ONLINEKATALOG 2025

SPRO Gamakatsu Trout Master FREESTYLE
CRESTA STRATEGY POLE POSITION POWER CATCHER

CATALOGUE 2025

In this latest edition of the SPRO Deutschland GmbH catalogue, we have categorised our products per item type. You can still see a reference for which brand the product is part of by looking at the coloured bar in the top left corner of every product block. An index for which colour represents each brand and a short introduction for each is laid out below. To view ranges per brand in more detail please visit our brand web pages by scanning the large QR code with the camera app on your smartphone.

SPRO	SPRO Predator products are specialist products for targeting predatory fish. This comprehensive range is made up of products sold throughout Europe and the United States. Products are designed in collaboration with our extensive team of fishing professionals.
FREESTYLE	SPRO Freestyle products are designed for active lure fishing with a focus on finesse-angling techniques. The range features many truly innovative products that make active lure fishing comfortable and ultimately more successful.
POWER CATCHER	SPRO Power Catcher products have been made with a focus on creating the best value for money while keeping the high quality expected from SPRO. Power Catcher is an ideal range for shops to stock with many predator fishing essentials within it.
Trout Master	SPRO Trout Master products make up our comprehensive range of trout fishing products for the modern trout angler. The range covers all aspects of trout lake fishing with tackle for all major disciplines from ultra-light lure fishing to general float fishing.
Gamakatsu	Gamakatsu is a world renowned hook manufacture. Best known for ultra sharp and durable hooks. This year we have introduced many new high-quality models for the predator angler making the range incredibly versatile.
STRATEGY	Strategy carp products are designed and developed with a focus on quality and innovation. The range features a truly unique modular terminal tackle and tackle box system as well as high-quality carp rods and very clever accessories.
POLE POSITION TACKLE TECHNOLOGY	Pole Position sets a benchmark in carp fishing terminal tackle. Extremely high quality and innovative components make up a large part of the range and premium fishing lines cap it off. The range allows anglers to build complex and clever carp rigs.
CRESTA	Cresta is our premium feeder and course fishing range. It is made up of well-thought-through products including very high-performance feeder rods, modular terminal tackle systems and high-quality seatboxes and accessories.
CTEC	CTEC course and carp products are designed with a focus on price. Here you will find essential products for coarse fishing from entry-level rods and terminal tackle to general accessories and equipment including bags, banksticks and boxes.
SPRO	SPRO Saltwater covers lure and bait fishing for saltwater fish. This wide range is filled with tackle to cover saltwater fishing across Europe from deep sea fishing in the north sea to fine bottom fishing in the Mediterranean.
SPRO	SPRO All-Round covers the general fishing market. The range is made up of all-round rods, functional clothing and essential accessories.

SPECTER SEA SPIN

EXTRA POWER

EIGENSCHAFTEN
- Bis zu 30% stärker als Spectre Finesse
- Größere Guides im Vergleich zu Spectre Finesse
- Ideal zum Werfen von Hard- und Softbaits
- Verstärkte Blanks für mehr Kraft
- Ideal für große Salz und Süßwasser Raubfische
- Doppelt gesicherter Rollensitz
- Schnelle Aktion für das Angeln mit mittelschweren Ködern

PRO COMMERCIAL F1 SUPER SPADE

NEW 2025

20 18 16 14

Das F1-Super Spade End wurde speziell für empfindliche Futterfische an kommerziellen Angelplätzen entwickelt. Dieses spatenlose Modell basiert auf dem berühmten Gamakatsu 7010 und wird aus dem A1-Draht hergestellt. Die gerade Nadelspitze, die leicht nach innen versetzt ist, bietet eine extrem hohe Hakenkontaktchance bei den misstrauischsten Fressfischen.

NEW 2025

18 16 14 12

Wie der Name schon sagt, ist der Allround Spade End ein sehr universelles Modell, das auf dem Gama 2260 basiert und aus A1-Draht besteht. Dieser Haken ohne Widerhaken kann das ganze Jahr über für fast alle Arten von hakbaren Ködern verwendet werden. Das macht ihn zum idealen Haken für kommerzielle Angelplätze mit einem gemischten Bestand an Arten und Größen. Die leicht gebogene Spitze bietet jedem Fisch am Haken einen guten Halt. Der mittlere Draht ermöglicht eine sehr sensible Köderpräsentation und bietet die zusätzliche Stärke, die man braucht, wenn ein Bonusfisch am Haken hängt. Die P.T.F.E.-Beschichtung verbessert die Durchschlagskraft und hält die Spitze extrem scharf.

PRO COMMERCIAL XS COMMERCIAL SPADE

NEW 2025

16 14 12 10

Die XS Commercial kommt ins Spiel, wenn größere Fische das Ziel sind, z. B. beim Angeln am Rande oder an Stellen wie einer Insel. Basierend auf der originalen Gamakatsu 3360, bietet diese runde, gebogene und gezwungene Rute aus dem sehr starken A1-Draht viel Kraft, wenn sie am meisten gebraucht wird. Die leicht gebogene und relativ lange Spitze bietet jedem gehakten Fisch großartigen Halt. Große Köderbündel, wie tote Maden, mehrere Würmer oder Maisstücke, können auf diesem Haken perfekt präsentiert werden. Die P.T.F.E.-Beschichtung verbessert die Durchschlagskraft und hält die Spitze extrem scharf.

NEW 2025

16 14 12 10

Wie der Name schon sagt, ist der Allround Eyed ein sehr universelles Modell, das auf dem Gama 2260 basiert und aus A1-Draht besteht. Dieser Haken ohne Widerhaken kann das ganze Jahr über für fast alle Arten von Hakenködern verwendet werden. Dank des Öhrs kann dieser Haken leicht mit einem Haar verknotet werden. Das ermöglicht die Verwendung von harten Ködern in Verbindung mit einem Köderband, Stopper oder Lasso. Der mittelstarke Draht ermöglicht eine sehr sensible Köderpräsentation und bietet die zusätzliche Stärke, die man braucht, wenn man den Bonusfisch am Haken hat. Die P.T.F.E.-Beschichtung verbessert die Durchschlagskraft und hält die Spitze ultrascharf.

PRO COMMERCIAL POWER CARP SPADE

NEW 2025

18 16 14 12

Der Original Gamakatsu Power Carp ist vielen Anglern als idealer Beifanghaken bekannt. Die runde Biegung und die ausgeklügelte Länge der Spitze ermöglichen es, maximalen Druck auf den gehakten Fisch auszuüben. Das macht ihn zum idealen Haken für schwere, elastische Montagen in Kombination mit einem Zugsystem. Die versetzte, leicht gebogene Spitze und die P.T.F.E.-Beschichtung sorgen für eine sehr hohe Durchschlagskraft. Die erzwungene Biegung und der etwas größere Drahtdurchmesser verleihen diesem Haken die ultimative Stärke, mit der du einen Fisch schnell und sicher landen kannst.

PRO COMMERCIAL KING PRO SPADE

NEW 2025

18 16 14 12

Die King Pro basiert auf dem Originalmodell Gamakatsu 2210, das in ganz Europa für seinen großartigen Hakenhalt dank der versetzten und gebogenen Spitze bekannt ist. Diese widerhakenlose Version aus A1-Draht macht da keine Ausnahme. Vor allem, wenn der Hakenköder etwas zu tief an der Rute oder mit einem langen Schwanz bei der Feeder-Taktik präsentiert werden soll, wird dieses Modell von vielen Top-Anglern bevorzugt. Dieses mittelschwere Drahtmuster ermöglicht eine sehr sensible Köderpräsentation und dank des geschmiedeten Stahls wurde eine zusätzliche Kraft hinzugefügt. Die P.T.F.E.-Beschichtung verbessert die Durchschlagskraft und hält die Spitze extrem scharf.

NANO ALPHA

Die Gamakatsu Nano Alpha Technologie setzt neue Maßstäbe, die bisher in der Hakenherstellung unerreichbar waren. Nano Alpha stellt einen Paradigmenwechsel in der Hakenperformance mit erhöhter Penetration und Korrosionsbeständigkeit dar. Nano Alpha setzt einen neuen Standard und bleibt Gamakatsus ständigem Engagement für "Innovation statt Imitation" treu. Die Nano Alpha Haken verfügen über eine außergewöhnlich glatte Oberfläche, die die Durchschlagskraft im Vergleich zu standardmäßig beschichteten Haken um das Doppelte erhöht. Dadurch dringen diese Haken schneller und weiter ein als Standardbeschichtungen, was zu höheren Fangquoten bei Fischen aller Arten führt. Die Nano-Alpha-Beschichtungstechnologie bietet eine bessere Korrosionsbeständigkeit als eine Standard-Hakenbeschichtung. Diese Beschichtung verlängert nicht nur die Lebensdauer der Haken, sondern sorgt auch dafür, dass sie sowohl in Süß- als auch in Salzwasser ihre Spitzenleistung beibehalten. Sie verhindert viermal besser die Entstehung von Rost und Korrosion, insbesondere an den Spitzen, die die Haken schnell abstumpfen lassen.

G-FINESSE TREBLE TGW NSC

NEW 2025

Der G-Finesse Treble Hook von Gamakatsu ist dem traditionellen O'Shaughnessy-Haken nachempfunden. Aaron Martens ist seit langem ein Befürworter des O'Shaughnessy-Hakens mit seinem charakteristischen spitzen Winkel an der Unterseite des Hakens.

TREBLE EWG, SHORT SHANK, (MAGIC EYE)

NEW 2025

Der kürzere Schaft und die breite Lücke Design bietet weniger Platz für Fische, um den Haken abzuwerfen. Tatsächlich klemmt diese Eigenschaft den Fisch zwischen dem Haken und dem Köder ein Das ist aber noch nicht alles. Er verfügt auch über das exklusive "Magic Eye" von Gamakatsu, das den Hakenwechsel zum Kinderspiel macht. Die Inline-Punkte des Hakens verlaufen parallel zum Köder und bilden einen perfekten Balancepunkt, damit Ihre Crankbaits richtig laufen.

TREBLE SP MEDIUM HEAVY HYPERSHIELD

NEW 2025

Der Treble SP Medium Heavy Hypershield verfügt über TGW (Tournament Grade Wire), der dünner, stärker und schärfer ist als Standarddraht. Hypershield Beschichtung erhöht die Korrosionsbeständigkeit. Die Hypershield-Beschichtung sorgt außerdem dafür, dass die Haken länger scharf bleiben, was ihn zum perfekten Drillingshaken für große Fische macht. Der Treble SP MH ist mit dem ikonischen ME (Magic Eye) gepaart, was es extrem einfach macht, vorhandene Haken an jedem Split-Ring eines Crankbaits oder Wobblers zu ersetzen.

TREBLE SP XH

NEW 2025

Das Ersetzen von Standardhaken an Wobblern, Jigs und Spoons durch Gamakatsus SP XH-Dreifachhaken ist ein sofortiges Upgrade. Die Tournament Grade Wire (TGW)-Konstruktion ist dünner, stärker und schärfer als Standarddraht und macht diese Haken zu Gamakatsus stärksten Drillingen überhaupt. Außerdem eliminiert das kurze Schaftdesign die Hebelwirkung, die zu abgenutzten Backen und gezogenen Haken führen kann.

G-POWER STINGER TRAILER

NEW 2025

Der Stinger Trailer hat einen strategisch entwickelten Ösenwinkel. Dies ermöglicht es dem Haken, bei jeder Einholgeschwindigkeit gerade durch die Wassersäule zu laufen, was zu mehr Bissen führt. Um diesen Stinger-Haken noch effizienter zu machen, hat Gamakatsu ihn mit einem Silikonstopper gepaart, der direkt über dem Öhr angebracht wird und verhindert, dass der Haken über den Widerhaken des Haupthakens rutscht.

SUPERLINE SPRING LOCK MONSTER, WEIGHTED

NEW 2025

Wenn die Bedingungen nach großen Ködern verlangen, ist das neue Spring Lock Monster von Gamakatsu genau darauf ausgelegt. Mit 3/8 oder ½ Unze Blei beschwert, hält das Spring Lock Monster aggressiven Würfen und bösartig harten Hakensätzen stand. Der "Center Point"-Federverschluss ist einfach zu starten und zu spannen. Die Köder bleiben immer und überall gerade. Hakengrößen von 9/0, 10/0 oder 12/0 warten auf Fänge.

ROUND 26 WEEDLESS

NEW 2025

Wie das Original Round 26 verfügt auch die krautfreie Version über einen Standard-Bleikragen, ist aber zusätzlich mit zwei versetzten Widerhaken ausgestattet, die eine breite Palette von Weichplastikködern sicher und fest halten. Es verfügt auch über eine Dual-Titan, Draht, welche nicht brechen wird.

UNDER SPIN HEAD

NEW 2025

Der Under Spin Head ist mit einem Gamakatsu Heavy Cover 60-Grad-Haken ausgestattet. Der starke Draht und das weite Gap-Design des Heavy Cover geben Anglern eine bessere Hook Up Ratio und Rückhalt bei der Verwendung von sperrigen Swimbaits. Ideal für schwere geflochtene Schnur oder Fluorocarbon. Das Kopfprofil ist stromlinienförmig, um durch die Tarnung zu gleiten. Der Gamakatsu Spring Lock hält Schwimmköder und andere Kunstköder sanft, aber sicher fest und sorgt dafür, dass Ihre Präsentation gerade am Haken bleibt. Die vertieften, naturgetreuen Augen des Under Spin bieten einen Blickfang für Raubfische. Das kleine verchromte Blatt ist an einem hochwertigen kugelgelagerten Wirbel befestigt, so dass es sich selbst bei langsamsten Bewegungen frei drehen kann

UNDER SPIN HEAD MINI

NEW 2025

Der Under Spin Head Mini ist mit Gamakatsus erstklassigem 60-Grad-Haken der Größe 1 Finesse Heavy Cover ausgestattet. Dank des breiten Spaltdesigns können Sie auch größere Kunstköder montieren und haben trotzdem einen guten Biss. Das stromlinienförmige Profil des Kopfes ist ideal für kleinere Finesse-Präsentationen und lässt Sie durch die Tarnung gleiten. Auffällige, eingelassene, naturgetreue Augen und die kleine verchromte Weidenblattklinge ergeben eine Kombination, der die Fische nicht widerstehen können. Der Spring Lock von Gamakatsu hält Schwimmköder und andere Kunstköder sanft, aber sicher fest und sorgt dafür, dass die Präsentation gerade am Haken bleibt.

SUPERLINE SWIM BAIT HEAD

NEW 2025

Das Kopfprofil ist stromlinienförmig und sorgt für eine natürliche Aktion. Sie haben die Wahl zwischen lackierten Köpfen und unlackierten Köpfen für Angler, die einen individuellen Look zum Selbermachen bevorzugen. Der 60-Grad-Superline-Haken aus starkem Draht eignet sich optimal für geflochtene Schnüre und schwere monofile Schnüre. Der Spring Lock Köderhalter hält alle Weichplastikköder sicher und fest und rundet das Paket ab.

POWER DROP WITH SUPERLINE EWG

NEW 2025

Die Power Drop-Serie ist einzigartig um einen massiven Ring herum aufgebaut, der den Premium-Haken, den Wirbel und einen 3,5-Zoll-Dropper-Draht miteinander verbindet. Der Superline EWG gilt als der Goldstandard bei Hochleistungshaken mit breiter Lücke; diese Option verfügt über unsere Superline EWG-Haken der Serie 744XX. Der hochwertige Gamakatsu-Wirbel vervollständigt jedes Rig, um Schnurverdrehungen zu verhindern.

SPRING LOCK SPINNER

NEW 2025

Der neue Spring Lock Spinner von Gamakatsu macht Ihre Lieblings-Swimbaits und andere Weichplastikköder noch effektiver, indem er sie mit einem Blitzlicht und Vibrationen ausstattet, um Fische aus noch größerer Entfernung anzulocken. Das revolutionäre Design verfügt über zwei parallel gewickelte Haltedrähte, die das Aufriggen vereinfachen und für noch mehr Haltekraft sorgen, sodass die Köder nicht verrutschen, egal wie stark Sie angeln. Das neue Montagesystem verfügt über innovative Funktionen, die den Köder auch bei starkem Fischdruck zum Anhieb bringen, und ist mit einem hochwertigen, 2fach starken Haken ausgestattet, der auch den größten Raubfischen gewachsen ist. Die Kombination aus dem 28-Grad-Hakenauge und dem Premium-Federverschluss ermöglicht es Ihnen, Ihren Köder an Ort und Stelle zu halten, damit er bei jedem Wurf richtig läuft.

G-POWER HEAVY COVER FLIP AND PUNCH

NEW 2025

Gamakatsu hat den neuen G-Power Heavy Cover Flip and Punch Hook entwickelt. Eine Steigerung des G-Finesse Heavy Cover Hooks, für ernsthaftes Flippen und Punchen mit schwerem Fluorocarbon und Geflecht. Der TGW (Tournament Grade Wire) Haken, gepaart mit seinem geschweißten Öhr, macht diesen Haken zum stärksten Heavy Cover Haken in Gamakatsus G-Serie. Ideal für größere Köder und Gewichte, zum Durchschlagen von Gräsern und zum Flippen in schwerem Holz. Der G-Power Flip and Punch passt ideal zu allen Arten von Bewuchs und kann extremen Bedingungen standhalten.

HEAVY COVER WORM

NEW 2025

Der Heavy Cover Worm verfügt über unser stabiles geschweißtes Auge, das sich perfekt zum Binden eines Snell-Knotens mit Geflecht eignet. Gamakatsu hat mit unseren Top-Profis zusammengearbeitet, um einen verbesserten Keeper zu entwickeln. Anstelle eines sperrigen Schrumpfwiderhakens verfügt der Heavy Cover Worm über eine kleine Drahthalterung.

FINESSE HEAVY COVER WORM

NEW 2025

Der Finesse Heavy Cover Wurmhaken ist ein leichter Finesse-Haken aus Draht, der den ersten geraden Haken mit breiter Öffnung für das Finesse-Wurmangeln bietet. Wie alle Heavy Cover Haken verfügt auch der Finesse über ein geschweißtes Öhr und eine Drahthalterung, die sicherstellt, dass der Wurm nicht vom Haken rutscht.

G-FINESSE WORM LIGHT WIRE TIN

NEW 2025

Wenn die Bedingungen Finesse erfordern, verwenden die Profis G-Finesse Worm Light Wire-Haken. Der leichte Draht ermöglicht das einfache Einfädeln von Würmern mit extrem kleinem Durchmesser. Selbst die zerbrechlichsten Kunststoffteile reißen nicht so leicht, was Köder einspart und die Angelzeit verlängert. Der nicht korrosive Zinnhaken erhöht das Gewicht nicht. Wie alle G-Finesse-Haken dringt auch der Worm Light-Haken mit deutlich weniger Kraftaufwand ein und ist damit wesentlich effektiver.

WICKED WACKY

NEW 2025

Der neue Standard im Wacky-Haken-Design. Der Wicked Wacky ist auf dem bewährten Shiner-Haken von Gamakatsu aufgebaut und verfügt über einen haltbaren, handgebundenen Unkrautschutz, der Anglern das Vertrauen gibt, ihre Wacky-Rigs in und um schwere Deckungen zu werfen. Darüber hinaus bringt der Wicked Wacky den Power-Dropshot auf ein neues Niveau. Gamakatsu hat ein innovatives hohles Röhrchen entwickelt, das von Hand auf den Schaft gebunden wird.

WEEDLESS DROP SHOT NSB

NEW 2025

Das breite Hakendesign ist mit einem haarscharfen, handgebundenen Krautschutz gepaart, der für sofortige Anhakungen sorgt. Der Unkrautschutz behält seine Form und Beständigkeit von Fisch zu Fisch bei und ist ultra-effektiv, wenn es darum geht, bei freiliegenden Hakenmontagen unkrautfrei zu bleiben.

G-FINESSE JIG HEAD WACKY

NEW 2025

Der Jig Head Wacky von Gamakatsu ist eine enorme Verbesserung gegenüber anderen Wacky Jigs. Der Unkrautschutz aus Nickel/Titan ist das erste Anzeichen dafür, dass Gamakatsu die Messlatte beim Bassfischen höher gelegt hat. Dieser Unkrautschutz ist klein, aber mächtig, denn er räumt effektiv Hindernisse aus dem Weg und behält seine Form und Steifigkeit auch bei härtestem Einsatz. Auch der Jigkopf ist eine Verbesserung. Das Hakenöhr wurde so gestaltet, dass es sich nicht verfangen kann, und ist vertieft, damit es sich nicht in Strukturen verhakt. Auch der Haken ist anders, eine Sonderanfertigung, die auf einem Shiner-Haken basiert, aber für den Jig Head Wacky modifiziert wurde. Das Ergebnis ist ein viel höheres Verhältnis von Hooks und gelandeten Fischen als bei jeder anderen vergleichbaren Marke.

G-FINESSE COVER NEKO

NEW 2025

Der Cover Neko Hook besteht aus einem geraden Ösenhaken im Shiner-Stil mit einem angebrachten Wirbel, der ein Verdrehen der Schnur verhindert. Außerdem gibt es einen starken 90-Grad-Drahthalter, der den Kunststoff an seinem Platz hält. Zusammengenommen ist dies ein Werkzeug, mit dem Angler leicht durch Gestrüpp, Ablagerungen und Gras angeln können, während sie die Hook-up-Quote maximieren.

G-FINESSE FEATHERED TREBLE MH

NEW 2025

Die gefiederten G-Finesse-Trebles sind mit TGW (Tournament-Grade Wire) konstruiert, der dünner, stärker und schärfer ist als der Standarddraht. Das bedeutet, dass Angler weniger von ihnen verwenden werden, während sie im Laufe des Angeltages bessere Hook-up-quoten gewährleisten. Abgerundet wird das Ganze durch eine Nano-Coat-Beschichtung, die das Durchdringen der Köder noch einfacher macht.

GAMAKATSU LUXXE LAUGHIN' 170

LANGSAM SCHWIMMEND

NEW 2025

Model	Dive	Length	Weight	Hook	SU
170	0,5m	17cm	46g	Treble 13 #02	3x1

- Ein Originalmodell von Gamakatsu Luxxe
- Entwickelt, um langsam zu fischen. Der Köder kann sehr flach gefischt werden, um explosive Bisse zu erzielen.
- Das dezente Lippendesign mit dem gegliederten Körper schafft einen appetitlichen Köder.

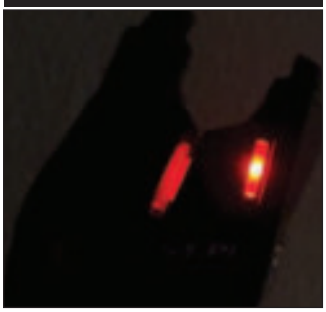
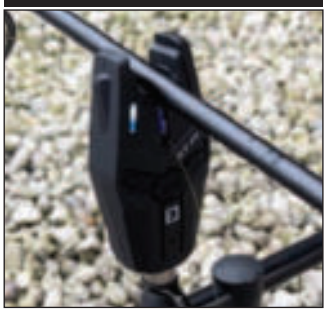
WASSERRESISTENT

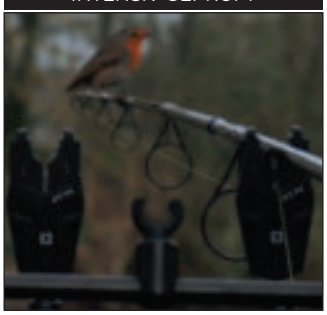
NACHTLICHT



FALLBISS INDIKATION



INTENSIV GEPRÜFT



EINFACHES VERBINDEN

LAUTLOS FUNKTION

EIGENSCHAFTEN ALARM
- 8 Toneinstellungen
- 8 Lautstärkestufen / Stummschaltung
- 5 Sensibilitätsstufen
- Weiße Dropback-LED 20 Sek.
- Nachtlicht-Leuchtrolle
- 2,5 mm Klinkenstecker
- Warnung bei niedrigem Batteriestand
- Speicherfunktion
- Empfindlicher Schnurroller mit 8 Magneten
- Reichweite 150m
- Betrieb mit 2x 1,5V Batterien
- LEDs grün / weiß / blau / rot
- Wasserabweisende Konstruktion

EIGENSCHAFTEN RECEIVER
- 8 Lautstärkestufen / leise / vibrieren
- 5 farbige LEDs zur Auswahl
- Vibrationsmodus / Stiller Modus
- LED-Dimmer
- Warnung bei niedrigem Batteriestand
- Speicherfunktion
- Reichweite 150m
- Betrieb mit 3x 1,5V-Batterien
- Einfacher Verbindungsaufbau zum Alarmen

STRATEGY FAST SHELTER

LEICHT UND STABIL

INFO

- Wasserabweisendes Material: Das Zeltmaterial, mit einer Wassersäule von 5000 mm, hält Sie auch bei schlechtem Wetter trocken und komfortabel.

- Heringe: Die 6 starken Heringe halten das Fast Shelter-Zelt auch bei starkem Wind fest im Boden verankert.

- Abspannseile: 2 x 4 m Abspannseile zur Befestigung bei stürmischen Bedingungen. Dank der ausreichenden Länge der Seile sind Sie beim Aufbau des Karpfenzeltes flexibel.

- Kompaktes Packmaß: Das kompakte Packmaß des Fast Shelter sorgt für einen entspannten und platzsparenden Transport.

- Das Design: Das klassische Design in einem edlen Grün ist ein Blickfang und harmoniert perfekt mit der natürlichen Umgebung.

- Fliegengewicht: Mit nur 2,8 kg ist der Fast Shelter ein echtes Leichtgewicht und leicht zu transportieren.

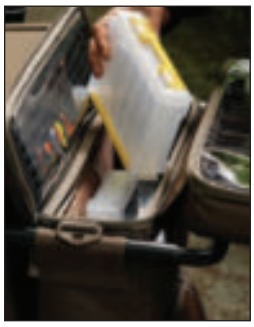
LIEFERUNG ANFANG 2025

EIGENSCHAFTEN
- 3 Taschen mit unterschiedlichen Einsatzmöglichkeiten
- 2 Rutenhalter in guter Höhe für Forellenruten
- 2 hochwertige Reifen
- Ausklappbarer Sitz im hinteren Bereich
- 2 EVA-Hartschalentische
- Stabil und einfach aufzubauen
- Spezieller Pasten- und Spoonbereich für schnellen Zugriff
- Hochwertige große Kühltasche mit Frontöffnung
- Die Taschen können mit dem Schultergurt einzeln verwendet werden



TASCHE 1: TACKLE TASCHE			
35,3% PVC	30,5% PE	25,5% PP	8,7% PES

Eine Tasche mit einer Öffnung am Hinteren bereich, mit festem Verdeck, das auch während des Gebrauchs als Tisch verwendet werden kann. Der perfekte Platz für Boxen, Lebensmittel, Kleidung und Zubehör, auf das Sie jederzeit zugreifen wollen.

TASCHE 2: ZUBEHÖR TASCHE			
35,2% PE	29,2% PVC	25,5% PP	9,3% PES

Der obere Teil dieser Tasche lässt sich umklappen, um ein Pasten- und Köderfach freizulegen, und im Deckelbereich unter dem harten Deckel befindet sich ein weiches Rigboard zur Aufbewahrung von Löffeln und aufgeriggten weichen Köder.

TASCHE 3: KÜHLTASCHE		
61,5% PE	27,6% PVC	10,9% PES

Eine große Kühltasche zur Aufbewahrung von Futter, Köder und gefangenem Fisch. Die Kühltasche hat eine Frontöffnung, so dass sie verwendet werden kann, während sie am Trolley befestigt ist.
