz, 3oz, 4oz, 5oz and 6oz, are also available.

New for 2025 are the 12'6" and 14' rods that were requested to complement the range for long range distance fishing on fast flowing rivers, where you need to keep as much line out of the water as possible.

With the lighter tips available, these rods work well for a wide range of fishing from targeting roach, skimmers, bream and even carp on larger venues and running water.

STARKX BIG RIVER SERIES

CRB CARBON-CURVE  **Ø3.5MM TIPS**

StarkX Big River rods are designed for casting heavy feeders and playing big fish. These blanks are just perfect for fishing larger natural venues and especially fast flowing rivers. Tested to the limit, anglers will appreciate the power that these rods have to offer. The Big River series comes in eight different models from MH to XXH actions with up to 200g casting weight. A variety of five different fully interchangeable 3.5mm quiver tips are available.

MARVELIST TPS SERIES LIGHT CARP & CARP

CBN CARBON-CURVE  **Ø2.5MM TIPS**

The Marvelist TPS series is available in four ranges: Two commercial ranges, the Light Carp and Carp in 9', 10' and 11'. The Allrounder in 11', 12' and 13' plus, the new Power Feeder in 12' and 13'. They have all been designed in close cooperation with Feeder legend and former World Champion, Tommy Pickering. The rods are purposely designed to cover a wide range of fishing styles and for a multitude of species throughout the fishing seasons. The Light Carp and Carp ranges are two-piece rods with equal sections, featuring three, 2.5mm carbon tips. The Allrounder rods are three-piece rods with equal sections, also featuring three, 2.5mm carbon tips, allowing them all to be interchangeable. The rods are built with high modulus 30T and 40T carbon, allowing them to cast very accurately, offering a fast recovery and improved playing action, with sufficient reserves in the spine of the blank.

MARVELIST

RODS

Tommy Pickering on the MARVELIST TPS SERIES LIGHT CARP

"These rods are so versatile that I use them all year round. In the summer they are my bream and skimmer rods and in the winter, they are my go-to carp rods, especially when using smaller hooks and lighter lines."

Tommy Pickering on the MARVELIST TPS SERIES CARP

"These are my out-and-out carp rods, especially in summer when using hooks size 16 and bigger and if I want to use bigger feeders to gain distance."

MARVELIST

Tommy on the MARVELIST TPS SERIES POWER FEEDER

"I wanted a set of rods that cast that extra bit further and that could handle bigger fish. The Power Feeder rods in the Marvelist range do just that! When I picked up the first 12ft version I simply said, wow".

"I was able to test them extensively at the Iberian Masters where they were really put to the test! They are the perfect rods on rivers, lakes and big commercials, where you need that extra power or distance."

* All 2.9mm Marvelist POWER FEEDER Quiver tips feature oversized lined guides for improved distance casting.

MARVELIST

Tommy Pickering on the MARVELIST TPS SERIES ALLROUNDER

"If I had to choose only one rod to cover everything, then this is the rod! It can be used on rivers, lakes and commercials."

* All 2.5mm Marvelist ALLROUNDER Quiver tips feature oversized lined guides for improved distance casting.

MARVELIST NATURAL FLOAT SERIES

NEW

CRB CARBON-CURVE

The Marvelist rod range was developed in close collaboration with former Float Fishing World Champion Tommy Pickering. They are available in Light and Medium actions to suit a wide range of float fishing conditions. Featuring Minima-style line guides, the 40T carbon blanks are perfectly balanced, slim, and lightweight. They are recommended for reel lines between 2.5 – 4lb (0.12-0.18mm). The rods have a rigid, crisp action with minimal bounce for exceptional line and float control. Additionally, the soft tip action acts as a gentle shock absorber, minimizing the risk of hook pulls and allowing the use of lighter hook lengths.

Tommy on the MARVELIST TPS SERIES FLOAT RODS

"The Marvelist rods offer such excellent value for money that I felt a tight range of float rods would make perfect sense. I was able to test them during the Veterans Float Fishing World Champs in Bulgaria and I can honestly say I am chuffed with how good these rods are."

MARGIN MUNCHER 45 CARP POLE

NEW

The Nytro Margin Muncher 4.5m is an exceptionally strong margin pole, perfect for landing the biggest carp when fishing commercials and carpodromes. These bomb-proof take-apart poles feature a progressive action and are designed for use with heavy elastics. Ideal to land large fish quickly. The Margin Muncher comes pre-fitted with a PTFE bush and with a winder bung and extraction key. The number two section comes with an extra carbon reinforcement to allow for a puller bush to be fitted. At 4.5m it is perfect for margin fishing or for those new to pole fishing.

- > Carbon blank
- > Pre-fitted PTFE bush
- > Extra CF reinforced No 2 section
- > Exceptionally strong
- > Comes fitted with winder bung and key
- > Take-apart design

- > Oversized hollow bail wire
- > Twist-free, extra smooth titanium coated line roller
- > Compact, ambidextrous aluminium CNC handle
- > Comfortable T-bar handle grip

SOLUS

SUPER FEEDER 5500

The Solus Super Feeder 5500 is a robust feeder reel designed for medium to long distance casting. The lightweight S-curve cross-winding oscillation system inside the reel offers a multitude of advantages. It keeps the reel surprisingly light, allows for perfect spooling of both braid and mono on the medium-shallow feeder spool and it is exceptionally strong to withstand rugged handling. The Solus Super Feeder features a quick-drag system for rapid and precise control when playing bigger fish. A very functional reel for most allround feeder fishing conditions on natural venues.

SOLUS

DISTANCE FEEDER 6500

The Solus Distance Feeder 6500 is a robust, big capacity feeder reel designed for most medium to long distance casting. For safety purposes, the Solus Distance Feeder features a line-guard system to prevent the line from tangling underneath the spool. The lightweight S-curve cross-winding oscillation system inside the reel offers a multitude of advantages. It keeps the reel surprisingly light, allows for perfect spooling of both braid and mono on the medium-shallow feeder spool and it is exceptionally strong to withstand rugged handling. The Solus Distance Feeder features a quick-drag system for rapid and precise control when playing bigger fish.

- > Ambidextrous, aluminium handle featuring a T-bar handle grip

STARKX

CARBON LONG CAST 4500, 5500, 6500

The Nytro StarkX Carbon Long Cast reels feature a wormshaft system to perfectly distribute mono or braid on to the extra-long-nose aluminium spool. They are ideal reels for effortless long-distance casting. The line-guard system prevents any tangling of the line. This model is available in three sizes, 4500, 5500 and 6500 to cover most, if not all, distance casting conditions. The 7+1 stainless steel ball bearings allow for an extremely smooth operation. They are ideal casting machines and compliment rods such as the StarkX Big River and Method or the Aryzon Continental and Power Feeder series.

3000, 4000 & 5000 REELS

Finished in glossy black with red accents, the Aryzon is a series of stunning looking reels, built for performance. The Aryzon series is available in three sizes, 3000, 4000 and 5000. With a 6+1 ball bearing system they perform extremely well in all manner of situations. They offer a silky-smooth retrieve and good line-lay for both mono and braid. Featuring a finely adjustable, multi-disc drag system on the spool. Ideal when matched with Aryzon commercial rods.

ARYZON LONG CAST 5000

The Aryzon Long Cast is a robust, large capacity feeder reel for long range casting. The wormshaft oscillation offers the perfect line-lay and the floating rotor line guard helps to prevent any tangles. Surprisingly light for its size this 6+1 ball bearing reel retrieves close to 1m of line per turn. Two high impact captive line clips help with your accuracy and the quick torque drag system keeps you in control of a big fish. The Aryzon Long Cast combines really well with the Aryzon Continental and Starkx Big River or Method rods.

ARYZON BAIT-UP 5000

NEW

We have designed our Aryzon Bait-Up 5000 reel to hold 200m of Aryzon Bait-up Braid and that is how we supply it, already spooled and ready to use! It is powerful enough to cast big bait-up feeders over medium to long range distances, effortlessly. Besides a very stylish design of gunsmoke with black and some Nytro red accents, the Aryzon Bait-up reel also features a quick-drag with oversized front-drag knob and multi-disc drag system. Other features include two oversized metal line clips, a teardrop shaped line roller and heavy-duty bail arm wire, preventing deformation. The screw-in handle eliminated play on the handle and easily folds away for transportation.

Designed to be compatible with the Aryzon Bait-up Rod and Braid on pages: 15 and 45.

MARVELIST POWER FEEDER SERIES

NEW

Designed in close collaboration with former World Champion Tommy Pickering, these Marvelist Power Feeder reels are top choice for the angler that demands the absolute best and will cover most, if not all, feeder fishing situations.

Whether fishing commercials or natural venues, still water or fast flowing rivers, the Marvelist Power Feeder reels are up to the job. We have designed these reels to saltwater standards, which means the aluminium body offers maximum strength and protection to the internal mechanism, even when the fighting gets hard. The solid stainless steel main shaft and heavy-duty internal structure of the Marvelist reels make them true fighting machines.

For 2025 we have launched one size bigger, the Marvelist 6000 Power Feeder. A reel that is for fishing bigger venues holding bigger fish and for casting longer distances.

X8 SINKING BRAID

This high-quality, 8-strand, fast sinking braid, has been specifically designed for feeder fishing. Featuring a sinking core, no-stretch X8 round braid, smooth surface and high tensile strength. These are just some of the key characteristics that make this braid ideal for feeder fishing. Available in three diameters on 150m spools.

- > High quality sinking braided main line
- > Designed for feeder fishing
- > 8-strand round braided precision diameter
- > Superb knot strength
- > No stretch for maximum bite registration
- > Abrasion resistant smooth coating
- > Available in 0.08mm, 0.10mm, 0.12mm
- > Supplied on 150-meter spools

SINKING MONO

The Nytro Sublime Sinking Feeder Mono has been designed for feeder fishing. As the line sinks the transparent deep bronze color disappears against most backgrounds. It is strong, yet supple, so it casts really well and it offers a high knot strength. Ideal as a reel line and just as good when used as a shock leader, as it stretches well and hugs the bottom.

- > High quality sinking monofilament
- > Designed for feeder fishing
- > Precision diameter
- > Strong, supple and superb knot strength
- > Abrasion resistant
- > Available in eight popular diameters
- > Supplied on 150-meter spools

POWER RIG FLUORO

NEW

Nytro's Sublime Power Rig Fluoro is the perfect fluorocarbon line for tying shock leaders and hooklengths. During its design, we focused on enhancing knot strength, a feature typically lacking in fluorocarbon lines. With the new Sublime Power Rig Fluoro range, we've successfully achieved this goal! Our lines enable stronger knots and with a few stretches between your thumb and index finger, it will lose memory and straighten naturally when taken off the spool.

- > Superior knot strength
- > Low visibility
- > Abrasion resistance
- > High density
- > Minimal stretch
- > UV resistance
- > Supplied on 50m spools

CODE	DESCRIPTION	DIAMETER	BREAKING STRAIN

HI-VIZ FEEDER SPOD BRAID

NEW

Our high-quality, Aryzon Hi-Viz Bait-up X8-strand, super smooth, round braid, has been designed for use with baiting up reels. Featuring no-stretch, for more accurate casting as well as emptying your bait-up feeder on a simple pull back. It has a smooth medium-pitch surface, high tensile strength, superb knot strength and of course is abrasion resistant. The no-stretch function of our Aryzon Hi-Viz Bait-up braid results in improved power transfer, where more power is directly transmitted from the rod to the bait-up feeder. This efficient power transfer enables the angler to cast heavier loads further, which is essential for reaching distant baiting areas.

- > High quality braided main line
- > Designed for baiting-up
- > 8-strand round braided precision diameter
- > Superb knot strength
- > No stretch for enhanced casting accuracy
- > Efficient power transfer
- > Abrasion resistant smooth coating
- > Available in 0.16mm
- > Supplied on 200-meter spools

KEEP NETS

SPACE CREATOR COMMERCIAL CARP KEEPNETS

The ultimate solution to net limits on commercial fisheries. The reversed rectangular top ring creates more space, which is ideal for where strict weight limits per net is practiced on modern-day commercial fisheries. These nets are manufactured using ultra durable, carp-friendly mesh.

- > Reversed rectangular shape, 50x40cm
- > Strong plastic rings
- > Durable carp-friendly mesh
- > Two strong webbing pull-through straps inside for weighing-in
- > Equipped with double, universal screw thread
- > Robust pressure-lock adjustable tilt system
- > Available in 2.5m and 3m lengths
- > Particularly stylish design
- > Provides a professional look

CODE	DESCRIPTION

20900008	KEEPNET LAKE & CANAL QUICK DRY MESH 4000

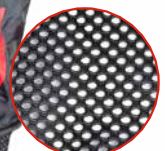

SILVERFISH PRO KEEPNETS

This Nytro Silverfish Pro comes in two different sizes, 3m and 4m which makes it ideal for fishing both commercials and natural venues. On the bankside of the net we have reinforced the fabric on the corners of the rings to prevent any damage when rubbing against sticks, stones or other debris. The aluminium bottom ring is protected on all corners. The aluminium rings at the bottom allow the net to sink faster in deeper water. The top to second ring features a nylon fabric with Nytro logo to prevent the hook from tangling in the net. There are two strong webbing pull-through handles inside to make weighing-in very easy. The keepnet features a pressure-lock, finely adjustable tilt system.

- > Rectangular shape, 40x45cm with an oversized 50x40cm top ring
- > Top ring with branded nylon fabric
- > Last three rings in aluminium protect against distortion
- > Fast sink
- > Durable quick-dry 5mm round mesh
- > Two strong webbing straps inside for weighing-in
- > Protected edges against wear and tear
- > Equipped with double, universal screw thread
- > Robust pressure-lock adjustable tilt system
- > Available in 3m and 4m lengths
- > Particularly stylish design
- > Provides a professional look

QUICK-DRY HAIR MESH

This 2.5mm quick-dry fine hexamesh net is ideal when fishing with hair rigs. The fine mesh will stop the hair rig tangling when landing and unhooking fish.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminium frame
- > Quick-dry
- > Black and grey 2.5mm hexamesh hair mesh fabric
- > Available in three sizes (16"/40cm, 18"/45cm and 20"/50cm)

CODE	DESCRIPTION	FRAME WIDTH	FRAME HEIGHT	NET DEPTH
20900010	SPOON NET QUICK-DRY HAIR MESH 16" (40CM)	40CM	30CM	20CM
20900011	SPOON NET QUICK-DRY HAIR MESH 18" (45CM)	45CM	35CM	25CM
20900012	SPOON NET QUICK-DRY HAIR MESH 20" (50CM)	50CM	40CM	30CM

QUICK-DRY BIG FISH

These nets feature quick-dry 8.5mm lightweight fabric, making netting fish with longer net handles much easier. The fabric does not absorb water and the 8.5mm mesh flows through the water with ease, the ideal net for rivers. The special fabric is super-soft avoiding any damage to fish. Water and slime are not absorbed and these nets dry exceptionally fast and barely smell after use.

- > Durable lifting-assist nylon spreader block for safe and easy fish landing
- > Sturdy red aluminum frame
- > Black 8.5mm quick-dry and smell-free fabric
- > Available in three sizes (18"/40cm, 20"/50cm and 22"/55cm)

LATEX HAIR MESH

This 2.5mm quick-dry, latex dipped fine hexamash net, is ideal when fishing with hair rigs. The softness of the material avoids any damage to fish. The latex dip makes this net even more durable and longer lasting. It also features a durable lift-assist spreader block. One important detail is the spreader grip that makes it easier to lift the fish in the net. In addition, this grip is also extremely suitable for placing behind the edge of a side-tray, so that it cannot slip away.

- > Durable lifting-assist nylon spreader block for safe and easy fish landing
- > Sturdy red aluminum frame
- > Quick-dry
- > Black and red 2.5mm latex dipped hexamash fabric
- > Available in three sizes (16"/40cm, 18"/45cm and 20"/50cm)

20900025	SPOON NET LATEX HAIR MESH 20" (50CM)	50CM	40CM	30CM

LATEX MATCH ALLROUND

These nets have been designed for landing bigger fish and are available in two sizes. Totally fish-friendly and manufactured with a quick-dry, latex dipped, hexamash fabric. The sides are 8.5mm so the net moves through the water with ease. The base of the net is manufactured with a 2.5mm rubber dipped hair mesh, to avoid the hook or hair from tangling in the net. The softness of the material avoids damage to the fish. The latex dip makes this net even more durable and longer lasting. One important detail is the spreader grip that makes it easier to lift the fish in the net. In addition, this grip is also extremely suitable for placing behind the edge of a side-tray, so that it cannot slip away.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminum frame
- > Quick-dry
- > Black and red 8.5mm and 2.5mm latex dipped hexamash fabric
- > Available in two large sizes (18"/45cm – 20"/50cm)

CODE	DESCRIPTION	FRAME WIDTH	FRAME HEIGHT	NET DEPTH
20900015	SPOON NET LATEX MATCH ALLROUND 18"	45CM	35CM	25CM
20900016	SPOON NET LATEX MATCH ALLROUND 20"	50CM	40CM	30CM

LATEX BIG FISH

Ideal for netting big fish even in running water. The larger 8.5mm latex dipped hexamash fabric moves through the water with ease. The latex protected mesh makes these nets hook-proof. The softness of the material avoids damage to the fish while the latex dip ensures durability because slime and smell are not absorbed. These nets dry faster and barely smell when totally dry.

- > Durable lifting-assist nylon spreader block for safe and easy fish landing
- > Sturdy red aluminum frame
- > Quick-dry
- > Black and red 8.5mm latex dipped hexamash fabric
- > Available in three sizes (16"/40cm, 18"/45cm and 20"/50cm)

CODE	DESCRIPTION	FRAME WIDTH	FRAME HEIGHT	NET DEPTH
20900017	SPOON NET LATEX BIG FISH 16"/40CM	40CM	30CM	20CM

20900019	SPOON NET LATEX BIG FISH 20"/50CM	50CM	40CM	30CM

BIG SCOOPA 5500 LATEX

The ideal net for netting big carp and other species. The net has a diameter of 55cm with 9mm latex dipped mesh material, to protect the fish and making the mesh hook-proof. The softness of the material avoids damage to the fish. The latex dip ensures durability because slime and smell are not absorbed. These nets dry faster and barely smell when dry.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminum frame
- > Quick-dry and virtually smell-free
- > Black 9mm latex dipped hexamash fabric
- > Available in 55cm

CODE	DESCRIPTION	DIAMETER	MESH SIZE
20900031	BIG SCOOPA 5500 LATEX	55CM	9MM

BIG SCOOPA 6000 LATEX

This mega net makes landing big carp and sturgeon so much easier. The net has a diameter of 60cm with 11mm latex dipped mesh material, to protect the fish and making the mesh hook-proof. The softness of the material avoids damage to the fish. The latex dip ensures durability because slime and smell are not absorbed. These nets dry faster and barely smell when dry.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminum frame
- > Quick-dry and virtually smell-free
- > Black 11mm latex dipped hexamash fabric
- > Available in 60cm

CODE	DESCRIPTION	DIAMETER	MESH SIZE
20900032	BIG SCOOPA 6000 LATEX	60CM	11MM

DOUBLE-MESH FAST NET

These nets are available in two of the most popular sizes, 45cm and 50cm. They are manufactured with an ultralight aluminium frame and super soft, fish friendly 6mm double mesh. This makes them incredibly manoeuvrable in the water allowing the angler to land fish quicker.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy lightweight aluminium frame
- > Black 6mm, super soft and fish friendly double mesh fabric
- > No smell absorption
- > Available in two sizes (18"/45cm and 20"/50cm)

CODE	DESCRIPTION	FRAME WIDTH	FRAME HEIGHT	NET DEPTH

20900030	SPOON DOUBLE MESH FAST NET 20" (50CM)	50CM	40CM	33CM

MONO GHOST NET

This 7mm square knitted mono-mesh ghost net allows quicker water flow when netting and does not spook the fish. Ideal when fishing on running waters. One important detail is the spreader grip that makes it easier to lift the fish in the net. In addition, this grip is also extremely suitable for placing behind the edge of a side-tray, so that it cannot slip away.

- > Durable lifting-assist nylon spreader block for safe and easy fish handling
- > Sturdy red aluminum frame
- > Quick-dry
- > No smell absorption
- > Transparent nylon ghost mesh
- > Available in two sizes (18"/45cm and 20"/50cm)

STIFF & SAGGY

SUBLIME LUGGAGE

This premium range of match luggage has been designed for intensive use by the modern-day feeder angler. It is extremely practical, looks great and thanks to the incredibly strong PVC material, it is exceptionally rugged and robust. This well-designed range literally covers just about all the feeder angler's needs. From rod holdalls to carryalls, from cooler bags to keepnet bags and even tip tubes, Nytro has it covered. Every care has been taken to design luggage that will offer safe storage on and off the bank. Simply Sublime!

SUBLIME 600D HARD-SHELL HOLDALLS

These hard-shell holdalls come in three different lengths and are designed to hold two, four and six made up ready rods. The central dividers keep the reels apart and protected to avoid any damage during stow-away and transport. Rods can be secured with Velcro straps inside. Fully lined and padded inside for extra protection. The hard shell that folds about the rods offers maximum protection during transport and storage. The separate storage areas within are spaciouly designed leaving nothing to chance. All handles and shoulder straps are designed for maximum comfort. The handles are positioned to balance the bag when carrying and covered with a neoprene which gives a nice secure and comfortable grip. The adjustable shoulder straps are fully padded and feature a non-slip surface for comfortably carrying when on your shoulder.

The Sublime 2-ready rods Holdall is the most basic version, offering all the afore mentioned advantages. The holdall offers one compartment separated by the padded protection divider between the reels. With a total length of 195cm this holdall is ideal for storing two-section rods up to 12ft/3.6m.

The Sublime 4- and 6-ready rods Holdalls are available in 165cm – 180cm and 195cm with additional pouches and sleeves on both sides of the holdall. These are the most versatile holdalls in the range and offer maximum storage facilities for rods, reels, brollies, landing net handles, distance sticks, tip tubes and even a margin pole.

- > Hard-shell cover for maximum rod and reel protection
- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Rugged reinforced base
- > Water repellent
- > Thick padded shoulder strap with anti-slip surface

- > Soft neoprene handle and balanced grip positioning for extra comfort
- > Branded webbing straps
- > Durable SBS-quality zippers and branded pullers
- > Stylish design
- > Available in five different models

SUBLIME BAIT BAG SMALL

Sublime Bait Bags are designed in a rectangular shape, so they fit well on a trolley. The small version has a capacity of 35ltr and comes with a front facing pocket offering additional storage. The design of the Sublime Bait bags means you have a direct overview of the bait and the gear stored within. The padded sides allow the bag to stand right-up even if it is not filled completely. The bottom is reinforced to prevent moisture penetrating when on a wet surface.

- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Thick insulation lining
- > Rugged reinforced base
- > Water repellent
- > Thick padded shoulder strap with anti-slip surface
- > Soft neoprene handle and balanced grip positioning for extra comfort
- > Branded webbing straps
- > Durable SBS-quality zippers and branded pullers
- > Stylish design

SUBLIME ACCESSORY CARRYALL MEDIUM

This medium size Sublime Accessory Carryall is rectangular with a front facing pocket offering the ideal space for your most essential accessories. We designed this bag with a low profile so all your gear is easily accessible and the bag stands-up straight even when you have taken out most of your gear. The bottom is reinforced with anti-slip pads to keep the bag in position, even on a sloping bank and to prevent moisture penetrating when on a wet surface.

- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Padded lining
- > Rugged reinforced base
- > Water repellent
- > Thick padded shoulder strap with anti-slip surface
- > Soft neoprene handle and balanced grip positioning for extra comfort

SUBLIME FEEDER BAG

The Sublime Feeder Bag is a luxurious storage bag with a reinforced base offering enough space for all the essential small accessories, like feeders or wagglers.. This feeder bag was designed to hold, for example, two 2+1 Feeder Trays, or eight 1818 StarkX Accessory Zip-up Cases. Besides the base storage area, the Sublime Feeder Bag also features a front compartment for additional essentials and a zip-up mesh pouch in the lid for storing documents, keys or your phone. Just like the other bags and carryalls in the Sublime range, the Sublime Feeder Bag comes with a padded shoulder strap and neoprene covered handles for maximum comfort when carrying to and from your peg.

- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Padded lining
- > Rugged reinforced base
- > Water repellent
- > Thick padded shoulder strap with anti-slip surface
- > Soft neoprene handle and balanced grip positioning for extra comfort
- > Branded webbing straps
- > Durable SBS-quality zippers and branded pullers

CODE	DESCRIPTION	LENGTH	WIDTH	HEIGHT	CAPACITY
22400032	SUBLIME FEEDER BAG	30CM	30CM	22CM	19.8L

SUBLIME FEEDER BOX BAG

The Sublime Feeder Box Bag is a luxurious storage bag with a reinforced base offering more space than the regular Feeder Bag. It will hold up to three Feeder Tray Systems and offers enough space for a mix of Feeder Tackle Boxes too. Besides the base storage area, the Sublime Feeder Bag also features three front and side compartment for additional essentials. Just like the other bags and carryalls in the Sublime range, the Feeder bag comes with a padded shoulder strap and neoprene covered handles for maximum comfort when carrying your gear to and from your peg.

- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Padded lining
- > Rugged reinforced base
- > Water repellent
- > Thick padded shoulder strap with anti-slip surface
- > Soft neoprene handle and balanced grip positioning for extra comfort
- > Branded webbing straps

22400033	SUBLIME FEEDER BOX BAG	40CM	32CM	36CM	46L

SUBLIME LONG ESSENTIALS BAG

The Sublime Long Essentials Bag is a luxurious storage bag with a reinforced base offering lots of space for roosts, pole rollers, feeder arms, spare legs and other essential seat box attachments. This long, large bag even features a storage solution on the outside for additional gear such as feeder rests.

Just like the other bags and carryalls in the Sublime range, the Long Essentials Bag comes with a padded shoulder strap and neoprene covered handles for maximum comfort when carrying your gear to and from your peg.

- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Padded lining
- > Rugged reinforced base
- > Water repellent
- > Thick padded shoulder strap with anti-slip surface
- > Soft neoprene handle and balanced grip positioning for extra comfort

SUBLIME NET FLOAT

A simple but very functional bit of kit is the elasticated Sublime Net Float. No fiddling with adjustment bands, just mount this to the top of the landing net handle and screw-on your net. The Sublime Net Float offers enough buoyancy to keep just about every net head floating without much effort and in position ready to scoop.

- > Nylon fabric
- > High buoyancy foam
- > Elasticated central slot
- > Size 10cm

CODE	DESCRIPTION	SIZE
22400035	SUBLIME NET FLOAT (THIN)	10CM

SUBLIME NET & TRAY BAG

In the current environment of maximum weight limits for keepnets, many of the commercial anglers need to carry multiple nets. The Sublime Net & Tray bag offers space for three keepnets along with any heads. Plus, it features a large front pocket with two straps for side trays, riddles or extra nets.

Just like the other bags and carryalls in the Sublime range, the Sublime Net & Tray Bag comes with neoprene covered handles for maximum comfort when carrying your gear to and from your peg.

NB: This Net & Tray Bag is ideal in combination with the Waterproof Single Keepnet Bag, keeping your wet and dry nets separated.

- > Heavy-duty 600D durable fabric
- > Easy-clean PVC outside
- > Rugged reinforced base
- > Water repellent
- > Soft neoprene handle and balanced grip positioning for extra comfort
- > Branded webbing straps
- > Durable SBS-quality zippers and branded pullers

NYTRO SUBLIME ELASTICATED ROD PROTECTOR

The best protection for your feeder rods are the Sublime elasticated tip and butt rod protectors. The top and bottom cover are made of neoprene to maximum protection. In the centre the sections are held together with a Velcro-neoprene strap. The stretchable strap makes this product suitable for rods of multiple lengths and for both two and three section rods to be packed and stored safely.

CODE	DESCRIPTION
22400030	SUBLIME ELASTICATED ROD PROTECTOR

NYTRO NEOPRENE ROD STRAPS

Set of two wide and narrow neoprene straps. Ideal to keep your rod sections together.

CODE	DESCRIPTION
22400040	NEOPRENE ROD STRAPS

NYTRO UNHOOKING MAT

With more and more fisheries demanding unhooking mats for landing bigger fish, we designed this stylish black unhooking mat with the Nytro logo on the side. It is manufactured using sturdy 600D PVC outside material with a 2cm foam padding ensuring the fish is protected while unhooking on the bank.

The mat easily folds-up in three sections and is secured for transit with two Velcro straps. Ideal for the coarse angler as it simply fits inside just about every keepnet bag.

- > Rugged 600D PVC outside material
- > Padded 2cm foam inside
- > Easy folding and transport
- > Size L100xW48xH2cm (folded size L34xW48xH7cm)

CODE	DESCRIPTION	LENGTH	WIDTH	HEIGHT
22400038	UNHOOKING MAT	100CM	48CM	2CM

NYTRO CRADLE

This Nytro branded cradle offers maximum protection for the fish when unhooking or when taking pictures. The cradle is manufactured using heavily padded nylon fabric for maximum protection, plus a 3cm foam mattress inside. The total size of the cradle is L100xW60xH22cm offering sufficient space and protection for the fish. The cradle comes with two webbing straps and a soft touch grip handle for transportation. Simply fold and zip-up to pack away and store.

- > Padded soft nylon material
- > Foam 3cm mattress inside
- > Fold and zip-up to stow-away and transport
- > Size L100xW60xH22cm (folded size L61xW48xH25cm)

22400039	NYTRO CRADLE	100CM	60CM	22CM

ACCESSORIES

EVA CONTINENTAL FEEDER RESTS

The NyTRO EVA Continental Front Rests are designed for feeder fishing. They are available in two different sizes (30cm and 50cm), covering most feeder fishing requirements. This rest is manufactured from a high-density EVA material, offering maximum protection for your rods. Both rests are stable and feature a 45° upturned ripple side to prevent the rod from sliding along the rest in windy conditions or when undertow pulls the tip. The other side is straight so you can move your rod, pull on the line and move your feeder slightly, triggering fish to bite. The universal thread fits just about every feeder arm or bank stick. These feeder rests are easy to use and offer great value for money.

- > Stable front rest for feeder fishing
- > One 45° upturned rippled side
- > High-density EVA material
- > Colour black and red
- > Maximum stability and protection for your rod
- > Universal attachment thread
- > Available in two sizes (30 and 50cm)

CODE	DESCRIPTION	LENGTH

21900002	CONTINENTAL FEEDER REST 500	50CM

STEADY-REST

The Nytro Steady Rests are the ideal rod rests for just about all modern-day feeder fishing. The range consists of a variety of six front and rear rod rests. All models are double injection-moulded, ensuring a solid, rigid base, with soft moulded parts where rod needs most protection. The Nytro STEADY SLIDING RESTS are an industry-first and allow the angler to have the front and rear rest in any position.

STEADY METHOD REST

This is the perfect rest for feeder fishing on commercials, the Nytro Steady Method Rest. Featuring a one-sided protruded sickle that prevents your rod from being yanked of the rest. You can lay your rod in multiple positions along the rest. All sections feature a small slot so you can make minor adjustments to the tension on the tip.

- > Method fishing rod rest
- > One sided protruded sickle safeguarding the rod on vicious takes
- > Four rod positions
- > Soft rubber grip surface
- > Slotted rod sections
- > Double-thread screw

21900003	STEADY METHOD REST

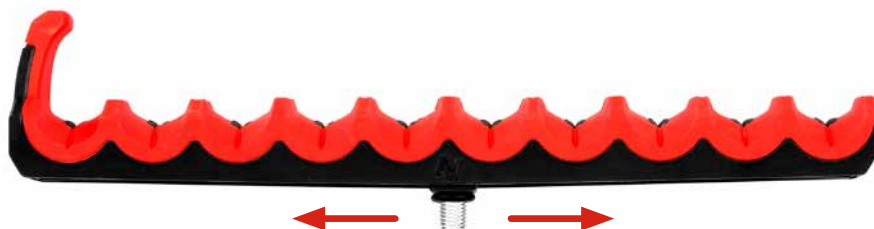

STEADY SLIDING METHOD FRONT REST

NEW

You asked us to design a bigger Method Rest with a sliding function so it could be put in any position. That is exactly what we have done! A bigger, sliding rest for feeder fishing on commercials, the Nytro's Steady Sliding Method Rest. Featuring a one-sided protruded sickle that prevents your rod from being 'yanked' off the rest! You can now lay your rod in multiple positions along the rest and slide the base all the way left or right, to improve the angle on your feeder arm. All sections feature a small slot so you can make minor adjustments to the tension on the tip.

The Steady Sliding Method Rest allows you to fish two rods along side each other.

- > Large, sliding Method fishing rod rest
- > One sided protruded sickle safeguarding the rod on vicious takes
- > Ten rod positions
- > Soft rubber grip surface
- > Slotted rod sections
- > Double-thread screw

CODE	DESCRIPTION
20190009	STEADY SLIDING METHOD FRONT REST

STEADY ADJUSTABLE FRONT REST

The Nytro Steady Adjustable Sliding Front Rest is an industry-first front rest design. Incorporating an internal sliding system, allowing you to lock or set the rest in different positions, to both left or right. The rest features a soft rubber grip surface so the rod will not slip or damage. The Steady Rod Sliding Front Rest is designed with two, low raised edges, to position your rod against in windy conditions or in flowing waters. Fitted with two upright ends preventing the rod from shooting off the support when you have a bite.

- > Industry-first Steady Rod Sliding system
- > Soft rubber grip surface
- > Adjustable duo-level butt rest
- > Two low raised edges to position your rod against
- > Double thread screw

CODE	DESCRIPTION
21900008	STEADY ADJUSTABLE FRONT REST

STEADY SLIDING MINI REST

The Nytro Steady Sliding Mini Rest is an industry-first where adjustable rests are concerned. We have designed this as a back rest allowing precise positioning of your rod butt. This enables you to move your rod slightly, to release or increase the tension on your rod tip without moving the feeder.

The Steady Sliding Mini Rest can also be used as a mini front rest. The uprights on both sides prevent the rod from being pulled off the rest.

The rest is fixed in position under pressure from the universal screw thread, so when you tighten the rest, it remains in the selected position.

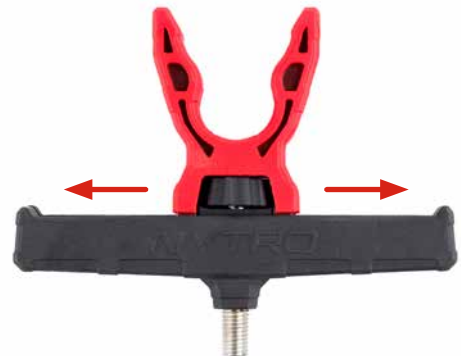

- > Industry-first Steady Rod Sliding system
- > Versatile front or rear rest
- > Soft rubber grip surface
- > Ideal to release or add pressure to your rod tip
- > Double thread screw
- > Uprights on both sides preventing the rod from being pulled off

CODE	DESCRIPTION
21900005	STEADY SLIDING MINI REST

STEADY ADJUSTABLE BUTT REST

The Nytro Steady Adjustable Butt Rest is an industry-first where adjustable back rests are concerned. We have designed this versatile back rest not only to precisely position your rod, but also to allow you to move your rod to release, or increase the tension on your rod tip, without moving the feeder. You can fix the rest with the universal screw-fitting under the butt grip, or you can leave it loose so you can constantly adjust, according to the circumstances. These rests are ideal in both still and flowing water conditions. The butt grip is designed to hold rods with varying handle diameters. The duo-level allows the rod to be loosely positioned in the top or pushed downward into the base for extra grip. The soft grip material allows the rod to be held firmly in place when needed, while still allowing a quick release of the rod when you get a bite or when you need to cast again. Perfect when fishing on higher banks where your rod points downwards and you need extra grip

- > Industry-first Steady Rod Sliding system
- > Adjustable duo-level butt rest
- > Soft rubber grip surface
- > Double-thread screw

STEADY SLIDING DOUBLE DUO BACK REST

NEW

ACCESSORIES

NYTRO

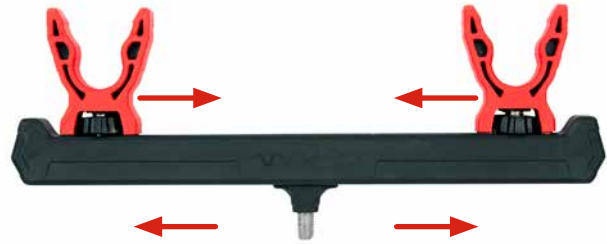

You see more and more feeder anglers, fish two rods. And when we launched the Steady Sliding Duo Butt Grip you asked us to design one that would hold two rods. Which is what we did with this industry-first Steady Sliding Double Duo Back Rest.

We have designed this versatile back rest not only to precisely position one or two rods, but also to allow you to move your rod slightly to release, or increase the tension on your rod tip, without moving the feeder. You can fix the rest with the universal screw-fitting under the butt grip, or you can leave it loose so you can constantly adjust, according to the circumstances.

The butt grips are designed to hold rods with varying handle diameters. The duo-level allows rods to be loosely positioned in the top or pushed downward into the base for extra grip. The soft grip material allows the rods to be held firmly in place when needed, while still allowing a quick release of the rods when you get a bite or when you need to cast again. Perfect when fishing on higher banks where your rod points downwards and you need extra grip.

This backrest is also ideal when fishing a sleeper-rod when practice fishing.

- > Industry-first STEADY REST sliding system
- > Two-rod positioning adjustable duo-level butt rests
- > Soft rubber grip surface
- > Double-thread screw

CODE	DESCRIPTION

STEADY DUO BUTT REST

The Nytro Steady Duo Butt Rest is designed to hold rods with varying handle diameters. The duo-level allows the rod to be loosely positioned in the top or pushed down for extra grip. The soft grip material allows the rod to be held firmly in place when needed, while still allowing quick release when you get a bite or when you need to cast again. Ideal for use when fishing on higher banks where your rod points downwards and you need extra grip.

- > Duo-level butt rest
- > Soft rubber grip surface
- > Double thread screw

CODE	DESCRIPTION
21900006	STEADY DUO BUTT REST

STEADY U-REST

The Nytro Steady U-Rest is truly versatile and will fit most rod handle sizes. It has a soft rubber inlay which prevents damage to the rod or landing net handle. It can be used as a rear or front rest.

- > Versatile front/rear rest
- > Soft rubber grip surface
- > Ideal to keep your landing net in place in windy conditions
- > Double-thread screw

CODE	DESCRIPTION
21900004	STEADY U-REST

KLIP ON

Klip-On is a product you did not even know you needed until you've seen it! They simply attach to your bait tub, EVA-tub or on to a 19mm edge of a side tray. Manufactured from soft latex material, they are lightweight and easy to use. We designed these with strong but flexible material, so Klip-Onz fit on virtually all bait and EVA tubs.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized

KLIP-ON HANDLE & ROD REST

A very handy Klip-On for every 19mm side tray upright. It will hold your landing net handle, and top kits or rod handles as well. The strong but flexible material allows rod handles and tops kits to be fixed without damaging them. A perfect and extremely versatile product in the Klip-On range.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized
- > Fits most rod handles, landing net handles and pole top kits

CODE	DESCRIPTION
22000004	KLIP-ON HANDLE & ROD REST

KLIP-ON BAIT TRAY

Do you have trouble leaving pre-baited hooklengths on your side tray and then losing them? So did we! So we designed a Klip-On Bait Tray that safeguards them and gives them a dedicated place on your side tray. We also added some holes to store your baiting needles and drills, right where you need them.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized
- > Fits just about every bait and EVA tub
- > Five dishes for pre-baited hooklengths
- > Cavities for baiting needle and bait drill

CODE	DESCRIPTION
22000002	NYTRO KLIP-ON BAIT TRAY

KLIP-ON CHOPPER HOLDER

So many of us use a worm chopper but where to put it? Put the Klip-On Chopper Holder on your bait tray or EVA-tub and you always have a dedicated position for it. It also features space for a baiting needle, a small disgorger, bait drills and even some hooklengths that are ready to be used.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized
- > Fits just about every bait and EVA tub
- > Cavity for worm chopper
- > Cavities for baiting needle and bait drill or small disgorgers
- > Five slits to safeguard hooklengths, ready to use

CODE	DESCRIPTION
22000001	KLIP-ON CHOPPER HOLDER

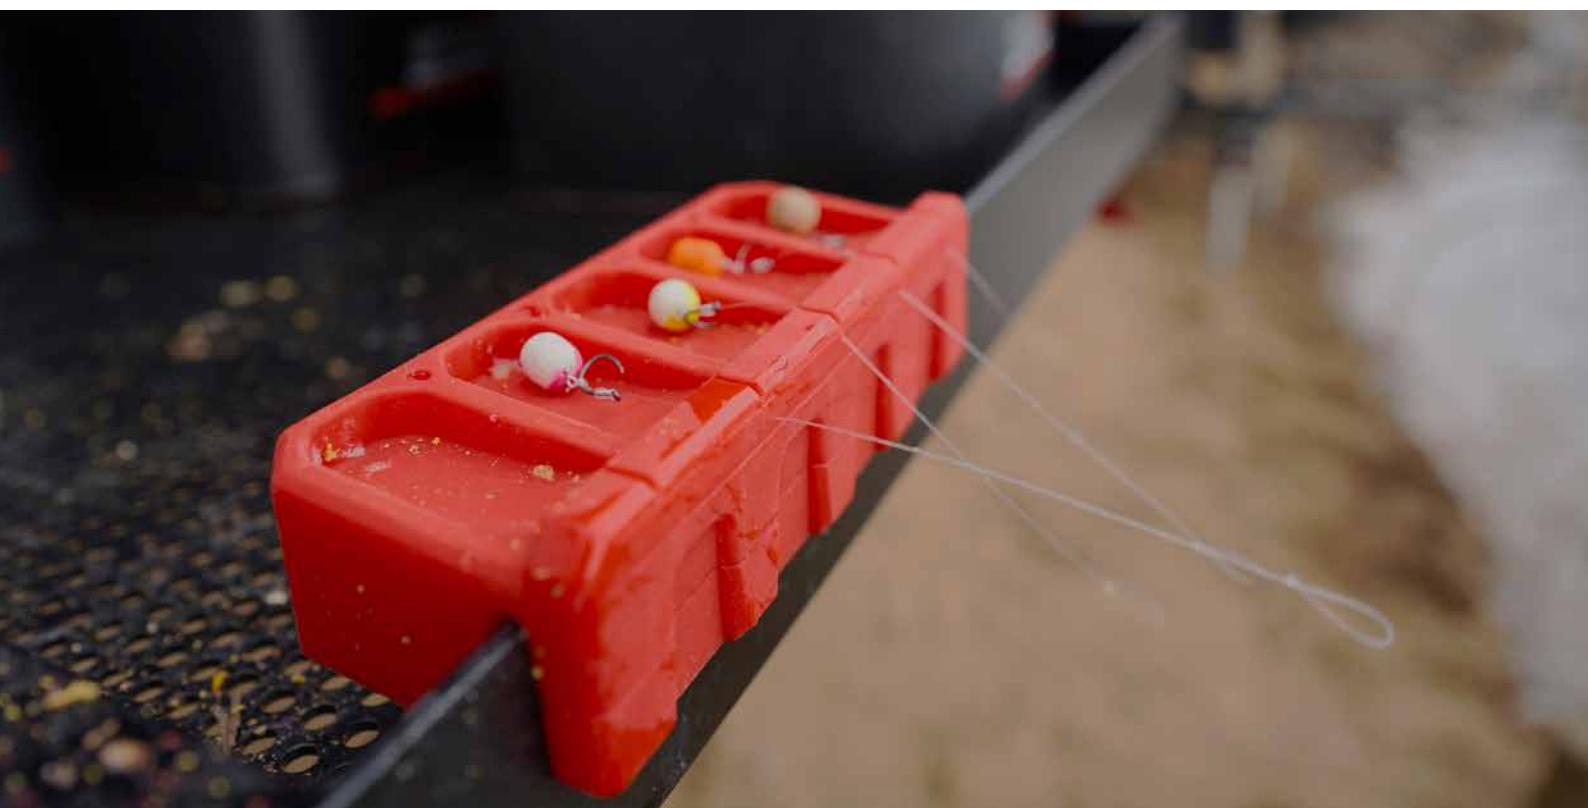

KLIP-ON DIP TRAY

Do you use bait dips? They are often standing here or there but never in the same place. We recognized that and have designed a Klip-On Dip Tray that will hold a multitude of different sizes. If you use more than one, just add more to your bait tub or EVA-tub to keep them neatly together. They also fit most pots/tubs with bandums, sinkers, mini boilies and wafers.

- > Extremely versatile
- > Strong and flexible
- > Ideal for saving space and staying organized
- > Fits just about every bait and EVA tub
- > Cavity for most bottles and pots with flavours and dips
- > Fits most tubs with bandums, sinkers, mini boilies and wafers
- > Cavities for baiting needles and bait drills

BAIT WHIZZA

NEW

The Nytro Bait Whizza offers a quick solution to chopping bait quickly and efficiently. Useful for chopping worms, maggots, corn and other soft texture bait. Designed with three razor sharp blades, the Whizza chops bait up quickly, giving you more time to fish. Compact design and very easy to use and clean.

- > Bait chopper
- > Suitable for worms, maggots, corn and luncheon meat
- > Easy to use
- > Easy to clean
- > Time-saving

CODE	DESCRIPTION	DIMENSIONS
20700015	BAIT WHIZZA	12.5 x 9.3 CM

TARGETZ

- > Three sizes S – M – L, in various weights
- > Designed in close cooperation with Tommy Pickering
- > High-grade plastic body lifts faster on retrieve than a wire cage feeder avoiding obstacles on the bottom
- > Custom designed for precise long-distance casting
- > Precision engineered rounded holes, enhancing bait release and improving water flow
- > Aerodynamic placement of the weight for added distance casting
- > Maximum water flow to minimize resistance in the water on the retrieve
- > Supreme bait presentation
- > Ideal for a wide variety of different bait
- > Lead free

TARGETZ BULLET FEEDERS

These lead-free Targetz Bullet Feeders are totally different! They are available in three sizes, small – medium and large and come in a variety of popular casting weights. As a result of the specific placement of the bullet weight, Targetz Bullet Feeders cast further, fly straighter and cause less resistance on the retrieve. The precision designed holes allow for a better water flow, making them ideal for delivering and releasing a variety of different bait. Targetz Bullet Feeders offer supreme bait presentation.

TARGETZ OPEN-END CAGE FEEDERS

The lead free Targetz Open-end Feeders are not just another open-end feeder! They are different and are available in three sizes, small, medium and large and come in a variety of popular casting weights. Designed with a contoured side, Targetz Feeders cast further, fly straight and offer less resistance in water on retrieve. The precision designed holes allow for a better water flow, making them ideal for delivering and releasing a variety of different bait. These feeders lay flat on the bottom, offering superior bait presentation. The debossed weights offer added contact with the bottom which is perfect when fishing over features.

- > Three sizes S – M – L, in various weights
- > Designed in close cooperation with Tommy Pickering
- > High-grade plastic basket rises up faster on the retrieve than wire cage feeders, avoiding obstacles on the bottom
- > Custom designed for precise long-distance casting
- > Precision engineered rounded holes ensure enhanced bait release and improved water flow
- > Weight-forward placement of weight on the side of the feeder avoids unbalance and enables added accuracy and casting distance
- > The contoured weight allows the feeder to lay straight every time it touches the bottom
- > Debossed weight and logo on the weight for added contact with the bottom, perfect when moving the feeder
- > Maximum water flow to minimize resistance in the water on the retrieve
- > Supreme bait presentation
- > Ideal for a wide variety of different bait
- > Lead free

TARGETZ 6MM WIRE BULLET FEEDER

NEW

The TARGETZ range of feeders has been expanded with a series of leadfree Wire Cage Bullet Feeders. They are available in three sizes, small – medium and large and come in a variety of popular casting weights. As a result of the specific placement of the bullet weight, Targetz Bullet Feeders cast further, fly straighter and cause less resistance on the retrieve.

TARGETZ 6MM BAIT-UP FEEDER

NEW

The Targetz Bait-up Feeder M18 is specially designed for situations when there is a need to apply larger amounts of bait or feed. The Bait-up Feeder features a mesh top and a looped and crimped twisted double mono, for extra strength when casting longer distances. Ideal for feeding ground bait or loose feed like corn, hemp, pellets, chopped worm and maggots, topped off with a layer of groundbait.

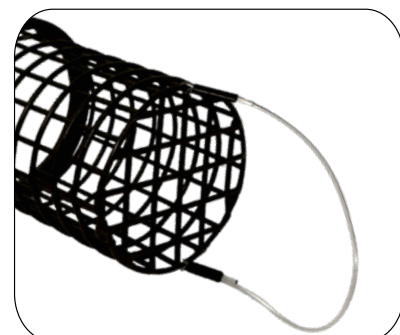

- > Size medium 18gr
- > 6 x 6mm wire frame
- > Ideal for baiting up larger volumes of bait and loose feed
- > Looped and crimped
- > Lead free

Ideal in combination with the Bait Up rod and reel (see pages 15 and 40).

TARGETZ TCS INLINE FLAT METHOD FEEDERS

2023
NEW

Flat Method feeders are more popular than ever and are a very efficient way of targeting species such as carp, bream and tench. These feeders are designed to present bait in a way that attracts fish to a concentrated area, making them highly effective.

We are excited to present our new range of Leadfree Targetz TCS Inline Flat Method Feeders, crafted with innovation and environmental responsibility in mind. Here are the key features that set our feeders apart:

- > Flat profile: Lightweight, moulded hydrocarbon-polymer body combined with leadfree balanced weighted base
- > Bait retention: Equipped with a raised back end and a recessed platform that holds groundbait or pellets securely
- > Weight-distribution: Even weight-distributed on the bottom of the feeder allows for long and accurate casting
- > Efficient bait release: Our Method feeders are designed to release bait efficiently, ensuring that a small amount of bait is consistently available around the hook
- > Interchangeable system: Our TCS Inline Method Feeders feature an interchangeable system with a variety of different stem kits
- > Ease of use: The straightforward design allows for quick and easy bait loading and rigging. See our three sizes of Method Molds
- > Versatility: Our Leadfree TCS Inline Flat Method Feeders come in various sizes and weights
- > Eco-friendly design: Made from lead-free materials, these feeders are environmentally responsible, reducing the ecological impact on water bodies and ensuring a safer habitat for aquatic life

TCS STEMKIT

NEW

We have developed three distinct stem kits to complement the TCS Inline Method Feeders: two inline versions in varied lengths and one elasticated stem kit. The inline stem kits are ingeniously designed so that a rubber hood is not needed, as it is already incorporated into the stem design. This innovation makes them slicker and more streamlined, enhancing their performance and ease of use.

TARGETZ FLAT METHOD LATEX MOLD

NEW

Discover our innovative Method feeder moulds, available in three sizes—small, medium, and large. Offering significant advantages over conventional latex moulds. The symmetric design ensures you never have to worry about the front or back of the feeder, while the slightly deeper mould makes adding a double layer to your method feeder easier than ever. With convenient side wings for easy opening, your moulded feeder comes out perfectly every time. Made from high-quality latex with a special coating, these moulds guarantee that the bait always releases effortlessly.
