*Even walking through a difficult historical moment, plenty of social-economical new steps, thanks to the relation with our experts and to the continuous cooperation through them and the whole Maver staff, we are again able to offer to our anglers simply the best which can be found in the global fishing market: even for this 2025 season! For all the fishing techniques which we want to develop we propose ourselves to study and develop something which is simply representing the Maver mission: thanks to over 100 seasons of experience, we absolutely want to give the possibility to touch with hands something which will be definitely identifiable with the reliability, the innovation and the emotion that all our items have transmitted to the Maver-lovers during the past seasons through ages.*

*The generations who have dressed and chosen the Maver brand can for sure confirm the super dedication and passion which we have put in every development and every fishing item. Doesn't matter which sector or which discipline: as for seafishing as for freshwaters, as for the newest products as for the best-sellers which we want to offer without any compromise and without any change through ages, we are again here to put our heart, passion and experience in every product and in every detail that we are offering to the market... especially today!*

Matteo Pirazzini

**- ROUBAISIE NNE -**

The Clean Cap system protects the end of the pole sections from accidental damage due to misplaced alignment and cleans out the inner female joint every time you unship. Also will stop your sections sinking if dropped into the water.

Super toughened epoxy resin. Developed by Reglass. Following the success of Sun Core, we have modified the molecular structure of Sun Core and enhanced the mechanical performance of the pre-preg. The Super toughened epoxy resin formulation gives an extremely elegant and innovative black colour finish.

Fusion is two high modulus carbons fused together as one whilst wrapped on the mandrel. The end result being ultra rigid top kits with no tip bounce, allowing the angler to hit lightning fast bites with ease.

The ultimate pre-preg concept. This new resin strongly bonds the carbon fibres & provides the ultimate fishing action.

A special resin finish that enables the pole to be shipped incredibly smoothly & quickly. It's applied from sections 5 to the 13m butt section on many of our poles.

A fine wrap of pure teflon bonded directly onto the male joints, substantially reducing carbon to carbon wear. A simple twist locks the sections in place. We are the only manufacturer in the world that has this innovative feature.

A carbon and resin treatment providing an anti-friction finish that enables the pole to be shipped with incredible ease during wet or dry conditions. This revolutionary surface not only adds strength, but also protects the overall fishing action during hot and cold temperatures.

The first ever formulation of its kind. Exclusive to Reglass production. Nanolith provides unique characteristics of vibration, damping & high strength. The Nanolith is an exceptional molecule, it's a thousand times smaller than a single carbon wire, and creates a bond at atomic level between fibre and matrix.

This clever technology provides the angler with a silky smooth elastic system. A series of teflon coated inner steps prevents the elastic from making contact with the inner wall of the pole sections.

Very High Grade Pitch Modulus fibers M90 HGS and Ultralight multiwall System 3 M9 classified: **Competition**. Super high 1000 grade carbon fibre and P90JS Black Core S.V.Er Super vibrational damping epoxy resin.

Very High Modulus fibers M87 HMS and Ultralight multiwall System 2 M8 classified: **Competition, All round**. High grade 870 carbon fibre Black Core S.V.Er Super vibrational damping epoxy resin.

High Modulus carbon fibre M76 HM and Ultralight multiwall System 2 M7 classified: **Competition, All round, Carpodrome**. High Tensile 760 grade carbon fiber Black Core S.V.Er Super vibrational damping epoxy resin.

High Tensile carbon fibre M55 HS and Ultralight multiwall System 2 M5 classified: **Competition, All round, Carpodrome**. High Tensile 500 grade carbon fiber Black Core S.V.Er Super vibrational damping epoxy resin.

Reglass has developed a realistic and futuristic new fiber which is melting the mechanical properties of the pitch fibers with the Nanolith technology. The nano particles inside the same fiber are permitting a minimal use of the resin during the breeding moment, decreasing this way the product weight! In the meantime the Nanopitch fibers are giving to the final product the best compression strength (never seen before) reducing this way the breakages risk and making all the spares sections stiffer and stiffer in an incredible way!

The new Reglass patent HPS is a super special technology which is giving a 45° angle on the final parts of sections 6-7-8 and it permits a superlative and optimal scrolling of the pole through our hands without any brake and pain! This is technically avoiding the troublesome step which is producing problems and only now and in future will increase the easy handle during the scroll and the slide of our poles.

**- KIT -**

**SLOT SYSTEM:** Really a new system that is actioning during the fighting moment : this system is permitting us to pull the elastic in the stronger and faster way in order to have a quicker landing of the fish, even if is a real big one.

**AB TIP:** Ab tip system is permitting to the last kit part to become stronger ,stiffer and faster. The tip hole is even bigger in order to use hollow elastic and cones. In this way tip and section B are melted inside a unique spare!

## - RODS -

The product development team is every day searching and studying not only the quality of the carbon fibers and the different materials but even the specific resins used to impregnate the same materials: in relation to the different tackles that we want to create we find out the best quality and the particular resins that permit us to obtain a certain result, a certain action and special performance. For decrease the breakages and grant the best curve to our rods we are now able to cross the resin process, making the same one various and multiple times in order to permit the liquid to get inside the single fibers and especially into the coupled ones !!! A very delicate process but really new that is permitting us to develop and create the most reliable fishing rods on the market.

For some fishing techniques the rod tip is not important, is quite all...simply the most important spare! Is the spare that defines the rod action and that grants the curve and the tackle performance, as during the cast as during the fight! Is not so easy to produce the last rod spares in the best way but we are now able to obtain the desired target: advanced materials, new resins and cooking process calculated grade per grade in order to obtain fishing rod where tip and spare B are finally produced in order to present the best sensitivity and a perfect rod action. It was not easy and the investment was quite big but we can finally say to have now created tips, spares B and C of the best quality that are granting the best rod performance!

In order to obtain a perfect fishing tackle is very important that each step during the realization is well studied, checked and super controlled: we deeply wanted that the quality control at the end of each working process is realized and made from reliable technicians and engineers but especially must be closed thanks to computers and softwares, technologically advanced and able to check every single thing. Our informatic system is today able to grant us the best quality control in order to be sure to have perfect rods and tackles with the highest performances. You can be sure to have bought simply the best for your fishing sessions!

All the fishing rods are composed by multiple spares: doesn't matter if they are telescopic, put-over, put-in or spigot models. We have overpassed our experience reaching a real new target: the various sections of each rod must work together and concurrently in order to obtain the ideal action as during the casting action as during the fighting moment. We have hard worked on each spare connection, making a special ultrasonic ionization that permits us to give the best regular action from the various spares of each Maver fishing rod. Another big investment in order to grant to each customer who buy a Maver rod to own a perfect tackle, a fishing rod composed by many spares that are working together in the best checked and controlled way, giving a superlative feeling to the fisherman.

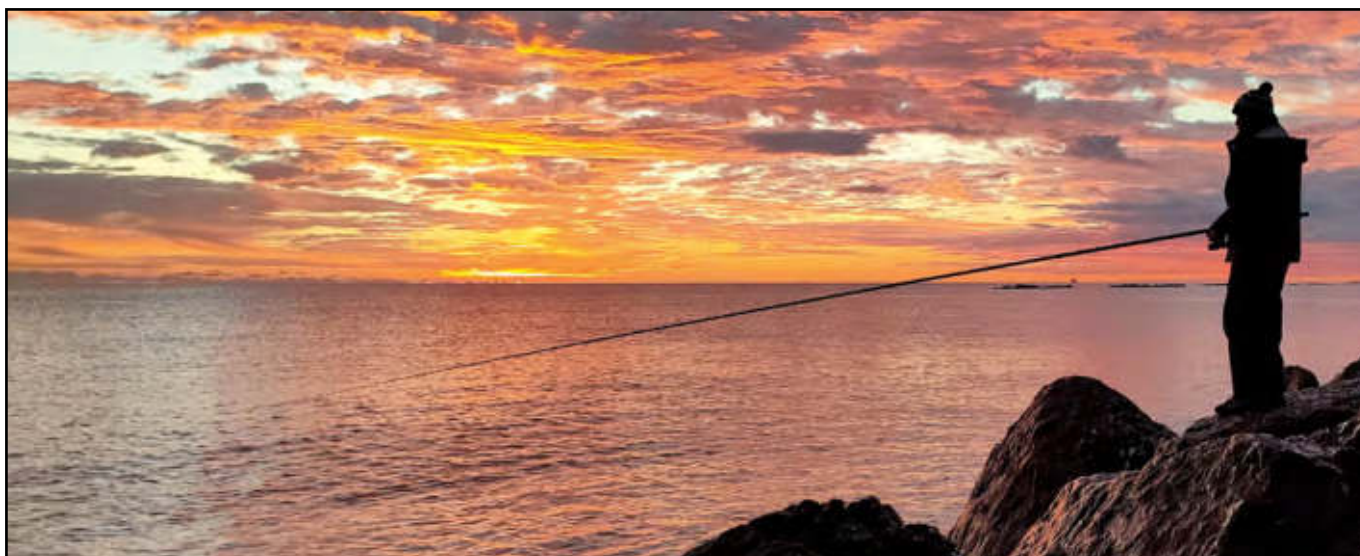

**MAVER CARBON 90** is our best quality and reliability solution in order to create high performance fishing tackle! High modulus carbon 90 in order to be able to create the best, lightest and high quality tackles. Our carbon and resin experience is known worldwide and is bringing us to develop perfect combinations in order to develop simply the best tackles and rods. MC90 is representing the best carbon solution of the highest grade for your fishing rods.

**MAVER CARBON 70** is the Maver solution in order to create strong and reliable tackles but technical in the same time. High modulus carbon 70 in order to build the best quality tackles: light, performant and reliable. Our carbon and resin experience is bringing us to create the best mix and combinations of materials in order to create perfect quality rods, going through different fishing techniques and combining materials focusing on the different fishing tackles that we want to build up.

**MAVER CARBON 50** Maver carbon 50 is our most reliable solution in order to create very strong and powerful fishing tackles: high modulus carbon 50 in order to create the best fishing rods, very powerful and strong ones. Our experience in technology and carbon materials are bringing us to understand the correct combinations for build up the specific rods in relation to the various fishing techniques!

Simply the top level pole in the range. Thanks to the Maver experts and the mutual cooperation with the Reglass engineers, we obtained a super light-weight and balanced tackle but in the meanwhile really versatile: spectacular pole which is simply superbe to handle and to use during our fishing sessions. We wanted to fix the newest topset SIGNATURE M9 in order to produce and have a top range pole chained to the top range topset! The pole is totally compatible with the full range of kits SIGNATURE M9-M7-M5 and the syster range JURASSIC R8-R6-R4-R2; we suggest to use and fix the Signature M9 topsets in order to maintain the lightness and the stiffness.

The maximum expression and quality for the poles in 2 parallel handles: the Kyon Rs9 is the most lightweight and balanced pole in the range; a tackle which is permitting ourselves to fish easy for a lot of hours without any matter! It is super lovely to handle and use it also with light and fine lines. Anyway, it can be adapted also to some carp topsets: it is becoming quite an all-round pole for the most exigent competitor. For its technical features the Kyon rs9 is simply perfect as for fish in the rivers as for the commercial competitions.

The medusa carp xs is simply a stiff and balanced pole to its maximum length: with the commercial topsets it is simply ideal for fish in the carpdomes as during the competitions as during the personal fishing sessions

**THE JOURNAL OF**

Developed from our best experts , it is a 2 parallel handle pole born after the giant success of monster carp pole. Specifically came from this super experience it is the lighter syster of the carp one: it means something in the middle between an allround pole and a strong carp pole. Simply perfect for the angler who wants a technical carp pole: light, balanced, reliable and strong in the meanwhile. Perfect for compete and for fight with nice fishes as well. For this jewel we wanted to developpe even specific kits: the specimen light; as the name is meaning, they are specimen product but in a lighter version. Finally something very strong and reliable but such pleasurable to fish with!

**ABLETTE**  
**PLUS**

A margin pole perfect for fish as in the rivers as in the carpodromes , ideal for any kind of fish thanks for its handy and balancing features; it is compatible with all our Mvr-s and Mvr-K kits.

# KIT SIGNATURE M SERIES

MADE IN ITALY BY: **reglass**

Super technical upgrade born through the Reglass engineers for these new iper-performant topsets ! For realize this new range we wanted a particular carbon fiber: the NANOPITCH one, which in relation to the PITCH ones (used before) has got inside less resin q.ty : this strategy permitted ourselves to build up stiffer and more reliable topsets. So this is an high frequency fiber able to stop a lot of vibrations and to block the mini-movements of our poles.

The SIGNATURE M TOPSET SERIES developes itself starting from same mandrels used for the MV-R S range and like these ones these are sold ready to use (already cut on the top and fit with ptfe bushes).

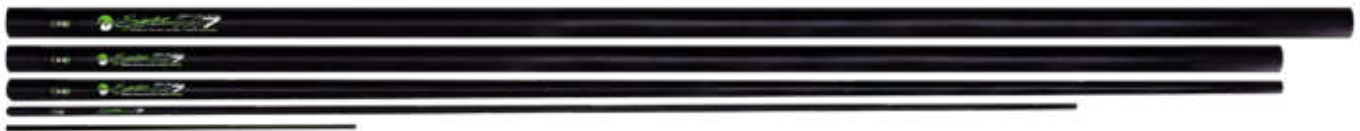

## KIT SIGNATURE M9 **NEW**

8753K004	4	5,80 mt	MAX 2.8 mm	MAX 2.1 mm	203

Top quality topset in the range: on the frontal part we find an AB tip with a roller slot regularly installed on the C section.

# COMMERCIAL CARP KIT

MADE IN ITALY BY: **REGLOSS**

Considering the super success of the latest commercial range, we want now to increase the technical level as the performances of these kits dedicates especially for fisheries and commercials. The design is simply beautiful too: now is born the COMMERCIAL CARP KIT XS. I kit COMMERCIAL CARP XS which are developed with 3 sections kits (tip AB+C) with total length 2,55mt , already slotted and bushed on the top with ptfe bush internal 3,6mm or 4,8mm (depending by which kit) : the slot used is the newest one which permit the "zero friction of the elastic inside the spare"

Reglass engineering is simply superb in order to permit us to create the best performances : lightness and strength combined together !! Another new feature is the signs and the numbers we are printing on the same spares which are permitting us to understand and know always the depth we are fishing ! Now you can know easy and quickly where you are fishing.....surface, medium depth or bottom.

## COMMERCIAL CARP KIT MATCHLITE XS

CODE	SECTION N°	TOT. LENGHT	ELASTIC HOLLOW	GR
8723K002	2	2.55	MAX 2.3 mm	40

The top of the series, indicated for fish as carass, f1, little carps and possible to be used for elastics up to 2,3mm.

## COMMERCIAL CARP KIT POWERLITE XS

CODE	SECTION N°	TOT. LENGHT	ELASTIC HOLLOW	GR
8724K002	2	2.55	MAX 2.5 mm	41

A sensational high quality kit realized with super quality materials which permit us to have a super strong and stiff tackle with a lightweight sensation in the hands, ideal to support elastics till 2,5 mm

## COMMERCIAL CARP KIT POWER XS

CODE	SECTION N°	TOT. LENGHT	ELASTIC HOLLOW	GR
8725K002	2	2.55	MAX 2.8 mm	50

The correct kit to be used where you need to catch a lot of fishes, rushing in the quickest way. It is supporting elastics till 2,8 mm and is incredibly stiff, reliable and light!

## COMMERCIAL CARP KIT POWERPLUS XS

CODE	SECTION N°	TOT. LENGHT	ELASTIC HOLLOW	GR
8726K002	2	2.55	MAX 3.1 mm	65

With this kit you can catch many many fishes, in the quickest time and you can win the fight even with the biggest catches without any problem! The biggest carps will be your target with zero worries. Elastic rating up to 3,1mm but we can of course use even bigger ones!

## COMMERCIAL CARP KIT CUPPING XS

CODE	SECTION N°	TOT. LENGHT	GR
8727K002	2	2.55	52

COMMERCIAL CARP KIT GREY XS MADE IN ITALY BY: *reglass*

CODE	SECTION N°	CLOSED MT	ELASTIC HOLLOW	ELASTIC SOLID	GR
8728K002	2	1.50	MAX 2.3 mm	MAX 1.6 mm	42

Developed for fish in the surface inside the fisheries; Its particular color is making the same kit invisible because every fish cannot see neither the kit neither the shadows, mixing its color perception with the sky reflections ; for realize this super topset we have used the best quality materials which are permitting us to have a super strong, stiff but in the meanwhile really litght kit ; ideal for fish with elastics in the sizes rating around 2,5 mm!

COMMERCIAL CARP KIT GREY 1PC XS MADE IN ITALY BY: *reglass*

CODE	SECTION N°	CLOSED MT	ELASTIC HOLLOW	ELASTIC SOLID	GR
8729K001	1	1.74	MAX 3.1 mm	MAX 2.1 mm	39

2,55mt cupping usable in parallel to the COMMERCIAL CARP XS series : the particular feature is that this cupping is perfectly built to the same length of the whole range of kits, and you don't need to cut it!

MV-R SPECIMEN XS GREY MADE IN ITALY BY: *reglass*

CODE	SECTION N°	TOT. LENGHT	GR
8730K002	2	2.80	63

A topset studied for fight against big fishes in the shallow waters or in the surface. Its grey color permits a perfect invisibility for the fishes, even the most suspicious ones

MV-R SPECIMEN COMPETITION XS GREY MADE IN ITALY BY: *reglass*

CODE	SECTION N°	TOT. LENGHT	GR
8731K002	2	2.80	57

A topset studied for fight against big fishes in the shallow waters or in the surface. Its grey color permits a perfect invisibility for the fishes, even the most suspicious ones

# UNIVERSAL KIT

MADE IN ITALY BY: **REGLOSS**

## KIT MV-R SPECIMEN XS

CODE	SECTION N°	CLOSED MT	ELASTIC HOLLOW	ELASTIC SOLID	GR
8720K003	3	1.50	MAX 4.2 mm	MAX 3.0 mm	128
8720K004	4	1.60	MAX 4.2 mm	MAX 3.0 mm	244

Without any compromise we wanted to build up a kit dedicated to catch fish as biggest carps, esturgeons, catfishes and similars; They have reinforced part on the sections C-D in order to build a slot when needed : it is supporting easily hollow elastics till size 4,2 mm.

## KIT MV-R ULTRA SPECIMEN XS

CODE	SECTION N°	CLOSED MT	ELASTIC HOLLOW	ELASTIC SOLID	GR
8721K002	2	1.40	MAX 6.5 mm	MAX 5.0 mm	67
8721K003	3	1.50	MAX 6.5 mm	MAX 5.0 mm	154
8721K004	4	1.60	MAX 6.5 mm	MAX 5.0 mm	333

The most powerful kit you have ever seen developed to search and land monster fishes even over 20 kg ! Built with reinforced parts on sections C and D in order to create own slots. They can support hollow elastics till 6,5mm size... a really no-limit kit.

## KIT MV-R SPECIMEN COMPETITION XS

CODE	SECTION N°	CLOSED MT	ELASTIC HOLLOW	ELASTIC SOLID	GR
8719K003	3	1.50	MAX 2.8 mm	MAX 2.0 mm	109
8719K004	4	1.60	MAX 2.8 mm	MAX 2.0 mm	201

This topset borrows on the mv-r specimen mandrels: in front of the specimen ones these are more technical and a bit lighter , maintaining the force and the strength, ( 2,5mm and 2,8mm average sizes) for the angler who need a carp or allround pole but in the meanwhile something nice and lighter than a standard carp pole. We produce them with reinforcement on section C and D in order to drill and slot them where we the angler will desire !

## KIT MV-R CUPPING SPECIMEN XS

CODE	SECTION N°	CLOSED MT	GR
8722K003	3	1.50	140

A cupping kit studied for feed with cups and specifically built on MV-R SPECIMEN and ULTRASPECIMEN XS mandrels.

# FIGHTER

MADE IN ITALY BY: **reglass**

The fighters sections are simply a must through the competitors accessories.

The newest FIGHTER XS and KS are interchangeable to the original rods spares but are realized with special reinforced carbon fibers which permit us to fish in short distances avoiding the breakages of standard spares; are studied in order to be fit with the related poles elements as in the above section as in the below one : just for example if you want to fish handling the number 7 , we can use the original spares till the number 6 and use the FIGHTER XS N°7 as it was a real strong butt section . And if we need to quickly extend the lenght, we can fit below the section 11,5 or 13 mt !

FIGHTER 4XS - 5XS are compatible with all the poles of the latest seasons.

FIGHTER XS2 are fitting the range KYON and with all the latest seasons poles (last 3 years) in 2 parallel sections , with a little tolerance.

FIGHTER XS3 are fitting all the latest seasons poles (3 latest seasons) with 3 parallel handles with a little tolerance.

FIGHTER KS are fitting with the Evanon Top Match and Top carp, and with the Evanon K801.

The Superlithium Regular is representing a perfect bolo rod for the angler who is desiring a super slim butt and a real stiff action Slim, stiff and super speed: tip-progressive action for this iper-slim rod which has got a real low weight too and a medium action. The Reglass made in Italy is simply a must: a magnificent work through the best engineering combined with the maximum quality of the carbon layers and real innovative resins... together all is bringing to a superlative quality result! We desired, wanted and tested this bolo in order to handle hooklinks from 0,09 to 0,15 mm and floats from 6 to 15 grams; it is a beautiful tackle for who loves to fish from harbors, rocks and beaches in the sea, searching for the strongest saltwater inhabitants! In the same way you can test it and feel the reliability and its beauty in the rivers and in the lakes against all the big and strongest fishes you can face: this is the time where you can really say to handle simply the best possible tackle!

# SUPERLITHIUM<sup>MX</sup> ALL ROUND

MADE IN ITALY BY: **Reglass**

Rings BCLYOG

NEW

CODE	RINGED	MT	PZ	CLOSED	MM	GR	GR	RING	Ø MIN - MAX	FLOAT GR

The prolite bolo, made in Italy, is the best expression for the bolo rods dedicated to light lines, light floats and real technical fishing sessions where we need to target suspicious fishes in difficult waters. Superlative action: tip-progressive which permits us to cast our light floats and to fight proper way against any kind of fish, handling with care and efficiently all the thin lines (for which this bolo is developed). Another beauty created in combination through Maver and Reglass: through new mandrels, super high quality carbon fibers and newest resins we want to distribute through anglers simply the best light action bolognese rod on the market!

A really famous and well known name in the Maver history that now we are using for this super series bolo rod! A vanguard project, limited and ultra quality that we have developed from two years ago together with Reglass engineers. All the patents from the famous bolognese industrial company are now used, plus all the registered and newest technologies that this company is developing on the carbon fibers work. All the technical details, even the most little ones are fixed in the best way as for the performances.... Really unreachable from other bolognese rods! The series is composed by the light version, iper low weight and extremely balanced, ideal for handle light floats till 6 gr and 0,12mm hooklinks ; you will simply fall in love with it when you test and handle, feeling the sensation to touch the finest diamond. And the medium version, reinforced and developed in order to be stronger and stiffer, thanks to high resistance carbon fibers, superlative super series built for win the sessions on the rocks and from the harbors, using medium size floats till 10-12 gr and hooklink diameter till 0,16 mm maximum. Stiff and rigid without comparison in the market, very reliable and tested of course also in the fresh waters fighting with big and strong fishes using the correct and related terminal tackles. A powerful and reliable tackle that has got characters and features owned by a real super series!

# EVO GREEN POWER

MADE IN ITALY BY: **reglass**

CODE	RINGED	MT	PZ	CLOSED	MM	GR	GR	RING

The Green Power Evo bolo was for us really a super satisfaction, for us as for all the anglers who have chosen them for their fishing sessions! Now we want to evolve and increase the performances of a project that seem to be already perfect: using the same best quality carbon fibers, we have used newest resins and totally the best technology innovation from the Reglass company in term of impregnation! The result is a super reactive rod and stiffer in the first 3 elements with an high strength force in the whole blank. The perfect bolo for fish in the sea from harbors and rocks but also for the fishing sessions in the freshwater catching big fishes where you need a light weight balanced tackle but really strong and reliable in the meanwhile. A medium action rod but the weight of a light one! It is able to manage floats till 10 grams and hooklinks till 0,16mm diameter. The wrapped version, from Maver company, will fit all the Fuji K guides.

The Spectrum is the evolution of the most famous Jurassic Mx 5 action, a rod that has written the history of Bolognese fishing style for the big fishes, as in salt water as in the fresh water. We've improved the balancing feature, keeping the perfect action of the previous model. The series is available only in the blank version, so you can personalize the assembly and the wrapping depending by your desires and the fishing style you're gonna to perform. Thanks to the tip's action and to the bigger power reserve, you can target also big sea basses or giant barbel without any kind of risk.

Our best match experts suggested us and gave all the details and features in order to develop this beautiful match rods, realized with the newest resins which are giving reliability and super performances to this tackle. Is a rod able to satisfy each angler even the most expert and technical one. It is available in 4,2 and 4,5 mt versions and is ideal to approach to medium casting distances as its casting power is demonstrating.

## MATCH

### MATCH LIGHT

# JURASSIC

CODE	MT	PZ	CLOSED	MM	GR	RING	C.W.
05815001	3.90	3	136	12	150	13	12
05815002	4.20	3	146	13	161	16	14
05815003	4.50	3	156	14	172	16	18

The Jurassic Match Light rods series have been developed for the finest competitors but not only: the particular resins and carbon mix ratio makes the tool extremely allround and super handy! The light version is suggested for short/medium fishing spots, or where we need to use light hook-lengths searching for bigger fishes too.

### MATCH MEDIUM

# JURASSIC

CODE	MT	PZ	CLOSED	MM	GR	RING	C.W.
05816001	4.20	3	146	13	181	16	22
05816002	4.50	3	156	14	202	16	25

The Jurassic match Medium rods series have been developed for the most precise competitor but not only: the particular resins and carbon mix ratio makes the tool extremely allround and handy! The medium version is recommended for a medium/long range till a use of 25g waggler weight, extremely precise in the casting, perfect even for the most technicals fishing styles like the breme catches.

## THOR MASTER

### MATCH POWER

CODE	MT	PZ	CLOSED	MM	GR	RING	C.W.
05734001	4.20	3	144	17	229	13	25
05734002	4.50	3	155	18	258	14	25

The Thor Master Match range is composed by two lengths version : 4,2 and 4,5 mt, both ideal and built in order to fish with 15-25 gr waggles and so fittable in every kind of match fishing situation. A tackle created thanks to high resistance carbon fibers where the global rod balancing is well tested and computer controlled in order to put out something really handy, strong but lightweight in the same time. Double arm guide in order to grant the maximum resistance and to perform a nice rod even from the eye point of view. Versatile but super reliable, nice for the competitor as for the amatorial angler who desires to fish with a good quality rod without spending a lot of money, because the relation between price and quality is simply superlative. Tested and ideal also for fish in the sea from harbors, rocks and beaches.

05771004	14	3	146	14	304	15	3	140

### ReactorLite F'12 70gr & F'12 100gr:

The 12 ft 70 gr is parabolic and ideal to cover all the techniques but especially the finest ones in search on skimmers or little f1. Perfect to fish from 30 to 40 mt even using fine hooklinks. The 100 gr version is of course stiffer especially in the butt section and is perfect for search big breams or carps as in the lakes as in the channels. Perfect to fish from 45 to 55 mt it is able to cast in a perfect and super precise way. With this one we can perform even the big natural lakes where normally we must make more meters (in casts) in order to catch one fish in plus. Both the versions are available with 3 tips in the classic version with the fitting base profile of 3,3 mm.

**ReactorLite F'12 70g 1/2oz 3/4oz 1oz (ReactorLite Classic tips) - ReactorLite F'12 100g 3/4oz 1oz 1 1/2oz (ReactorLite Classic tips)**

### ReactorLite F'13 120gr & F'14 140gr

The 13 ft was developed for fish from 65 to 75 mt and for cast to a long distance with the best precision; in order to make easier the casting phase we have divided the rod performances in two part: the first part is really parabolic in order to feel the bites in the best way but also for help the angler during the casting action, during the charging phase in order to transfer the power and the weight of the feeder lead to the second section.... The butt section is finally very stiff and all this combined together is permitting us to cast very long and very precise way! the 14 ft born for super long distances (80-100 mt) and is built with the same philosophy described above but increasing once again the butt power and strength. Even the first guides are bigger for permit the better and more fluid exit of the line from the reel to the rod tip without friction. Even on these rods we can use and fit glass tips which are sold as optional ones.

Inside the Maver company the Evanon name was ever used for mean the best quality products, without compromises, super series ones. We have 8 rods in this range with different tips, casting weights and lengths in order to satisfy every angler. The 2 sections born for commercial waters needs (2,2 mm tips in 5 different actions)

3 rods are developed in the 2 sections range: 10-11 and 12 ft, all very suitable for commercial waters but not only! They are super parabolic, especially the longest one, in order to fight in the softest and best way any kind of fish. The 3 sections range are more dedicated to natural venues as rivers or channels. This collection is composed by 2 different 12 ft rods (soft and medium action) and 2 different 13 ft rods (soft and medium action) and again one 14 ft weapon with hard and strong action. All the tips for the 3 sections rods are 3 mm butt section.

All the rods have got 4 tips in the original pack. The collection is enriched with a wide tips selection which we can select and fit to different fishing needs.

Maximum Japanese carbon fiber grade and module, resined and cooked in autoclave in the most accurate way. Super balanced and slim blanks. The result is an iper balanced range, super pleasant to use in all the competitions and the most technical fishing session. The project can be divided in three big parts and compartments, following the different fishing style and needs: The Carp collection, ideal for who wants to fish in the fisheries using a professional tackle, the Silver Fish range dedicated to competitions and technical features and finally the Long Distance, when we need to force a lot and so a powerful tackle without renounce to lightness and sensitivity. We have made something beautiful even in the design and in the details: wrapping never seen before, using matt black line and resins that seem to combine themselves with the carbon fibers, top quality guides in order to use braid without problems and black eva and cork combined in the handle part in the most correct way in order to be soft and handy but also really modern and ultra elegant. We are really satisfied about this new and modern project.

A step forward in Maver TRL series designed to face high level competitions. Thanks to ten available actions you will be at your best in every single field and abnk. Rods are extremely thin and light but at the same time very reliable and resistant in order to pick big trouts up to the ground. These rods are available also in blank version just to allowed a perfect and preferred customization from anglers. The high module carbon, quality finishing and tests made by our experts guarantee the series' simple in the highest quality. Available both naked and assembled in Italy.

The name is absolutely famous in the rod range history of the Maver brand: we are speaking about a really wide range of telescopic universal rods super reliable! These ones are studied and developed with high modulus carbon material wrapped in the "crossed formula"... the carbon braid is well visible and is meaning the super power and the maximum reliability. The lift power for every rod is well printed on each single tackle and is totally real and granted from the production company.

A lake trout rod for everybody! Nice tackle, reliable, super light and strong in the meanwhile. Realized with the best materials that the Maver technicians wanted for develop a range of trout rods as performant as unbeatable under the price point of view.. the range is divided in 4 different actions which are covering all the needs of the trout angler: from the lightest one to the most powerful able to cast big leads far from the bank.

### SURFCASTING REGLASS 100% MADE IN ITALY:

Reglass is the Italian company producing rods such as Darkside collection with more than 20 national and international patents and it's included in the list of accredited research laboratories of MIUR (Ministry of University of Italian Research). Reglass is constantly on studying new solutions and partnership with C.N.R. (National Council of Researches) and universities to obtain a carbon paper much more perfect and reliable. "We are the only Italian company that starts from filament to obtain the pre-preg carbon paper." The production 100% Made in Italy is in the town of Ostellato factory. Reglass' products are 100% Made in Italy and are designed by complex calculation system (CAD 3D and FEM programs). The project follows a rigid control 'til the preparation of materials with computerized machines with high precision cuts. Every details are for the more demanding fisherman, from the structural geometry, prepreg's layup, weight and dynamic action that are simulated by computer taking a sample of technical data very important for the research. The finishing of Darkside series is a complicated but fascinating opera, all rod' surfaces is the result of incredibly manual ability of our painting team, this process is made by serigraphy system, applying on surface only the necessary painting to create an "artwork" having a graphic doesn't add weight to the butt section. Every rod is painted by hand and so it's unique. The cooking of carbon is in autoclave, process that eliminate air bubbles that can cause the breaking of the rod. Tests on finishing products are made by dynamometer and anthropomorphic arm to verify with work and stress load. The Reglass laboratory has a dynamometer that allow to control and notice mechanical characters like stiffness, maximum load, elastic module of the rod and its single elements.

### 100% MADE IN ITALY INNOVATIVE WRAPPING SYSTEM:

The wrapping schedules are born after a lot of dynamical and technical tests: the guides number (on the 2 sections and 3 sections rods) is now increased in front of the standard calculations and in this way we obtain a lot of different values: a lot of power in the reel phase, more power in the casting moment, a decrease of line abrasion and very little possibility to break the same nylon while we will close the casting movement. After years and years of tests, as in the seafishing experiences as in the casting fields, we can say to have prepared now a real new guide scheme, totally performant and the results are simply superbe: the darkside rods in this way are perfect in the casting phase.

Below we will explaine the main differences: 1) classic guide scheme with gradual reduction of guides sizes: just an example for a rod with seven guides wrapped in sizes as follow: 30-25-20-16-12-10-10 mm

Notes: The monofilaments coils are closing themselves gradually creating friction on the total length of the rod

2) NEWEST GUIDE SCHEME "fuji KR concept" ; With a drastic reduction of guide sizes but always starting from the first 30 mm one :

Just an example for a rod with seven guides wrapped in sizes as follow: 30-20-12-10-10-10-10 mm

Notes: he line spoils are closing themselves in a super quick way creating a bit of friction just on the first part of the rod.

The 4k is the most powerful and the stiffest Darkside never produced before and it fits the newest "super sensitive" solid glass tip, already used for the Jp models. With this current model we can feel the most suspicious bait even if we are fishing and casting such a long way from the shore: with or without the braid !!! The action is simply unique (through the world market): an absolute power with angular casts and super sensitivity on the tip. The 45 degrees high module carbon fiber are avoiding torxions when we are making angular casts, increasing the performances reaching super long distances

**JP33:** The particular "hybrid super sensitive" tip in solid nylon material, permit us to fit and cast a wide range of leads. The progressive tip action helps us in order to land all the fishes reducing the unhooking risks and permitting also to use the lightest lines; we can reach nice distances without break and destroy the baits . We are sure it will become the perfect mormora rod! Ideal casting range 80-120 grams. Ideal fishing distance 80-120 meters.

**JP35:** The relation through lighthness and power will surprise you as for its super progressive action. You will be able to cast very long way without force too much and avoiding the bait distruction. The put-over connections permitted to Reglass engineers to decrease the whole rod weight, without compromise its strength and reliability. Ideal casting range Range 100-1320 grams. Ideal fishing distance 100-130 meters.

**JP37:** Super light and extremly strong, this is the japanese philosophy applied to the surfcasting technique. For fish to very long distance with PE braid and have the possibility to fish with beach ledgering super sensitive rod we have developed a "hybrid super sensitive" tip in solid nylon material which can compensate the braid stiffness, reducing drastically di unhookings. Ideal casting range 110-140 grams; ideal casting distance 110-140 meters.

**JP39:** More power, more distance but really nothing heavy ! This in another feature for the perfect japan style rod. You can use and choose the classic 5 oz lead making side or ground cast even using 0,06 mm Pe braid, reaching incredible distances. Like all the Darkside JP, also this model is available in blank naked version, in order to personalize the wrapping based on your needs . Ideal casting range 120-150 grams. Ideal distance 120-150 meters.

**JP41:** Eugenio Ucci & Agostino Antonelli from this long experience we are launching a super new rod, unique in the world, super stiff and powerful in the butt section but with a tip able to indicate even the lightest bites. The newest "hybrid super sensitive" is able to fit the best angular casts avoiding the breakages risks and even able to be really sensitive as it could be a beach ledgering rod The highest modul of carbon are disposed on 45 degrees and these are avoiding the rod torxion when we make angular casts, obtaining super performances in term of absolute distance. Ideal casting range 130-10 gr. Ideal fishing distance 130-160 meters. It is available as blank version as fuji alconite wrapping: it is also possible to ask a special wrapping realized by hand 100% in Italy with Fuji Titanium Torzite Reverse guides (TRVTG) with Titanium reel case (T-NS7GL) in order to have a super series which is not possible to be imitate!

## SURFCASTING

### 3 SECT. PUT OVER ASIMMETRICA

**DARKSIDE PLAY**

**Guides:** New fuji BCKWAG frosted dark gray; ring alconite reinforced aluminum oxide black; frame stainless steel **Reel Seat:** New Fuji NS7 GM Stainless Steel SHINY GRAY FINISHED BODY.

CODE	RINGED	MT	PZ	CLOSED	MM	GR	GR	C.W.	RING
8466B005	05797005	4.50	3	170	21,3	405	475	190	8

8466B007	05797007	4.50	3	170	22,0	425	495	250	8

**190gr - 4.50mt:** Bottom fishes to target to a long distance: you have now the correct rod which will surprise you for the relation between force and lightness. With a correct side cast you will reach very long distances for a such light blank. The put-over connections are not bringing a lot of weight on this blank and permit a perfect balancing feature making the rod super nice to use on the reeling phase. The rod is specifically built in order to obtain the maximum distance using a long drop.

**210gr - 4.50mt:** You ll be shocked by the superlative way in which the butt section will charge the power in a progressive way and even from the "power release" of the same blank in the central section! thanks to the put connections we are able to increase the conic molds of each spare, obtaining simply the best casting performances. The solid carbon tip action will permit you to fish perfectly even in rough sea without any problem.

**250gr - 4.50mt:** The strongest and most powerful in the Play range: we have concentrated the technology and the highest quality materials, technically combined in a different way in the 3 rod spares. The butt section is longer than other sections and perfect to charge a lot of force during the casting action. The central section is really conic in order to release the force in a super fast way! Hybrid solid carbon tip which is really able to feel any kind of bite also when we are fishing to a long distance.

8436B001	05800001	13'8"	2	210	25	593	693	5-8	8

The Heavy Casting style, as for the name of this rod, born in Greece some years ago and is developing itself around the Europe with big success in term of big catches as for example super dentex, big leccia, serra-fish, snappers, sharks, amberjacks and many other giants of the sea waters. This technique is enclosing and presenting the characters of the extreme surfcasting style chained with the heavy rockfishing. A rod used also in South Africa for catch and target the biggest sharks from the beach, using just braid, very big diameter braids. We have also tested this tackle for the long casting technique, casting in ground style with 175 gr lead, reaching distances near to 230 mt. Available just as blank version but is even possible to ask a personalized wrapping made in Italy with Fuji guides.

MAVER 悪魔黒

**NOT PRICE**

CODE	FT	PZ	CLOSED	MM	GR	OZ
8430B001	13'6"	2	215	23	695	4-8

Surfcasting rod developed with a specific tubular soft tip that is simply the best in order to show any single bite and movement even when we fish really long distance. On the casting fields we obtained spectacular distances even if we cast in a pendular style, in fact the action of the tip makes easier the direct feeling on the lead while we will charge the blank. Perfect to fish even with a rough sea because we will be able to stay blocked without movements of the leads. The 8 oz casting power is real and referred to the ground casting style. Available just as blank version but is even possible to ask a personalized wrapping made in Italy with Fuji guides.

TELE

## ROCKFISHING

CODE	MT	PZ	CLOSED	MM	GR	C.W.	RING
05668150	4.00	4	119	24	490	150	5

Powerful rod to fish from rocks and can be used to damage all predators like siluro and storione both in salt waters and fresh waters. It needs to make an easy casting with suspended weight to reach good distances. Tubular carbon and very strong tip able to face big preys.

## PASSION SURF

CODE	MT	PZ	CLOSED	MM	GR	C.W.	RING
05788001	4.00	5	149	25	499	150	4

Extremely strong tackle, able to cast and fish to every distance. It is specifically developed for fish and target big catches in the sea as in freshwater. The solid tip in carbon material is developed without any guide in order to avoid twists and problems during the casting moment.

## 3 SECTION

**DARKSIDE HEAVY**TWO  
TIPSMADE IN ITALY BY: **reglass**

CODE	RINGED	MT	PZ	CLOSED	MM	GR	GR	RING
4846B002	05706002	4.65	3	154	19	217	288	15
4846B001	05706001	4.80	3	170	21	276	340	14

**DARKSIDE HEAVY 4.65 MT:** Darkside heavy 4.65 mt is even slimmer and lighter than the «syster» of 4,8 mt and is created for fish and compete with bolentino in the deeper situations but also for the light drifting and again for the medium and heavy bolentino technique. We wanted to build up a unique tackle, not existing on the current market, really light, slim but in the meanwhile super powerful and its semiparabolic action, softer than 480 model, permits to fight in the best way against the violent movements of the big seabreams, saragos and similar very strong and big fishes, decreasing in the best way the hooklinks breakages and permitting to land all the fishes without unhook them! The rod is perfect for bolentino fishing under the boat but also for compete on the bottom, able to cast from the downside even 150 gr and also to handle 200 gr when you are fishing on the bottom. Tips: 02167003; 01563001.

**DARKSIDE HEAVY 4.80 MT:** This 4.8 mt model is really a super stiff action rod. Without any doubt is able to handle 400 gr lead fishing on the bottom but of course is even ideal for cast from downside over 250 gr. We wanted to build a slim and light blank, perfect for fish and compete in the deepest sea as Portugal, Spain, Netherland and England. Some anglers tested it in the best way even with the light drifting, searching big groupers with live baits. Balanced in a perfect way, super light if compared to the super powerful character. Tips: 02167003; 01563001.

A tackle dedicated for the angler who wants to fish with an high performance rod without renounce to the practicality of a telescopic rod, easy to transport and easier to use. The tele force carp collection is divided in two different sizes and casting in order to fit perfectly to the various needs of each carp angler in all the fishing spots. You ll be surprised from the performances of this rod chained by its strength and reliability... and the price will be amazing.

## Barbel SPECIALIST

CODE	FT	PZ	CLOSED	MM	GR	LBS	RING
05762001	11	2	170	14	288	1.75	9
05762002	12	2	185	14	289	1.75	9
05762003	12	2	186	15	314	2.2	9

Incredible action and performance: powerful in the casting action, very pleasant in the fighting moment, super light and balanced. The precious finishings and the very nice details will create a "must have" for all the feeder and specialist anglers. Ideal for the feeder fishing in the rivers, in the sea or for catch big fishes in evry kind of lake.

# ESTRUGEON

## EXTREME

**NEW**

CODE	MT	PZ	CLOSED	MM	GR	RING	C.W.
05882001	4.00	3	175	22	489	6	400

After a lot of tests through the most famous esturgeons lakes in the North Italy, is born now the first Maver rod with only 3 telescopic sections. Thanks to this technical solution we were able to transfer the powerful action of the 2 sections rod to an "easy transportable" telescopic rod. The Estrugeon is developed for fight against esturgeons and catfishes till 100kg but we are sure that it will surprise also the Heavy casting lovers which are searching for big dentex, amberjacks, groupers and similars. We can easy and safely use it in the saltwater thanks to the double arm guides (seaguides) which are permitting the braid usage and they are granting us against the salt-corrosion.

# GOBLIN

## STORIONE

CODE	MT	PZ	CLOSED	MM	GR	RING	C.W.
05768001	4.20	4	157	24	558	5	300

A finest and super quality rod specifically made for fish and fight against the biggest and strongest sturgeons and catfishes! We will of course have the sensation to have in the hands something super reliable and extremely strong. The best quality carbon fibers and the newest resins were used in order to create something fantastic which is anyway sold for a very competitive price. For the sturgeons and catfishes lovers, the Goblin will be the perfect tackle for that you'll fall in love in few seconds!

# LAKE MONSTER

## SILURO-STORIONE

CODE	MT	PZ	CLOSED	MM	GR	RING	C.W.
05780001	3.90	4	132	26	497	5	400

All of us is dreaming to fight and win against a real monster, seeing it to come near us and enjoy for its catch! In order to win the force of catfishes and sturgeons, we have developed something really strong but balanced in the meanwhile: it can cast real high weight leads, it can be used for bottomfishing but also with floats and it can win the fastest run of the biggest fishes. The perfect solution for the angler who wants a super powerful tackle for a wonderful perfect price.

We have started with the idea to develop a pure Area-Trout rod, all dedicated to this technique. Once we have given these rods in the hands of our best experts, they have really surprised us from the variety of uses that they made with these ones... also with very nice results: light spinning in search of perches or little chubs, trouts and salmonids in little rivers, rock fishing, light jigging and many others in that these anglers could go through thanks to these tackles. The best characters of the Butterfly Superlight series are the high sensibility and the capacity to cast in the best and most easy way all the micro lures and micro spoons even with the reliability to catch and bring on the bank very nice size fishes, without bringing back breakages or damages.

05753270	8'8"	2.70	2	140	13	166	10-50	9

This rod has been designed to chase for every kind of predator, both in the sea as in fresh water. It's equipped with very resistant guides with double arms and it can be used for spinning sessions, even the most extreme ones, and be surely able to search and land some record catches. It's so strong that can cast and handle the heavy hard baits at long distances thanks to high resistance carbon fibers.

## ARTIFICIALI - LURES

### RAMBO SPOON

1CF. / 10PZ.

CODE	COLOR	GR	MM
9174A	001 - 002 - 003 - 004 - 005 - 006 - 007 - 008 - 009 - 010	0,7	19,3

Ultralight spoon developed for most suspicious trouts which swim in surface waters. Above all the lightweight it is super easy to cast and iper attractant when you need to catch the fish you see! Its particular mold is decreasing the dropping speed on the bottom and so is more easy and fine to manage and handle with success. The relation between weight and volume is studied for drop on the bottom to the same speed of the pellets normally used on the trout farms. These spoons were studied, developed and tested as for the lake trouts as for the wild river ones.

### FARIO SPOON

1CF. / 10PZ.

CODE	COLOR	GR	MM
9175A	001 - 002 - 003 - 004 - 005 - 006 - 007 - 008 - 009 - 010	1,1	20,7

The classic trout area spoon but with the relation between weight and volume studied for drop on the bottom to the same speed of the pellets normally used on the trout farms. When the trouts will be more suspicious and difficult to catch, these ones will be the real weapon! Double split ring and single barbless carbon hook with chemical shaped poin.

### IRIDEA SPOON

1CF. / 10PZ.

CODE	COLOR	GR	MM
9176A	001 - 002 - 003 - 004 - 005 - 006 - 007 - 008 - 009 - 010	1,4	26,4

Double split ring and single barbless carbon hook with chemical shaped point for a spoon with super special mold created in order to be super light but very easy to cast long distance in the meanwhile. The action in water is fantastic because it is producing the fastest movement even when we move it very slow! It is dropping down by itself to a medium velocity producing catching oscillations.

## ALBINA SPOON

1CF. / 10PZ.

COLOR 001   COLOR 002   COLOR 003   COLOR 004   COLOR 005   COLOR 006   COLOR 007   COLOR 008   COLOR 009   COLOR 010

CODE	COLOR	GR	MM

Spoon specifically developed for catch trouts in the bottom side; when we reel and move it with "upper-down" movements it is super attractant for the predator instinct. The movement is perfect in any way we reel it: as with rod in horizontal way as with rod in a lower position! Double split ring and single barbless hook made with steel and carbon with chemical sharpened point. Superlative colors never seen before in the market with a dual core effect: rear side and front side are different but well studied! Ideal for the natural fishes as for the commercial ones!

SALMERINO SPOON

1CF. / 10PZ.

CODE	COLOR	GR	MM
9179A	001 - 002 - 003 - 004 - 005 - 006 - 007 - 008	2,5	27
9181A	001 - 002 - 003 - 004 - 005 - 006 - 007 - 008	3,0	28

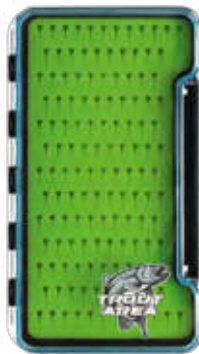

Two big features for this special spoon: the 1st is the central mold part (concave) which is permitting to maintain the same spoon to the desired depth (as in fast as in slow reeling); the 2nd are the super vibrations made thanks to the hammered foil on the above superior surface. Super spoons as for the lake trouts as for the river ones. We can have super results even with black basses! The relation between weight and volume is studied in order to drop to the bottom to the same speed of the pellet used in the trout farms.

The caster was developed for the best casts ever, as with the nylon as with the PE, thanks to the 45mm spool and the new cross system; we were able in this way to avoid any friction of the line against the first guide, obtaining perfect fluidity and the best line speed in order to make more meters. In the reeling moment the wires are coming inside

in a super perfect form avoiding tangles and breakages in the future moments . The new "no stress" line roller system is reducing the line torxions during the reeling : as for the speed reeling without any catch but also during the figths against big catches. Ideal for the surfcasting thanks to the shallow spools but also for the carp fishing using the deep optional spools. The bigger discs used for the drag system with 18 kg real power is permitting angular casts with the maximum power without any risk, especially when we are using PE shock leaders and heavy leads. The 7 stainless steels bearings are making fluid and really powerful any kind of reeling, making the mechanicals parts really protected, granting them a super long life!

## CASTER UNIVERSAL SPOOL

809MBCA1

809MBCD1

809MBCT1

The caster universal spools are fitting with a lot of reels which have got 45mm spools; all of them have got 18 kg drag system which are permitting angular casts with a super power without any kind of risk even using shockleaders in PE or heavy leads.

 INTERCHANGEABLE HANDLE : RIGHT-LEFT  
 HANDLE CHAIN SYSTEM : WITH BLOCKING SCREWS  
 ROTOR WITH ANTI-TANGLE LINE SYSTEM  
 EXTRA PLASTIC ROUNDS FOR CHANGE THE SPOOLING SYSTEM  
 ANTI-SALTINESS TREATMENT

A superlative casting machine built for surfcasting, carp fishing and boat fishing. Double oscillation wired spires spooling system that permits a perfect monofilament line on the spool in order to obtain longer casts and zero memory! Anti-twist and anti-corrosion line roller that avoids the monofilament and braid torsion, permitting to maintain their quality for a long time. Over sized discs in order to fix the line tension during the casting moment, also using heavy leads. Tested from over one year from all our sea anglers and best competitors, the result is a pure comparison with the highest quality and highest price reels, exalting its reliability. Its force point is for sure the stainless steel bearings, fully covered, that are increasing the fluidity even after many years of casts and use. It is sold with 2 spools: an aluminium deep one and the other one, shallow, in teflon material. The 0.40mm / 400mt high capacity aluminum coil is available as an option.

## DARKSIDE UNIVERSAL SPOOL 10.000

809MBT80

809MBA10

809MBS10

809MBD10

CODE	MATERIAL	CAP. NYLON
809MBA10	ALLUMINIUM	0,20mm/390mt
809MBS10	ALLUMINIUM	0,34mm/370mt
809MBD10	ALLUMINIUM	0,40mm/400mt
809MBT80	TEFLON	0,20mm/390mt

Thanks to the thicknesses, the spools 'darkside Universal' can be assembled on the biggest part of the 10.000 size reels on the market. The aluminium spool has big capacity and the Teflon spool has an ideal match profile for castings at long distance. Both spools has multiple-disk friction "drag power" 18 kg. In order to use on other model spare spools, should be necessary to change the drag knob (cod 809mfd10).

TENSION ADJUSTMENT 809MFD10

2 LINE CLIPS

A reel specifically developed for beach ledgering, surfcasting, feeder, bolentino and carp fishing techniques. Incredible fluidity granted by the 9 ball bearings: one of these is rolling mold for a perfect work on the anti-reverse system. Handle part and spool forged aluminium and CNC controlled. The main shaft in stainless steel is avoiding any kind of torsion as during the reeling phase as when we fight against big catches; especially when the spool is in its highest position. Thanks to the perfect crossed wiring spools system it is simply superb even for the feeder fishing. The anti-twist and anti-corrosion line roller is even perfect as for the nylon as for the braid and is reducing a lot the line damages during its use.

## EVANON 5.000

 ANTI-TANGLE AND ANTI-INSERT LINE SYSTEM ROTOR  
 ANTI-SALTINESS TREATMENT

This reel size is very particular: studied in order to be used for various techniques as surf casting, beach ledgering, bolentino boat, feeder and carp fishing. The conical aluminium spool reduces the spool size during each cast in order to reduce the line friction on the first guide: this way we can realize really long casts. The anti-twist and anti-corrosion line roller is simply perfect for use nylon as for the braid but especially is reducing any kind of torque which causes damages on the same monos and braids. The match spool is making itself perfect for feeder and surf while it is becoming a spectacular tackle as for the bolentino as for the carps if we will equip it with the option deeper spool. The finishing are beautiful and the stainless steel gears are making this reel a superbe compromise quality/price. The quick drag system permits us to lock-unlock the same drag in a super speed way.

## EVANON UNIVERSAL SPOOL

CODE	MATERIAL	MM/MT
809MBME5	ALLUMINIUM MATCH	2.25/255
809MBDE5	ALLUMINIUM DEEP	0.30/400

The universal Evanon spools are compatible and perfect with a lot of surfcasting, feeder, carp fishing and boat 5000 size reels present on the market. These are all equipped with multidisc self-lubricating drag, which can be so fast to use and to open in case of fast fish runs.

From many time our surfcasting, feeder, carp fishing and boat fishing anglers were asking us a 7000 size spool but fitting on a low weight size 5000 reel: now it is totally possible. The newest Darkside 5000 is an ultra weight machine with over sized spool in order to cast longer compared with similar size reels. The super compact body is avoiding problems and movements in the mechanical parts and thanks to the stainless steel covered ball bearings we will reel all the fish in the most clear and fluid way. The anti-twist and anti-corrosion line roller is developed as for the nylon as for the braid and is fully decreasing the damages of the same materials caused by the casts, the usage and the various torsions. The new spooling oscillation system permits the perfect line spooling, avoiding memory effect during the casts. The micro metric drag will also permit the perfect calibration on the breaking strength point of your monofilaments.

## DARKSIDE UNIVERSAL SPOOL 5.000

809MBT50

809MBD50

CODE	MATERIAL	CAP. NYLON
809MBT50	TEFLON	0,20/290
809MBD50	ALLUMINIUM	0,20/290

The "darkside 5000 universal" spools are compatible with most of 5000 reels on the market. The teflon model has got a match profile and is perfect for long casting with nylon or thin braided, while the alluminium version has got an elevated capacity and is ideal to charge and spool a large amount of line.

The vulcan reels are excelent machines with large spools, realized thanks to high end quality bearings and technology. The first character is for sure the fluidity and the line spooling: simply finest for this category reels! The reinforced graphite body closed inside a mechanical technology supported with high quality sphere ball bearings plus a rotor based on a big bearing that has got rollers with infinite anti-reverse system. The spooling system is totally based on S-curve system, ideal with the big and very open spools. The ultra sized spool permits the best casts and decreases the memory effect on the monofilament. The electronical balance system of the rotor permits the most fluid and nice use, cancelling the possible vibrations and possible defections.

## THUNDER

**NEW**  
NEW SIZE

There is too much confusion in the braid world: an unclear price indication plus different qualities very difficult to evaluate on a simple hand-touch. The Maver staff decided to be very clear in the details indications, presenting a 100% PE from our best Japanese Smart partner simply realized with the best quality braid fibers. Obviously, the price is always related to the quality and we cannot make comparisons between this TT braid and cheaper Chinese ones which are easily damaged after few casts and use. This jewel is super durable (3 times than normal braids) and you can re-generate itself with a specific spray which can remove salt or little elements which go inside the single fibers and create little problems: this is possible thanks to the 8 polyethylene fibers and to the newest high technology texture system which makes this braid fully round and super smooth reducing the friction normally existing as in the casting moment as in the reeling phase. Another target reached is for sure the new diameter really thin: 0,06 mm that is really produced once again with 8 tons and not using lower number of fibers (that is normally made in this big and confused world)

## SLR FLUORINE

Every angler, especially the competitor, knows very well the performances and the quality of the Slr line range. In our range is present the full nylon version and the fluorocarbon too. We could not miss even the fluorine version in order to permit us the best flexibility and to cover the competitors needs to 101% We wanted our best hooklink nylons covered in fluorine, in order to blend the 2 features: the fluorine is covering the nylon thanks to the ionization process. It results finally soft, strong, invisible, and really durable with superlative performances.

## SLR FLUOROCARBON SOFT

Realize competition hooklinks and we are now really sure that the new slr fluorocarbon will have the same success, and maybe more, on the market and through the anglers. The Japanese technicians and engineers were able to offer us this fluorocarbon that is presenting the same characters of our Slr nylon. Its softness, knot resistance, reliability, invisibility and abrasion resistance represent the first and most important characters that are making this fluorocarbon totally unique in the worldwide market.

100% Fluorocarbon realized for hooklinks and dedicated to the big fishes in lakes and seawater. Very low grade of light-refraction underwater...it's invisible for the eyes of the fishes. Very high and real tension test, abrasion and salt resistance. Special treatment for the UV rays. It has more impermeability than a normal nylon monophillament. Also ideal for realize surfcasting arms.

Elite Fluoro line is a very high quality product. Perfect for making rigs, having a low degree of light refraction in the water. High break loading, high resistance and tenacity to abrasion and saltiness. Treated to be UV proof. 100% fluorocarbon. The lines are electronically checked to ensure the highest quality. The Elite fluoro line can be spooled as for the spinning technique as for the casting.

00943205	0.205	4.7	9
00943220	0.220	5.8	12

Specific line ideal for realize ultra-soft hooklinks with a specific gravity studied in order to obtain a neutral asset in the water, increasing the natural bait presentation ; ideal when we fish with very light baits as maggots. Superb even for the surfcasting style when we are targetting the surface fishes, because the hooklink is disposing itself perfectly in the medium water level avoiding the collapsing line effect (as we could have with a standard fluoro line or a natural sinking line)

## EXEL 57

00663205	00620205	0.205	3.80	8.0

The monofilament 619, specifically studied for the realization of the mainline for the poles. Superlative strength, resistance on the knots without limits, abrasion resistance and also resistance for the slides of the little leads on the same lines. These are the best characters of this monofilament, selected in Japan after many and important tests. The superficial treatment gives to this line a great resistant force that maintains the mechanic characteristics till the 95% also after 10 hours of water immersion.

	00674405	0.405	13.10	26.0

Taking advantage of the extraordinary features of fluorocarbon when using it on the reel is difficult but, thanks to fluorocoated zero HF, we can spool the reels obtaining the right mix between the features of a nylon and a fluorocarbon. This line has similar invisibility features to those of fluorocarbon but with a higher ultimate strength. The most innovative feature is the abrasion strength about twenty times higher than that of last generation nylon; today we can even cut plastic with zero HF. The fluorine makes the surface much smoother than that of traditional lines, an important feature when the cast is a fundamental part of our fishing typology, besides, the coating makes the line waterproof and keeps the resistance unaltered also when used for several hours.

## TT BEST SELLER

1 CF. / 10 PZ.  
1 CF. / 3 PZ.

NEUTRAL COLOR / MADE IN JAPAN SPOOLED IN ITALY

CODE 100MT	MM	KG	F.T.

	00919300	0.300	9.0	18
	00919320	0.320	11.4	23

Line TT Ice is the extrusion where 50% is Nylon and 50% is fluorocarbon, we succeeded to have the best line ever made for a reel. The percentage in nylon material guarantees a great grip to the knot and the percentage in fluorocarbon material makes the endurance to the deterioration grow; further the line will remain unchanged even if used in temperature under 0° (like -20°C). Low stretching allows good strikes directly to the fish in a very short time. Standard 100% nylon lines absorb water and lose almost 15% of breaking strength!

00938236	0.236	6.9	14

Developed under the specific request of our experts and testimonials who were searching for a reel line without compromises and just in a super quality level. The Sirio monofilament is super soft and is helping the cast in the best way even using super light floats; in the meanwhile its breaking strength power is very high as on the knots as on the linear force. Studied, tested and developed as for the sea, as for the freshwaters. In the sea waters it is simply superb ! As all the line for the sea waters, we suggest to clean the reel spools with the fresh waters after each use!

One of the most beautiful and targeted fishes in all the european seas, which deserved a special product from the Smart brand: our technicians have developed a real targeted line, considering all the situations and the various needs that the anglers should have searching for the seabream. As you are fishing surfcasting, beach ledgering, bolentino or slow trowling or again bolognese or bottom style, this line is representing the best solution possible in order to target sea breams and all the bottom fishes that you want to catch in the saltwater.

SPECIAL SPIN FLUORINE ESTER

NEUTRAL COLOR / MADE IN JAPAN SPOOLED IN ITALY

1 CF. / 6 PZ.

CODE 150MT	MM	KG	F.T.
00928148	0,148	2,6	5
00928165	0,165	3,0	6
00928185	0,185	3,8	8
00928204	0,204	4,6	9
00928223	0,223	5,5	11

For the real spinning lovers the Smart brand is offering simple the best line ever seen . Thanks to the triple polymers cooked inside the main mono, we have developed a line which is fitting the thousand casts and the big stress which we must go through in the spinning sessions. It is perfect in each weather condition and it deserves perfect knot and abrasion resistance. The reduced elasticity (50%less) in front of all the other nylons and the really high weight of this mono, are making it really similar to a Pe braid. Thanks to the high specific weight (1.35) this ester helps to increase casting distances especially of very light lures.

## MV-R LOW STRETCH FEEDER LINE SINKING

DARK GREEN / MADE IN JAPAN SPOOLED IN ITALY

1 CF. / 6 PZ.

CODE 300MT	MM	KG	F.T.
00925020	0,20	3,96	7
00925022	0,22	4,65	9
00925024	0,24	5,90	11
00925026	0,26	7,01	14
00925028	0,28	8,02	16

Specifically built for fish to long distance with the feeders and the most popular character is the strong sinking power. Real innovative technologies were used in order to extrude and produce this new and super high quality nylon: the newest polymers make it 68% less elastic than a normal nylon, in order to feel and see the bites on our tip in the best way. It is really perfect when we cannot use braid and this line can substitute the same braid for many features. Our staff is suggesting it in combination with the Mv-r Impact shock leader.

## MV-R IMPACT SHOCK LEADER SINKING

DARK GREEN / MADE IN JAPAN SPOOLED IN ITALY

1 CF. / 6 PZ.

CODE 100MT	MM	KG	F.T.
00926024	0,24	6,01	12
00926026	0,26	7,10	14

00926035	0,35	10,30	21
00926050	0,50	19,50	39

In the long distance feeder sessions is always common to use fine braid or fine nylons, which are requiring the shock leader use, the highest quality one. So we have decided to develop the Mv-r Impact one, ideal to be used as shock leader thanks to its resistance to abrasion and to each kind of knot. In the fresh water techniques it can be used in the feeder, method feeder and carpfishing style, while in the saltwaters it is perfect for the surfcasting.

## DUAL BAND SINKING

00503260	00522260	0.260	7.25	13.50

Usable in every fishing technique but ideal for feeder, method feeder, match fishing, where a real sinking line is needed as first choice from every angler. In plus of the sinking power, this line is presenting a super knot strength and a real high abrasion resistance, as in contact with the bottom or with external structures as in moving little leads or similar accessories on the same main line!

## DARKSIDE

1 CF. / 6 PZ.

 DARK GREEN COLOR / MADE IN JAPAN SPOOLED IN ITALY

CODE 300MT	MM	KG	F.T.
00939013	0.13	2.7	5
00939016	0.16	3.6	7
00939019	0.19	5.2	10
00939022	0.22	6.7	13
00939025	0.25	9.8	20
00939028	0.28	13.0	26
00939031	0.31	15.1	30

The international athlete Eugenio Ucci has selected and personally tested this line as simple the best in order to fish to long distance, granting its quality and breaking strenght even using thinnest diameters. The new surface treatment is reducing the friction during the casting moment, increasing the casting power! The shockleader knot strength is amazing and this kind of mono is not changing its round character even in knots presence (as with other line as with braid). No-memory feature and resistance are double than other normal lines and the long life of this product is really granted. You can use a spool line for an entire competition year without any doubt or change.

## SMART 4K

1 CF. / 3 PZ.

 ORANGE FLUO COLOR / MADE IN JAPAN SPOOLED IN ITALY

CODE 300MT	MM	KG	F.T.
00907017	0.17	3.1	6
00907020	0.20	4.3	9
00907023	0.23	6.3	13

00942370	0.370	13.5	27
00942400	0.400	15.4	31

From the high Smart 4K success is born the super high visibility version, studied for the night fishing or for the low visibility conditions, in order to have the line direction control in eany kind of moment ! During the night is easy to control it, putting the head lamp on the line side and we can feel it and follow it for many more meters than a normal fluo monofilament !!! This way we can check its movement , in case of stream and flow or the movement of the fish when we are fighting in low visibility conditions.

## GREEN POWER FLUORINE

1 CF. / 3 PZ.

FLUO GREEN COLOR / MADE IN JAPAN SPOOLED IN ITALY

CODE 300MT	MM	KG	F.T.
00908014	0.14	2.0	4
00908016	0.16	2.5	5

00662070	0.700	38.50	77.0
00662080	0.800	44.00	88.0

The national athlete Eugenio Ucci has selected an European production monofilament that is really good to make hooklinks, beams and shockleaders. The mix of polymers that are used and the new kind of extrusion called "smooth surface" make it really perfect for glue the little beads in order to create beams. It is spooled in large coils in order to not stress the line; in this way the same line will rest unchanged from the spooling time to the final use by the angler.

## ZERO SHOCK LEADER

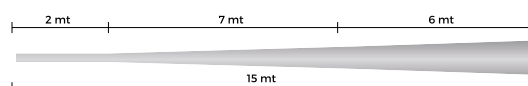

1 CF. / 6 PZ.

NEUTRAL COLOR / MADE IN JAPAN

CODE 10x15	MIN MM	MAX MM
00916011	0.14	0.22
00916012	0.16	0.22
00916001	0.16	0.48
00916013	0.18	0.24
00916002	0.18	0.50
00916014	0.18	0.57
00916003	0.20	0.52
00916004	0.23	0.55
00916005	0.26	0.55
00916006	0.28	0.55
00916007	0.30	0.57
00916008	0.35	0.57

Thanks to the low elongation power, this monofilament will permit you to reach similar performances to the braids used for shock leaders. The force that we accumulate during the casting moment will not decrease for the elasticity of the nylon, but it will be transmitted to the lead without making the "spring effect" that is the first cause of short casts and loss of power. Every piece is 15 mt long and can be cut as in the thinner part as in the bigger one in order to reach the needed diameters or the most desired ones.

## ELITE SHOCK LEADER

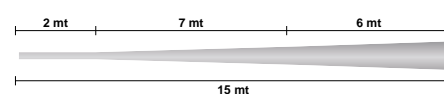

1 CF. / 6 PZ.

NEUTRAL COLOR / MADE IN JAPAN SPOOLED IN JAPAN

CODE 10X15MT	MIN MM	MAX MM
00685001	0.160	0.470
00685002	0.160	0.570
00685003	0.180	0.470

**FRESH WATER:** The 1090 is the world's biggest selling Maver hook. Nickel hook, large curvature, very light but durable at the same time, the chemically sharpened tip ensures a perfect priming of our bait, worms and delicate ver de vase. Suitable for crucian carp, carp and breams both for the roubasienne fishing and English fishing. In sizes from 2 to 8 has long been the leading hook for trout fishing both in lake that in torrent. The blued version, the 1091, is ideal for fishing in waters with live bait, The black nichel version hook is for fishing in canals where bremes and carassio are, this particular treatment of this hook makes it much more reliable and performant that becoming perfect for waggler fishing or medium size fishes.

**SEA:** The 1095 in the large sizes is ideal for the priming of the live shrimp for the fishing of sea bass, but also for the priming of the sardine in the light drifting in mackerel and horse mackerel. In the small sizes it's perfect for the worm priming. During world championship and the most important competitions are allowed the size 14 (equal to 5 mm) and size 8 (equal to 7 mm).

The excellent hook in surfcasting style: with rush sea and big bait this is simply the best hook to select for catch thje seabass! In relation to other similar hooks it is realistically thinner (so with a better perforation power) but in the meanwhile very very strong. The point is sharpened with a newest chemical process whihc is increasing 50% the abrasion resistance caused from the sand in the reeling moment.

**NICKEL HOOK:** The carbon/steel percentage used for create this hook is different from the black version and it is resulting ideal when the fishes are more suspicious and not in high activity. In the sizes 12-14-16 is available even in the special pack composed by 100 hooks in order to satisfy the competitor needs.

**BLACK HOOK:** Hook worldwide for surfcasting competitions: the micro eye is helping to put worms on the same hook and its mold helps to strike better all the bottom fishes, decreasing a lot the possibility to unhook them during the fight and the reel. During world championship and the most important competitions are allowed the size 14 (equal to 5 mm) and size 8 (equal to 7 mm).

## KS05 SPECIAL POP UP

**MADE IN JAPAN**

**BLK**

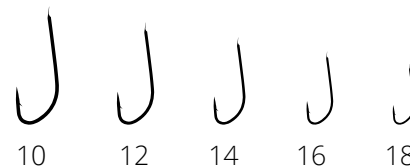

Sharpened like a razor, it is a killer for all that fishes that bite the bait in a sensible way and that had to be struck in the first millimeter of their mouth. Its compact form with a long point is ideal for the light baits, like the maggot for fishing with the bolognese rod or the match rod, or like the sea worms for the surfcasting speciality for fishing the surface fishes. Mulletts, bogas, eagle fishes and all the other sea fishes cannot have escapes right now! During world championship and the most important competitions are allowed the size 10 (equal to 5 mm).

## SENSOR MADE IN ITALY

**GLASS FIBER**
**CARBON**

Brand new float made in Italy. It's particularly good for fishing very suspicious bremes. the bristle in carbon glass fibre can advise also the smallest bite and the carbon fibre stem makes it softer during bite phase.

**1CF. / 10 PZ.**

09132075	0.75	09132300	3.00

Carried away on a success wave of the whole Carbo series that we have decided to complete this year with another range really technical, ideal to see the typical bream bite from the bottom to the upside, thanks to the particular bulb mold. Of course for the Carbo Breme float we have used carbon antenna and carbon drift plus a total black design! As all the others competitions floats, we are using ultra quality balsa and thin painting that doesn't modify the float's capacity, the floating power (perfectly balanced) and its own structure!

CARBO MADE IN ITALY

09095075	0.75	09095300	3.00
09095100	1.00		

This model is ideal for the most difficult winter fishing in lakes, where it's often to succeed and for having some catches it's necessary a lot of line' meters. The carbon fibre insert allows us to lower slowly our bait towards the bottom and the the big hollow aerial permits us to adjust the float weight and to calibrate the same float in the most perfect way and in the meanwhile to be able the see it in a perfect way. The particular shape of the top part makes this float an excellent solution for windy days.

## LEAH MADE IN ITALY

09171400	4.00	0917120G	20G

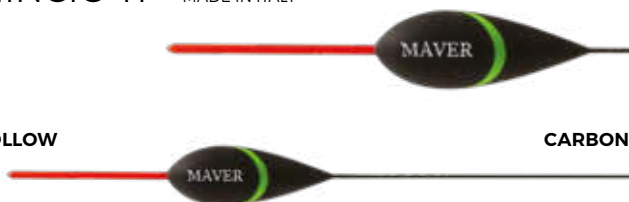

Super strong float, perfect for catch big and strong catfishes and carps but ideal also for the bolo style. Empty big size antenna inserted inside a fiberglass little bush which make it super reliable; internal line passing through the hole in order to make it super strong and impossible to break! Varnished fiberglass drift which gives stability and strength.

## MINCIO TP

MADE IN ITALY

HOLLOW

CARBON

For a bolognese fishing session the Mincio TP float turns out to be the best choice: The reversed pear bulb shape make it irreplaceable for this technique, even bringing substantial and voluminous baits; The hollow big sized antenna ensures the visibility in shade and light harsh areas; The internal hole prevent damages caused by the stress of the fishing line; The long carbon drift gives higher stability and correct capability to follow the fishline keeping its position during the river stream.

09174500	5.00	0917440G	40.00
09174600	6.00		

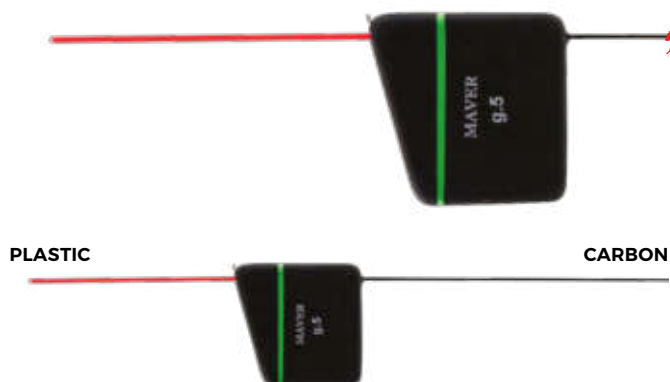

This flat float has got a thin body thickness so we can fish and go through the stream avoiding friction and the consequent potential bad movements of the same float. The long fiberglass drift permit us to stay always in the fishing position even when the weather condition are horrible. The bad lateral waves will never be a problem. The carbon rudder gives it a perfect stability!

**SIMPLY** MADE IN ITALY

**1CF. / 10 PZ.**

## CAMARO SEAT BOX

Maver is presenting the newest CAMARO SEAT BOX, as top level box for the 2024 season: it is 10% lighter than the average, maintaining the same details as reliability and super-strength. The 4 legs system is not in need of presentation because everybody knows what this patent means in term of stability, durability, speed and many more benefits during the fishing sessions!!! External 36mm legs with internal 30 mm telescopic part which are granting a parallel ground fitting to the "0 level"; the aluminium foots are permitting a superlative grip on the same ground never seen before as on the soft ones as on the gravels, stones or cement. The seatbox is presented and sold in just one configuration: aerogonic seat in carbon look with lateral 3cm drawer, module with 2 frontal 6 cm drawers plus another 3cm hooklinks module-holder. All the hinges are "fast block" edition, peronalized as for the knobs. The Camaro can be completed, adjusted and "updated" with all the MV-R and Signature accessories presented in the Maver range.

SUPER BROLLY FLATBACK 3M

CODE	CM
01863005	300

A giant umbrella with a particular mold studied for help any competitor movement. The Oxford 210d textile material is so strong and very waterproof against wet and rain as for the sun protection. The reinforced 6mm sticks, the recliner bush and the stainless steel main shaft are increasing 50% the strength against wind!

SPECIAL SQUARE BROLLY SYSTEM 2.5M

CODE	CM
01863006	250

Square umbrella, developed for cover the competitor tackles in a proper way. The 6mm reinforced sticks, the reclining bush and the stainless steel main shaft are increasing 50% the strength against wind. The 210d oxford textile materials combined with a waterproof material which can protect us as against rain as for the most sunny and hot days.

## RAINBOW SEALED UMBRELLA 100% PVC

CODE	CM
01871001	250

Rain umbrella made by thermowelded PVC. The 'stop' part of the 'closing' system is made by turned aluminium and without 'bent' system. To put the umbrella at 45° it needs to use the bent hole on the aluminium piece. The pole is made by stainless steel, very strong and very long duration.

## NYLON UMBRELLA

CODE	CM
01863003	220

A nylon light umbrella which is ideal for repair us from the sunlight especially during the summer season: it is possible to repair us in the best way permitting the air circle/diffusion around us. The material is also perfect for maintain few percentage of rain without any problem.

## NYLON UMBRELLA BLACK

CODE	CM
01862002	250

Big umbrella of 2,5 meters in nylon material very light and handy, movable in different positions to assure always the best regulation on our peg or seatbox. It was surely tested that the black textile model makes the area where you are sitting very fresh in place and in front of any other colours! For this reason this umbrella will be necessary in hot and sunny summer days.

## BAITS NYLON UMBRELLA BLACK

CODE	CM
01870003	72x72

Brand new baits umbrella of 72\*72 cm, it's ideal cover our baits and groundbaits from the sun and bad weather.

03022011	3,0	GREEN

The new cross core hybrid elastic was realized using a particular pure latex polymers mix that gives to the product an excellent fluidity, elevated stretching/endurance relation where can't be unnoticed.

- lengthening relation of 800%
- neutral colors pigmented and mat refinition that assures a permanent flowing and progressive mechanical features
- the mat neutral pigmentation particularly performant against UV intensity rays usury
- keeping freshness closure envelope with an aluminium film that keep (o preserve) the elastic from sun rays and heat into the stores ensuring the elastic performances maintaining them for a long period.

The product is available from the 1.2mm to the 3.0mm sizes in five different colours; the available diameters can cover up different fishing situation, from the silver fish in the channel competitions to the summer fisheries in order to catch big carps.

MAVER ROLLER SLOT MADE IN UK

The Maver "roller Slot" features an integrated PTFE roller for ultra-smooth flow of elastic. The Roller Wheel situated on the inside of the pole is made from PTFE, firmly held in place with a stainless steel pin. This ingenious design allows the elastic to be held away from the walls of your top kits, by centralising the elastic in the kit, creating a super smooth flow, resulting in more fish being landed. Drilling template included.

The lead much used in fishing from the boat, in colourful versions is good to get our preys curious getting them close to our baits. This lead is very used also during competitions of surfcasting because of its shape that increase the sensitivity of your rod.

Temolino made for 'rodolon' technique, reducing intensely the risk of block. the swivel unloads twistings created by the roll of temolino between rocks and the snap-hook makes hooking easy to the original line.

Long stem helps the reel in reducing friction, lateral grooves stabilise casting also with strong frontal wind, flattened shape to increase hold on lateral stream.

CHANNEL MADE IN ITALY

CODE	MT
08049350	3.50

Square keepnet especially developed where we need to compete in presence of catfishes and carps. The “Welded Mesh” texture is avoiding the chaining of the same catfishes-carps to the net , which is causing problems (especially)to the fishes as damages to the net mesh as our big loss in term of time. Of course it is a special product to use in the carpodromes and fisheries : the first two rings 55\*45 are developed in order to insert easily our landing net heads inside the keepnet (without handle the fish) while in the last rings we put “handles” in order to pull it out easy from the water; they are also covered by ultra high quality gummy part which is preserving the structure avoiding damages caused by frictions on stones, gravels and the banks . This particular “Welded Mesh” texture is made thanks to the welding of the same meshes during the production process, making all the product extremely reliable and strong against any kind of hit and stress. The model is developed and launched in a unique size of 3,5 meters , ideal for any kind of bank and venue !

SQUARE

## GIRELLA MV-R STEEL 1 CF. 10 B.

**4X STRONG**

CODE	SIZE	*KG	PZ
01567008	8	250	10
01567010	10	160	10
01567012	12	140	10
01567014	14	120	10
01567016	16	60	10
01567018	18	50	10
01567020	20	40	10
01567022	22	30	10

Stainless steel super strong swivel! It is one of the strongest model in the market and far away from the classic copper ones.

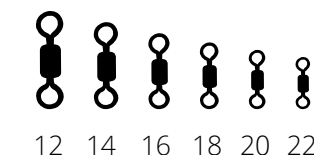

## MV-R STEEL BLACK 1 CF. 10 B.

**3X STRONG**

CODE	SIZE	*KG	PZ
01543008	8	90	10
01543010	10	80	10
01543012	12	70	10
01543014	14	60	10
01543016	16	50	10
01543018	18	40	10
01543020	20	30	10
01543022	22	20	10

Black stainless steel swivels: so real camouflage and mimetic instead of the silver versions; ideal for be used in the most transparent waters. The stainless steel permits to avoid torxions also in the maximum load moment.

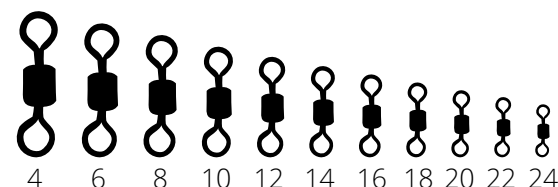

## GIRELLA MV-R DUAL COLOR 1 CF. 10 B.

**2X STRONG**

CODE	SIZE	*KG	PZ
01558012	12	52	10
01558014	14	46	10
01558016	16	37	10
01558018	18	30	10
01558020	20	23	10
01558022	22	15	10

Anti-corrosion chain for beams and hooklinks: it is avoiding torxions, tangles and maintaining line quality and durability in the time. The size 22 is the most used in the surfcasting and in the sea fishing techniques.

## GIRELLA SEMPLICE 1 CF. 10 B.

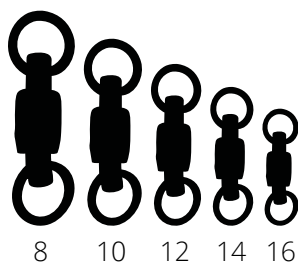

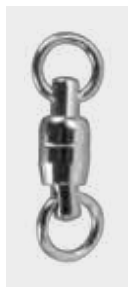

**1X STRONG**

CODE	SIZE	*KG	PZ
01504004	4	48	10
01504006	6	44	10
01504008	8	41	10
01504010	10	36	10
01504012	12	33	10
01504014	14	31	10
01504016	16	23	10
01504018	18	20	10
01504020	20	15	10
01504022	22	10	10
01504024	24	5	10
01504P24	24	5	100

Anticorrosion snap for hook beams and hooklinks, it unloads line' twistings and make its duration much longer. it's available also in the package of 100 swivels but only in the size n.24 that is much used to make "flag line beams" in the surf-casting technique.

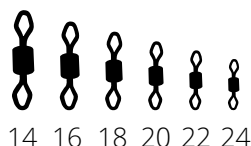

## GIRELLA MV-R MONSTER STEEL 1 CF. 10 B.

CODE	SIZE	*KG	PZ
01573008	8	300	4
01573010	10	250	5
01573012	12	180	5
01573014	14	160	5
01573016	16	100	5

The strongest and best swivel we have ever made : 100% inox material and really strong! It is the perfect solution for the biggest and stronger predators and is the most technical solution in order to avoid torxions and tangles.

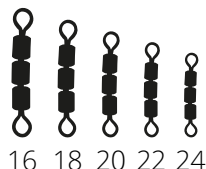

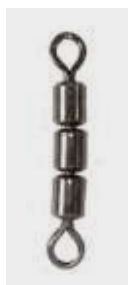

## GIRELLA DIAMOND 1 CF. 10 B.

CODE	SIZE	*KG	PZ
01541014	14	31	10
01541016	16	23	10
01541018	18	20	10
01541020	20	15	10
01541022	22	10	10
01541024	24	5	10

Swivel designed for the junction of main fishing line to the hooklinks, thanks to the "rhomboid" eyelet the knot remains more stationary and in line than the classic swivel with round eyelet.

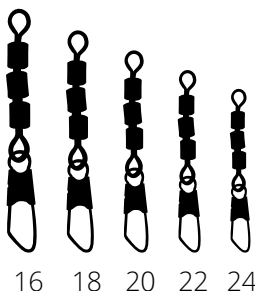

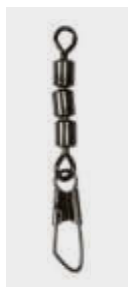

## GIRELLA TRIPLA HIGH SPEED 1 CF. 10 B.

CODE	SIZE	*KG	PZ
01524016	16	23	10
01524018	18	20	10
01524020	20	14	10
01524022	22	10	10
01524024	24	5	10

A swivel with great capacity of unload of the twists, that is used a lot for the spinning fishing as in the lake trout technique as in the sea for fishing predators in the surface with "bombarda" leads.

## GIRELLA TRIPLA HIGH SPEED COMPETITION 1 CF. 10 B.

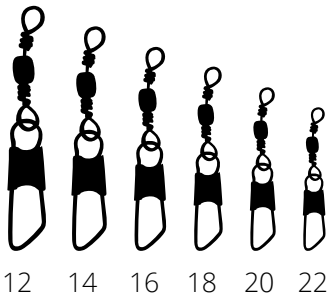

CODE	SIZE	*KG	PZ
01529016	16	8	10
01529018	18	7	10
01529020	20	6	10
01529022	22	5	10
01529024	24	4	10

Swivel with snap with the highest ability of all range to unload twistings, very used for reeling in fishing, trout fishing in lake, in the sea and fishing with Trout leads (Bombarda) for predators on surface. The snap-hook allows fast exchange of hooklinks.

**\*KG:** THE FISH TEST IS PURELY INDICATIVE AND REFERS TO THE POSSIBILITY OF CATCHING FISH OF A SIMILAR SIZE.

GIRELLE - SWIVELS

## ATTACCO PER FINALE 1 CF. 10 B.

CODE	SIZE	PZ
01490018	18	10
01490020	20	10
01490022	22	10
01490024	24	10
01490P24	24	50

Fast joint for surf casting and bolentino with good unload of the twistings. it's available also in 50 swivels' package but only in the size nr. 24, the most used to make flag beams in the surf casting and in bolentino fishing.

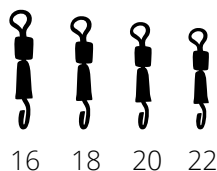

## MV-R RIG FAST CHANGE DUAL CORE 1 CF. 10 B.

CODE	SIZE	PZ
01559016	16	10
01559018	18	10
01559020	20	10
01559022	22	10

Anti-corrosion quick chain for surf beams and fishing hooklinks: it is avoiding the worst line torxions, the tangles and granting line durability in the time. The size 22 is the most used in the surfcasting and in the sea fishing techniques.

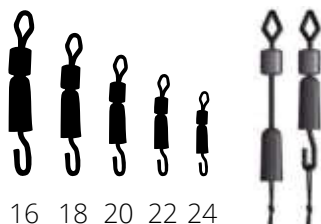

## MV-R STEEL FAST CHANGE 1 CF. 10 B.

CODE	SIZE	*KG	PZ
01557016	16	50	10
01557018	18	40	10
01557020	20	30	10
01557022	22	20	10

Stainless steel Quick chain perfect for the surfcasting and boat hooklinks in order to avoid torxions and grant super strength in the best and in the double way in front of the standard models realized in the copper alloy. The gummy spare, already assembled on the swivel is making the change super fast: this way we can substitute surfcasting beams, but is superlative even for feeder sessions and many other techniques as for example bolo style and bolentino fishing.

## ATTACCO RAPIDO C/GOMMINO 1 CF. 10 B.

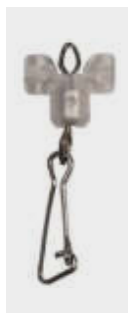

CODE	SIZE	PZ
01537016	16	10
01537018	18	10
01537020	20	10
01537022	22	10
01537024	24	10

Fast joint for surf casting and bolentino with good unload of twistings. The rubberized tip already put on the swivel makes the exchange of the hooklinks very fast and it's perfect to make flag line beams for surf casting and for bolentino fishing, but it can be used also for fishing with float or for trout in lake.

## SNODO SCORREVOLE

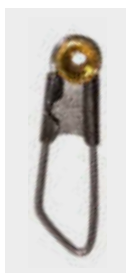

1 CF. 10 B.

CODE	PZ
01518000	5

Sliding chain for feeders and leads. Its position on the line beams avoids possible knots.

## ATTACCO PER GALLEGGIANTE INGLESE

1 CF. 10 B.

CODE	PZ
01502001	10

Sliding snap for waggler fishing. Its particular shape permits no knots during the casting.

## CRIMP 1 CF. 10 B.

CODE	MM	PZ
01657010	1.0	20
01657012	1.2	20
01657014	1.4	20
01657016	1.6	20
01657018	1.8	20

The new metal alloy with which were produced the Maver Crimp, increase the seal both in the applications on steel cable that in the nylon version. The bags contain 20 crimps.

## WIRE LEADER 10 mt

CODE	MM	LBS
02964001	0,33	20
02964002	0,39	30
02964003	0,46	40
02964004	0,51	50

Heat-sealing steel lead with more layers, useful when we want to damage predators like serra fishes and pikes.

## MINITRAVE 1 CF. 10 B.

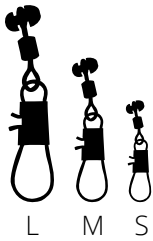

CODE	MODEL	PZ
01542001	BEACH 6 CM	2
01542002	SURF 7 CM	2

Designed by national surfcasting athlete Eugenio Ucci, the minitravi allow us to gain distance from a classic beam. The "Beach 6 cm" version is indicated for weights up to 130gr and fits into the use of "Linea Longa". The "Surfcasting 7 cm" model can be used with any weights and in any sea condition.

GIRELLE - SWIVELS

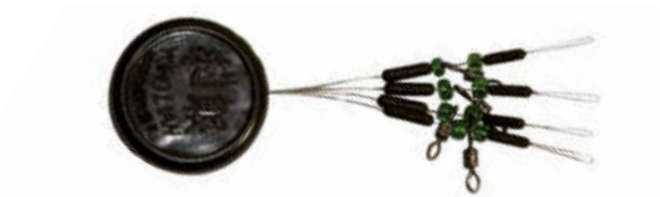

GIRELLA PER GALLEGGIANTE INGLESE C/MOSCHETTONE 1 CF. 10 B.

CODE	SIZE	PZ
0149400S	S	10
0149400M	M	10
0149400L	L	10

Sliding snap for wagglers, feeders and leads. Its particular shape permits no knots during the casting.

TRAVE RAPIDO 1 CF. 10 B.

CODE	SIZE	PZ
0149900S	S	4
0149900M	M	4
0149900L	L	4

Slider junction for the creation of surfcasting and bolentino line-beams. It will be enough to insert the line inside the same kit and we'll be ready to fish with an effective "flag connection".

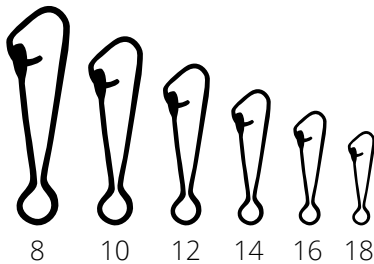

TRAVE A 3 BRACCIOLI 1 CF. 10 PZ.

CODE
01497000

Beam ready for fishing from the boat with 3 junctions but it can be used also in the beach legering when we want put on short hooklinks.

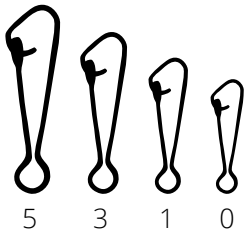

MOSCHETTONE MV-R STEEL 1 CF. 10 B.

This logo is indicating all the products developed and created from the best experts who wanted to offer to our anglers a groundbait, an additive, a flour that has got all the characters and features in order to dress the Maver brand: as it is a matchfishing product or carp one, all these items are 100% granted and tested for all our anglers.

For the sea fishing lovers (rocks, harbors or boat), you find this logo when the related additive, groundbait or liquid was developed and super tested in order to produce the best results during the sea fishing sessions.

The logo is indicating the products developed and used for feeder and method fishing styles. As they are baits, pellets, methods, groundbaits, additives, we wanted to study and offer just the best for your matches and feeder fishing sessions.

Through boilies, liquid, attractors, groundbaits and method mixes which are dedicate to different fishing styles, you will simply have the best quality in term of freshness and real catches; these products are created and iper tested just from the best experts through different fishing styles: from carp fishing to feeder, from fisheries to the matchfishing and also the sea! Just the top of the quality for our anglers and customers.

Ideal essences for flavoring both live bait and lures for Trout and Black Bass fishing.

The Reactor range was specifically developed even for the sturgeons anglers, especially the ones who are searching for the biggest; Some of our products and some our our entire ranges are perfectly built for attract the biggest monsters!

## BREAM BLACK MADE IN ITALY

1 BOX / 20 PZ.

The groundbait 'Black Bream' is black coloured studied specifically for fishing bream, it has inside a great quantity of red bread and mixed hemp, basic ingredients to catch big breams. if there's a strong stream or when we need to 'empty' the mixture it is also suggested to add some leam. We suggest also to cut this groundbait with the Winter Crash for fishing in still or slow waters, or with the Special Bream if there's stream or big depth. The proportions are in both cases 2:1.

CODE	KG
3171S000	1

## SPECIAL BREAM MADE IN ITALY

1 BOX / 20 PZ.

This groundbait names Special Bream was born from our European fishermen' request, medium/fine grain groundbait with bright brown coloration ideal for all those seabeds that are bright where we want create less contrast possible. In the mixture we find hemp, rape, red bread and coriander; extremely catching ingredients and essential to chase after big European breams.

CODE	KG
3172S000	1

## PESCHIERA MADE IN ITALY

1 BOX / 20 PZ.

Light soft black groundbait with medium flour milling and medium power of stickiness. in the inside was insered a brand new and juicy cheese smell with filled quantity of grinded chrysalis.: these features make it particularly good for all competitions in rivers where chubs and barbi are. Peschiera is an excellent groundbait during competitions but good working also for enjoyable fishings out of competitions for sure. use: it's great if used in the Bolognese fishing and if spread big quantities of baits on the bottom.

CODE	KG
3090S000	2

## UNIVERSAL MADE IN ITALY

1 BOX / 20 PZ.

The Universal is a groundbait studied for some Italian competition fields where we often find different kind of fishes like bremes and crucian carps. Its colour is amber and it's medium grain that gives it an enough fast mechanical function once on the bottom, this allowed better to bring fish on the feeded area.

CODE	KG
3173S000	1

BIG BLACK MADE IN ITALY

A medium big mixture for this black groundbait, with sweet spicy flavor and rich of yellow bread and hemp seeds in order to create a little contrast on the bottom color! High sticky power but in the meanwhile very fast to work once you will put in the water! Ideal for chase for carps, crucian carps and bremes in the venues where we need a main dark groundbait. We can easily suggest to add Carpix or Touche additive : 100 grams of additive in 1 kg groundbait.

CODE	KG
3174S000	1

CARP RED SOUL MADE IN ITALY

red groundbait ideal for fishing carps in matches where a lot of catching groundbait is requested. This groundbait is produced by a perfect mix of catching ingredients and high-quality bread and a very powerful strawberry aroma. It's really good also to be used as a ready bait to put on the hook during a big fishing.

CODE	KG
3189S000	2,5

CARP YELLOW ENERGY MADE IN ITALY

dark yellow groundbait with a great sticky power and a great sweet panettone aroma, studied to be used during matches in Arno river. The big grain of this groundbait allow us to use the carp yellow energy everywhere.

CODE	KG
3190S000	2,5

CARP DELUXE MADE IN ITALY

dark yellow groundbait made by big grain with a sweet and zingy aroma with toasted hemp seeds inside. Its ingredients have a great sticky power. Its use is ideal for carps and for making this groundbait much more catching we suggest an addition of flour Carpix, 100 grams for kilo.

CODE	KG
3191S000	1

## CARP STRATEGY MADE IN ITALY

Yellow groundbait with medium-thick grain characterized by sweet honey aroma and medium-high stickiness. It is good for all those competitions where groundbait can make the difference! Adding Belgian bread to Carp Strategy can be perfect, also to be use in match fishing of canals and lakes.

CODE	KG
3192S000	1

## CARPA CARASSIO MADE IN ITALY

Medium grain dark yellow groundbait smells of spicy coriander, its stickiness is medium/high. It's perfect to be used during competitions where it's often required the best attractant in less time possible. Its use is very easy when you wet its ingredients. Groundbait 'carpa carassio' has great performances also used with other groundbaits and makes the efficacy and scent better. In still waters, you can add Brasm to increase the attractant power in the measure of 100gr per kg. in stream waters, it's suggested to add at groundbait 'carpa carassio' 10% of PV1, or river's ground if you have to add weight to the mixture.

CODE	KG
3000S000	1

## SPECIAL CARASSIO MADE IN ITALY

Medium thin grain yellow-orange groundbait has a medium-low stickiness' power and sweet-glazed smell with corn flakes. It's excellent for fishing Carass in canal and roaches. Depending on the degree of humidity the present ingredients allow the groundbait to open fast on the bottom or in presence of grass and seaweeds and to change the split in the midwater. Groundbait 'special carassio' has great performances also used with other groundbaits and makes the efficacy and scent better. In stream waters, it's suggested to add at groundbait 'carpa carassio' 10% of PV1.

CODE	KG
3035S000	1

## FONDO COMPETITION MADE IN ITALY

Brown groundbait with red bread' particles inside very appreciated by the Bremens. This groundbait is excellent for fishing bremens but it can be used also for fishing Carass in canals with stream waters. use: like all bremen groundbaits it's suggestet to wet it 3/4 times and then sift it in order to make the mixture more blend and uniform as possible. In case it wants to reduce its stickiness power, it can be mixed with any other bremen groundbaits of Maver's range; if there are strong streams it recommends to add ground.

CODE	KG
3099S000	1

WINTER CRASH MADE IN ITALY

This mixture is considered unequalled for fishing big or small bremens because its composition is very good to attract fishes with groundbait without never satisfy them. Use: like all bremen groundbaits it's suggest to wet it two or three times and then sift it in order to make the mixture more blend and uniform as possible. In still waters it's suggest to add 30% of terra di somma. The Winter Crash is an excellent groundbait "Cut": We can match it with the Abramis Black or the Belge Classic in the ratio 2: 1 with the addition of a lot of Terra Di Fiumein the race tracks.

CODE	KG
3089S000	1

ALBORELLA COMPETITION MADE IN ITALY

This is the classic groundbait for alborella for fast fishing. it has very thin grain and light brown colour. Thanks its ingredients it produces a 'cloud effect' into the water that makes it irresistible for the little fishes. depending on the needs it can be used a bit dry orvery wet. Use: it's suggests to add big quantities of water to reach solidity you want to have an excellent performance.

CODE	KG
3102S000	1

PRO EXPERT TIGER NUT MADE IN ITALY

This mix is simply perfect for catch the biggest carps, especially when the water temperatures will go over 20 degrees. For wet and use it, we suggest to combine 2 parts of groundbaits with 1 part of water: mix it energically and let it rest for 30 minutes. After this timing, let's riddle it inside a 3 mm riddle and all will be quickly and perfectly ready to use!

CODE	GR
7564S001	900

PRO EXPERT GREEN BETAINE MADE IN ITALY

A fishmeal specifically studied for catch bremes and carps in the winter season; in the coldest times its components are simply ideal for a perfect digestion. For wet and use it, we suggest to combine 2 parts of groundbaits with 1 part of water: mix it energically and let it rest for 30 minutes. After this timing, let's riddle it inside a 3 mm riddle and all will be quickly and perfectly ready to use!

CODE	GR
7564S002	900

## PRO EXPERT DEMON SPICE MADE IN ITALY

A 4 seasons groundbait! It is simply delicious and perfect for catch every kind of fish especially where the water volumes are big and deep. For wet and use it, we suggest to combine 2 parts of groundbaits with 1 part of water: mix it energetically and let it rest for 30 minutes. After this timing, let's riddle it inside a 3 mm riddle and all will be quickly and perfectly ready to use!

CODE	GR
7564S003	900

## PRO EXPERT SPECIAL F1 MADE IN ITALY

Specifically developed for search the most suspicious fishes during the summer and hot season. Crucian carps and carps will love it. For wet and use it, we suggest to combine 2 parts of groundbaits with 1 part of water: mix it energetically and let it rest for 30 minutes. After this timing, let's riddle it inside a 3 mm riddle and all will be quickly and perfectly ready to use!

CODE	GR
7564S004	900

## PRO EXPERT NATURAL MADE IN ITALY

This groundbait was specifically studied for be used as base mix in every situation; It is simply special in relation to all the waters put under high fishing pressure. For wet and use it, we suggest to combine 2 parts of groundbaits with 1 part of water: mix it energetically and let it rest for 30 minutes. After this timing, let's riddle it inside a 3 mm riddle and all will be quickly and perfectly ready to use!

CODE	GR
7564S005	900

## PRO EXPERT CHOCCOLATE ORANGE MADE IN ITALY

A sweet fishmeal mix which is ideal for be used in spring and summer times in order to catch crucian carps and carps. *4999S001	Candy Match	1
4999S002	Fish Power	1
*4999S003	Sausage & Spice	1

**FISH POWER:** We have used the best fish flours but also some vegetal ingredients in order to create the perfect combination under the attractive profile but also in order to not give too much protein to our possible catches. **KRILL RAGE:** A real bomb for all your competitions but in the meanwhile you'll not risk to get the fishes "full" thanks to the control of the nutritional power of our Formula. **CANDY MATCH:**

It's ideal for the attract the fishes in the most quick way and catch a lot of time in few time. **SAUSAGE & SPICE:** We have boosted a very high quality groundbait base with the best smoked sausage essence but especially with a really high quality natural spice mix. A bit of Betaine and we can play at the maximum level.

SEA MINT

The best of ground bait for fishing in low water: this complicated mix but efficient is made by a mix of fish flour, mint and shrimp. It's an ideal groundbait for looking for mullets, sea breams, boghe and all other fishes that feed in this depth.

CODE	KG
3159S000	1

MARE FONDO BIANCA

It is a groundbait realized with cheese base and is ideal for fishing on the bottom In search of mullets and all those fishes that live and eat on the same bottom. It was developed for the competitions but also for all the seafishing lovers that want to catch a lot of fishes from rocks or harbors.

CODE	KG
3179S000	1

MARE BROWN CRASH

One of the best groundbait for fishing in the middle depth water and in the surface: a complex and very performant mesh realized thanks to the fish and shrimp flours. It is really perfect to catch bogas and all the other sea fishes in the middle depth.

CODE	KG
3180S000	1

WET GROUNDBAITS

The sea series of groundbaits ready to be used are made with the best raw materials that can catch pelagic fishes really fast and efficiently. The use is really practical and fast with no need to wet the compound!

CODE	MODEL	KG
3167S000	CHEESE	1
3166S000	SARAGO/ORATA	1

SEA RANGE GROUNDBAITS

The sea groundbaits range by Reactor baits is made with the best raw materials that can attract PELAGIC fishes very fast and efficiently.

CODE	MODEL	KG
3168S000	CHEESE	1
3169S000	SARAGO/ORATA	1

CHEES SHRIMP & WET

The best shrimp powder extract is mixed together with cheese flours and extract and again with some selected cereals in order to develop and create an ideal groundbait for fish on the bottom or middle depth.

CODE	MODEL	KG
3165S000	WET CHEESE SHRIMP	1
3170S000	CHEESE SHRIMP	1

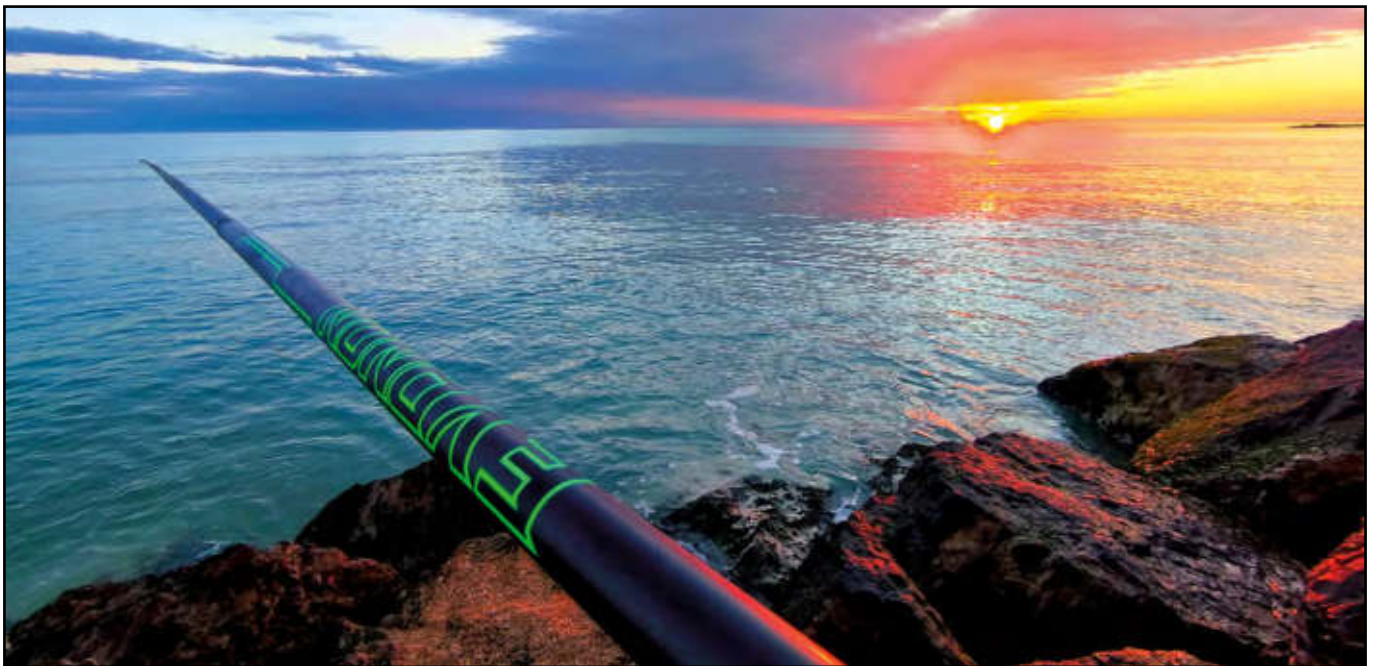

## SEA FORMULA RANGE

1 BOX / 20 PZ.

The ingredients, flours and raw materials used for the creation of this range are specifically dedicated to the saltwater fishes. Four different compositions for each kind of need and for different sea fishes: from mullets to sea breams, from sarago to salpa, from little mackerels to sea basses. The Formula range will be a warranty of success in every fishing session from the shore, the rock or the harbors.

## FARINE E ADDITIVI - FLOURS & ADDITIVE

### BENTONITE MADE IN ITALY

1 BOX / 10 PZ.

grey dried ground with very high sticky power that permits us to modify the dynamics of our grounds and groundbaits. If used in pure way can paste the fouilles.

CODE	KG
3194S000	1

### CARPIX MADE IN ITALY

1 BOX / 10 PZ.

This sweet strawberry aroma ingredient is studied for fishing carp and carasses. We suggest to add Max 100 gr for kilo of groundbait or maggots.

CODE	GR
3201S000	250

## TOUCHE MADE IN ITALY

This sweet fruity orange supplement is ideal for fishing bremes and carresses, we can use it also to add seasoning in our baits for at least 24h. we suggest to add Max 100 gr for every kilo of groundbait.

CODE	GR
3202S000	250

## BRASEM MADE IN ITALY

Belgian yellow ocher ingredient is studied especially for searching big bremes. It's bitter and sweet lactose tasting. we suggest to add Max 100 gr for every kilo of groundbait.

CODE	GR
3203S000	250

## BIG FISH MADE IN ITALY

This ingredient was studied for catching big fishes! It's infallible for all fishes! we suggest to add Max 100 gr for every kilo of groundbait.

CODE	GR
3204S000	250

## STRONG BENTONITE

natural glue for our leams and groundbaits. Its main feature is to retard the opening effect of our mixtures on the bottom, for example when the fishes are very active or when we use a big q.ty of bait and we do not want that they ll be eaten too much quickly.

CODE	LT
3230S000	1

## LIANT A COLLER

Mineral glue ideal to use for groundbait and leams . Its main purpose is to stick our mixture in order to bring all our baits on the bottom with the best precision even through the stream.

CODE	LT
3231S000	1

## NATURAL DECOLLE

Dry powder specifically studied for unglue the fougies before the usage. Really light powder which unglue the little worms in order to distribute them in the best way inside the groundbait or the leam.

CODE	LT
3232S000	1

## DAMP LEAM MADE IN ITALY

It is a somma leam very thin and of a yellowish colour and it is ready to use. It maintains itself as really soft and easy to sift, also when it is wet again. The same can be used to vehicular our baits or to be mixed with our groundbaits dedicated to the breme fishing.

CODE	KG
3147S000	2

## DAMP LEAM BLACK MADE IN ITALY

It is a somma leam of a black colour and it has got the same characters of the light one. Its dark colour is natural and it is used for making heavier the dark and black groundbaits in order too not create persistent spots that make the fishes suspicious if used into transparent or cold waters.

CODE	KG
3146S000	2

## RIVER LEAM MADE IN ITALY

It is a wet leam really binder and of a brown colour. It is perfect for give weight the groundbaits into fast waters or, if used in a pure way, it can also be used for vehicular our baits on the bottom.

CODE	KG
3148S000	3

## RICARICA GOMMA ARABICA MADE IN ITALY

Ideal for strong bondings, in rivers or canals where there is a lot of current and our ball must not lose anything on downhill.

CODE	GR
M010600R	500

## COLLA DESTRIX

Ideal for gluing maggots.

CODE	KG
3113S000	1

**TORTEAU MAIS GROSSO** MADE IN ITALY

Pour the contents in a container, add water up to cover everything. Let it rest for about 1/2 hours and then pour the mixture in the groundbait. The Torteau Corn made like this will be necessary to humidify your groundbait.

CODE	KG
3009S000	1

**TORTEAU MAIS FINE** MADE IN ITALY

Compared to the big version, this Torteau can be included in the groundbait before the soak. The high power of water's absorption will increase the volume of your groundbait.

CODE	KG
3056S000	1

**PV1** MADE IN ITALY

The flour of PV1 having sugary basis will increase the sticky power of your groundbait. It's ideal to unite low sticky groundbaits.

CODE	KG
3008S000	1

**PANE BELGA** MADE IN ITALY

This bread results barely sticky, so its main feature is to release before and to avoid the growing of clumps in the groundbait, making it soft. It's recommended especially for fishing bremens and crucians. (30% per kg).

CODE	KG
3050S000	1

## SPECIAL FEED FLOURS:

**SALMON:** The grinding is ideal and the balancing with bacteria is more than perfect! It is simply the best in order to be mixed with spices, pepper and various birdfoods; also the color is really beautiful, meaning that the flour is super pure and worked in a perfect way! **PURE FISH MEAL:** Every time is a success when used in the suggested q.es! The color is the real fishmeal one and the test with bacteria is more than ideal. Is a precious and pure fishmeal, of course. **TUNA:** This is not a commercial tuna flour: the light brown color is one of the test for proclame this! The real and pur tuna meal that every angler would want to have and use.

CODE	MODEL	GR
4600S024	SALMONE	800
4600S026	PURE FISH MEAL	800
4600S025	TUNA	800

## BETAINE KLASS A1

1 CF. / 3 PZ.

**SUGGESTED DOSAGE FOR 1 KG BOILIE MIX: 15 GR**  
**SUGGESTED DOSAGE FOR 1 KG GROUNDBAIT: 25 GR**

We are not making miracles but we are always searching something different and best quality compounds. From all the appetite stimulators we have tested in the last seasons we have found out a superlative betaine that will boost the appetite from the carps.

CODE	GR
4800S024	100

## MUSSEL EXTRACT

1 CF. / 3 PZ.

**SUGGESTED DOSAGE FOR 1 KG BOILIE MIX: 30-70 GR**

The mussels always represent the best natural quality food for carps. This pure extract is the maximum that you can use into your fishmeals or when you are searching simply the best green lipped mussel extract powder!

CODE	GR
4801S350	350

## POP UP MIX NO PRESSURE

1 CF. / 3 PZ.

A 350 gr pop up mix useful for realize self made pop up boilies or equilibrate ones. Is the same mix that we use for create our flash fluo pop up that are floating for many hours even if drilled.

CODE	GR
3400S003	350

## PROTEINIC ALBUMINE

1 CF. / 3 PZ.

**SUGGESTED DOSAGE FOR 1 KG BOILIE MIX: 30-50 GR**

It will help to roll the mixes thanks to the sticky properties and in the meanwhile is full of proteins. We must use it with care.

CODE	GR
4800S005	500

POTATO POWDER

SUGGESTED DOSAGE FOR 1 KG BOILIE MIX: 20-50 GR

Flour extracted from the potato is really appreciated from the carps and the fact is well known from ages. The proteinic values are really high and the fact must be studied in order to create our mixes and self made boilies.

CODE	GR
5045S001	250

ACTIVE OXYGEN  
1 CF. / 6 PZ.

If you ll look at the effect of this product inside the water you ll find it simply amazing! The same oxygen power will make a cloud that permits to the particles content into our groundbaits, to the little seeds or pellets part to move from the bottom to the surface and sometimes to come back again, creating a continuous stream that will attract so many fishes in the fishing spot!

CODE	MODEL	GR
2030S002	Pink Fluo	250
2030S001	Green Fluo	250
2030S000	Neutral Color	250

L-AMINOX METHIONIN

The methionin is an a-polar aminoacid. Its molecule is chiral. An amino acid that induces an increase in the food activity of cyprinids and which assists in the production of enzymes useful for digestion.

CODE	GR
5044S003	100

KRILL MEAL  
1 CF. / 3 PZ.

SUGGESTED DOSAGE FOR 1 KG BOILIE MIX: 30-100 GR

The krill meal effect is well recognized worldwide and we are here presenting simply the best krill, extremely pure and very difficult to find on the market. Nothing floating and not mixed to crustaceans or shrimps.

CODE	GR
4800S350	350

L-AMINOX THREONIN

Threonine, Thr or T [2], is an essential amino acid as it is not synthesized by the human body or by the structures of other living beings: it can only be taken through the "diet" and nutrition. An amino acid that, especially in conditions of apathy of the fish, induces an increase in food activity and a strong and continuous stimulus towards it.

CODE	GR
5044S001	100

L-AMINOX LYSINE

One of the most known and used amino acids by carp anglers, in the right doses and inserted in the right proportions it becomes a fantastic stimulator of appetite and digestive functions.

CODE	GR
5044S002	100

## ATOMIC SPRAY

1 CF. / 5 PZ.

CODE	MODEL	ML

3110S002	Fish&Pellet Oil	250
3110S003	Hemp	250

## VER DE VAS EVOLUTION

**FOR 1 KG BOILIE MIX: 20-25 FOR KG**  
**FOR 1 KG GROUND/METHOD: 35 FOR KG**

he natural food for each fish from the birth moment: simply the ver de vas! Is a cray attractor for what concern match fishing groundbaits, feeder ones but also for the carp fishing, especially in natural waters.

CODE	ML
3109S250	250

## SUPER MAIS OIL

**FOR 1 KG BOILIE MIX: 25 FOR KG**  
**FOR 1 KG GROUND/METHOD: 35-40 FOR KG**

We are really expert in create and develop all the corn extracts and derivates. We have extracted pure corn oil really rich of bioelements and natural vitamins. This one will be your certain arm for catch grass carps and big carps especially in natural venue. Really interesting the use inside match fishing groundbaits and feeder ones.

CODE	ML
3102S250	250

## LIVER LIQUID 100%

1 CF. / 3 PZ.

**FOR 1 KG BOILIE MIX: 25-50 ML**  
**FOR 1 KG GROUNDBAIT/METHOD: 20-40 ML TO PUT IN THE MIXING WATER**

A liver liquid extract that is superlative for the carps. It is totally pure and has got inside a lot of amino acids and animal proteins. It will run very well even in difficult natural waters. The combination with fishmeals and birdfish mix is perfect.

CODE	ML
3100S250	250

CSL STRONG

1 CF. / 3 PZ.

**FOR 1 KG BOILIE MIX: 25-40ML PER KG**  
**FOR 1 KG GROUNDBAIT/METHOD:**  
**30 ML TO DISSOLVE INTO THE MIXING WATER**

The most precious Corn steep liquor that we have ever tested. We did not want to introduce a medium quality one and we have taken the correct time for find someone that will satisfy us at the best level. We can use it in the self made receipts but is also perfect to make bait dips or for cook particles.

CODE	ML
3101S250	250

LIVER EVOLUTION

**FOR 1 KG BOILIE MIX: 20-25 FOR KG**  
**FOR 1 KG GROUNDBAIT/METHOD: 35 FOR KG**

A really new liver extract created after a lot of studies and developments based on proteic and nutritional values. A really new winning formula where the comparison with other competitors is not definitely possible. Ideal for be inserted in groundbaits, method mixes but even for create superlative self made boilies.

CODE	ML
3103S250	250

STABILIZER

1 CF. / 5 PZ.

**FOR 1 KG BOILIE MIX: 30-50 ML**

A soft liquid that is coming from the human food sector: it is totally without taste and flavor and once you insert it into your liquid base it doesn't permit the mold formation on the same baits and will grant the correct softness in order to let them work in the best way in the water.

CODE	ML
3700S000	500

BETAIN MELASSE

1 CF. / 5 PZ.

**FOR 1 KG BOILIE MIX: 15-40ML PER KG**  
**FOR COOK 1 KG PARTICLES/CORN/HEMP/TIGERNUTS:**  
**150 ML WHEN COOKING IS OVER, ADDING COLD WATER**  
**FOR 1 KG GROUNDBAIT/METHOD:**  
**30-40 ML TO DISSOLVE IN WATER**

We have combined the sweet properties of the molasses with the super attraction of the Betaine. We can use this for make our self made boilies or for create bait dips and even for cook the particles. Inside this beautiful compound you can find 11% protein and 14 different kind of natural amino acids.

4505S015	Red Fluo	15
4505S020	Red Fluo	20

Neutral flavor for these pop ups who has got fluorescent colors and extremely floating power, even after been perforated by needle. You can flavor them as you want and prefer.

## WATER BOMBS

1 CF. / 3 PZ.

CODE	MODEL	MM
7557S002	Coco Bird	15-20
7557S001	Nektar	15-20
7557S004	NSI Spice	15-20
7557S006	Krill - Ribes Nigrum	15-20

Once you ll test them you ll fall in love and maybe you will not able to go fishing without them! Inside a 300 gr product jar we are putting mixed size hookbait 20-15 mm adding few pop ups of the same sizes in order to build up the best equilibrated presentations or even superlative pop up rigs. All this hookbait range is made in relation to the "feeding boilies series".

## WATER BOMBS 24 MM

1 CF. / 3 PZ.

CODE	MODEL	MM
7563S004	Banana Fish	24
7563S002	Coco Bird	24
7563S000	GLM Power	24
7563S001	Nektar	24
7563S003	NSI Spice	24
7563S005	Krill - Ribes Nigrum	24

300 gr of hookbait boilies made just with the highest quality ingredients in order to represent simply the best we can desire for our hair rigs. Inside the practical box, with big hookbait bottom boilies, you ll find also some free 20 mm pop ups. Six different kind of hookbaits, with different mixes, flavors and structures, in order to win each kind of water and situation.

ZERO MIXED DUMBEL

CODE	MODEL	MM	GR
7566S001	Chocorange	12	40
7566S002	Garlic	12	40
7566S003	Hot Spice	12	40
7566S004	Pineapple & Butyric	12	40
7566S005	Strawberry Squid	12	40

12 mm hookbaits with zero weight: inside the same box we wanted to offer you boilies and dumbbells mixed together; so different molds but same "zero weight", same color and same super flavor. 5 different flavors, all fluoro and with special strong flavors. Superlative for carp fishing and specimen style, a super quality bait!

TWISTY MICRO

CODE	MODEL	MM
7575S001	Strawberry Squid	5
7575S002	Chocolate Orange	5
7575S003	Garlic	5
7575S004	Fishmeal	5
7575S005	Red Krill	5
7575S006	Mango	5
7575S007	Mulberry	5
7575S008	Cheese & Butyric Acid	5

A revolution through feeder baits, created with 5 mm diameter but especially with a spiral mold which is reminding a natural micro water-snail. The newest mold is wanted to bring several plus during our fishing sessions:

- Easier to fix with bait band as with bait pin
- Equilibrated floating action controlled and super effective
- Easier to bite and to aspirate from most suspicious fishes
- So different in front of all the other feeder baits
- Very similar to natural food

All our twisty micro 5mm are developed in color combinations (dual colors) created and studied in relation to underwater visibility and to the consequent attractive power. A real innovation for the method feeder baits!

EQUILIBRIUM MINI 11MM

CODE	MODEL	MM
4907S001	Hot Spice	11
4907S002	Coconut	11
4907S003	GLM Garlic	11
4907S004	Squid Octopus	11
4907S005	Peach	11
4907S006	Strawberry	11
4907S007	Orange Chocolate	11
4907S008	Plum	11
4907S009	Bubble Gum	11

Miniboilies created for the pva bombs, high fishing pressure waters and carps really used to feed feeling "dangerous situations" because of the same high fishing pressure. Super attractive and useful even in method and specialist technique. Strong flavor and really effective colors in order to attract all the fishes; we were finally able to create also the bicolor fluo versions! These mini wafers boilies will be simply the boost for your sessions and the most difficult competitions.

FLUOBALLS 1 CF. 5 B.

CODE	COLOR	MM
75056005	YELLOW	10
75056007	GREEN	10
75056008	ORANGE	10
75056009	PINK	10

## SOFT DUMBELLS 1ST GENERATION

CODE	MODEL	MM	GR
5030S007	Strawberry (Red)	2/6	40
5030S011	Pineapple (Yellow)	2/6	40
5030S005	Sausage (Red)	2/6	40
5030S006	Krill (Red)	2/6	40
5030S010	Honey (Yellow)	2/6	40
5030S012	Cheese (Yellow)	2/6	40
5030S013	Vanilla (Yellow)	2/6	40
5030S009	Hot Spice (Red)	2/6	40
5030S008	Tutti Frutti (Red)	2/6	40

They are soft 8mm dumbbells with a superlative catching power. When you cast them, after few seconds they start to release color together with flavors and aminoacides. In this way they ll make around a little attractive cloud that will bring the fishes crazy.

## LAZY HEMP

CODE	MODEL	GR
5042S003	Hot Spice	500
5042S001	Natural	500
5042S002	Fruit Flav	500

Selected, cooked and fermented hemp. We have made it in the most professional and controlled way. We wanted to offer to our anglers the best hemp possible to find out in the market:

- 1) natural hemp
- 2) fruit flavored hemp
- 3) hemp enriched with natural hot spices

Simply the best hemp that every competitor and angler can desire for attract carps and all the fishes in the fishing spot.

## ULTRA MAIZ 1 CF. / 5 PZ.

CODE	MODEL	SIZE
7556S000	Coconut	M-L-XL
7556S001	Pineapple&Banana	M-L-XL
7556S002	Glm&Garlic	M-L-XL
7556S003	Hot Spice	M-L-XL
7556S004	Fruit Blend	M-L-XL
7556S005	Scopex Cream	M-L-XL
7556S006	Squid&Octopus	M-L-XL
7556S007	Ribes Nigrum	M-L-XL

We have finally created a combination of essences, flavors and amino acids where we are putting in total 10 fake corns: 5 of extra large size and 5 of standard size. The result is a superb fake bait even thanks to the bait dip, pva friendly, ideal for be used especially with pva bombs and stick mixes. All the fake corns are pop up and their buoyant power is calculated in order to balance teflon hooks of size 2-4-6 in relation to the size of the same corn. The XL fake corns are always specifically colored in relation to the specific flavor, while the little ones (standard size) will be produced and sold always in the yellow color.

BREAD CANDY 1 CF. / 5 PZ.

CODE	MODEL	MM
6700S000	Strawberry (Red)	10
6700S001	Garlic (Natural Color)	10
6700S002	Honey (Yellow)	10
6700S003	Halibut (Dark Brown)	10
6700S004	Pineapple (Yellow)	10
6700S005	Vanilla (Yellow)	10
6700S006	Cheese (White)	10
6700S007	Coconut (White)	10

As in the freshwaters as in the sea, all the fishes love the bread as food! We have pressed it, presenting little bread balls colored and flavored in different ways. We have prepared them, linking a bit piece of braid that will help you for put the same bait on your hook in an extreme practical way. Ideal for the fisheries but also for catch a lot of fishes in the sea.

SUPER MAIS 1 CF. / 5 PZ.

CODE	MODEL	GR
5019S000	Strawberry (Red)	100
5020S000	Vanilla (Natural)	100
5021S000	Garlic (Yellow)	100
5022S000	Honey (Orange)	100
5023S000	Krill (Red)	100
5024S000	Betaine Green (Green)	100
5031S000	Halibut (Red)	100
5032S000	Cheese (Natural)	100
5033S000	Coconut (Natural)	100
5034S000	Chili (Red)	100

We have selected the best corn enriching them with different colors and flavors, using also liquid betaine and a lot of natural aminoacides. Superlative for catch many carps, tenches, carass, chubs and catfishes in all the fishing techniques.

WAFTERS 1 CF. / 5 PZ.

CODE	MODEL	GR	MM
6699S001	Pinepple	30	7-9
6699S002	Sausage	30	7-9
6699S003	Garlic	30	7-9
6699S004	Chocorange	30	7-9
6699S005	Coconut	30	7-9
6699S006	Mixed Color	30	7-9

They ll easily win the most suspicious fishes thanks to the weight absen- ce but also for the permanent fluorescent colors and for their structure built with liquid betaine and the best quality flavors. Simply the best bait for feeder and method feeder in order to be used in the fisheries searching for carps and carass.

## NANO SOFT WAFTERS

CODE	MODEL	GR	MM	CODE	MODEL	GR	MM
9035S001	Choccorange	40	3	9035S005	Pineapple	40	3
9035S000	Sausage	40	3	9035S006	Ribes Nigrum	40	3
9035S002	Garlic	40	3	9035S007	Fish Pellet	40	3
9035S003	Coconut	40	3	9035S008	Halibut	40	3
9035S004	Squid Octopus	40	3				

Really soft, iper attractive and with ideal color range for any commercial feeder competition. These are little and soft zero weight wafers, with nano diameter, which become our preferred bait for any competition or commercial feeder session, even the most difficult ones with the most suspicious fishes. Suggestable the spike use or the micro bait band for the best presentation possible.

## NANO BOILIES 1 CF. / 6 PZ.

CODE	MODEL	GR	MM	CODE	MODEL	GR	MM
9036S001	Choccorange	40	6	9036S004	Squid Octopus	40	6
9036S000	Sausage	40	6	9036S005	Pineapple	40	6
9036S003	Coconut	40	6	9036S006	Ribes Nigrum	40	6

Micro boilies their weight that is near to the zero in order to create something super natural and iper attractive. These are 6 mm nano boilies created thanks to the best quality and finest additives and flavors which makes them as a super alternative for the feeder, method feeder and specimen techniques. The different colors are beautiful and so many, in order to make them perfect in each different fishing situation.

## R-SOFT DUMBELLS 1 CF. / 5 PZ.

CODE	MODEL	MM	GR
5027S000	Sausage (Dark Red)	8	40
5030S004	Hot Spice (Red)	8	40
5030S003	Tutti Frutti (Orange)	8	40

They are similar to the "soft dumbell 1st generation" just from the mold but they are different for the particular softness which is a bit particular. They are very different also to all the other baits in the market: this will permit you to offer and present something on the bottom that the fishes never experienced before. They are little sweets/candies which carps and carass like a lot in the fisheries: they must be in your bait bags during competitions and method feeder sessions.

## PELLET

### PRO EXPERT FEED PELLET 2MM STICKY

MADE IN ITALY

Pellets to being used in all commercial waters, their protein and fat component, perfectly balanced, allows us to use them without problems at all times of the year. In the Stiky version, a special glue has been added to the pellets to make them stickier, making them perfect for long distance or very deep casting.

CODE	GR
5046S001	700

### PRO EXPERT FEED PELLET 2MM

MADE IN ITALY

Pellets to being used in all commercial waters, their protein and fat component, perfectly balanced, allows us to use them without problems at all times of the year.

CODE	GR
5046S002	700

### PRO EXPERT FEED PELLET 4MM

MADE IN ITALY

We can use it as it is from the bag or wet with water or flavors. It is extremely indicated for carps, carass, f1.... especially for the methods in the summer season, while in winter we can simply hook it thanks to the bait band. Superlative also if added to the groundbait or feed with catapult for fish wagglers or in surface.

CODE	GR
5046S003	700

### PRO EXPERT FEED PELLET 6MM

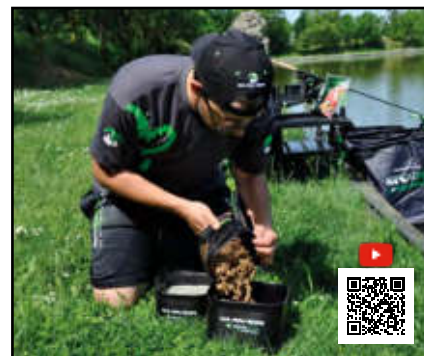

MADE IN ITALY

Extremely perfect for feed and attract fishes when we use wagglers of when we fish with pole in surface. Thanks to its heavy weight we can be super precise when we catapult it reaching also long distances.

CODE	GR
5046S004	700

To wet your pellets, we advise you to immerse them completely in water, wait 2 minutes and drain them carefully, put them in a large container and swirl them occasionally, after 30 minutes the pellets will be ready to be used with both the pellet feeder and the method.

## PELLET FISHMEAL STRATEGY

The best alternative when we need the real attraction and powerful signals from our feeding area. A very powerful pellet but not so much heavy, created thanks to the best fishmeals and also to a part of halibut extracts and flours.

CODE	MM	GR
5038S002	2	800

## TIGER XXL (CSL ENRICHED)

Tiger nuts selected and cooked in the most accurate way. They are enriched with our amino acids and with corn steep liquor + flavors just in the cooling down moment. These baits will help you to select the catch sizes and will fit every angler needs.

CODE	MODEL	GR
5043S001	SCOPEX CREAM	150
5043S002	BANANA	150
5043S003	GLM GARLIC	150
5043S004	RIBES NIGRUM	150
5043S005	HOT SPICE	150
5043S006	COCOCREAM	150

## FASTEST FREE FORM PELLETS

1 CF. / 5 PZ.

CODE	MODEL	KG
2001S010	Strawberry	1
2003S010	Scopex	1
2000S010	Banana	1
2002S010	Tigernut	1
2004S010	Mais	1

Suitable for all the season but the special character is the super fast dissolving power with all the water temperatures, even in the coldest conditions. It creates an attractive carpet that makes the cyprinides crazy. Special for sticks, pva bombs and ideal for carpodromes and pole fishing.

## POWER PVA STICKS

1 BAG. / 20 PZ.

CODE	MODEL	MM
7576S001	Sweetcorn	20x25
7576S002	Sweet Chili	20x25
7576S003	Strawberry Mussel	20x25
7576S004	Krill Pepper	20x25
7576S005	Tiger Scopex	20x25
7576S006	Garlic	20x25
7576S007	Banana Fish	20x25

We expressly wanted to offer some ready to use pva sticks: you just need to chain on hook or fix them inside the hooklink and be ready to catch more carps! These are little pva sticks created thanks to the best and most attractive raw materials and enriched with our aminoacides plus B vitamins. The size we wanted is simply perfect for grant long casts, to avoid hooklinks tangles and in order to maintain the correct food portion near our bait, perfect for attract more carps in the fishing area. The attraction is granted and the additives are used in a positive and controlled way in order to not be "too much" and to avoid the risk to push away the most suspicious fishes. A lot of taste and flavor combinations in order to be perfectly adapted to your hookbaits.

These General Sales Conditions ("GSC") will be valid for every sale agreement (as defined below) entered into between the Seller (as defined below) and the Buyer (as defined below), even those not yet expressly referenced herein, and when expressly accepted.

#### 1) Definitions

When they begin with a capital letter, the terms and expressions used in these General Sales Conditions have either the conventional meaning or the meaning set out hereunder: - "Sale Agreement": the agreement between the Seller and the Buyer for the transfer to the latter of ownership of an object for consideration;

- "Seller": Paioli Sport Srl sede legale in 40138 Bologna via del vetraio 25

- "Buyer": the natural or legal person to whom ownership of goods produced or marketed by Paioli Sport Srl is transferred;

- "Parties": the Seller and Buyer referred to jointly;

- "Products": fishing sport tackles marketed by the Seller, as stated on the price list thereof applicable at the time of entry into the Sale Agreement;

- "General Sales Conditions": the terms and conditions set out herein, which are part and parcel of each Sale Agreement entered into between the Seller and the Buyer for the sale of the Products.

The Seller reserves the right to amend or supplement the General Sales Conditions by simply giving the Buyer notice of these changes. If the amendments or supplements to the General Sales Conditions are not accepted in writing by the Buyer within 15 days of the date of the notice, the Seller may terminate any contractual relationship in place with the Buyer, in which case the latter may not claim any damage or compensation.

#### 2) Entry into agreement

subject to the provisions of Article 8 hereunder, the Sale Agreement will be entered into when:

a) Through actions such as, but not limited to, sending the Seller a letter of credit or making payment of all or part of the price of the supply, the Buyer unconditionally accepts the contractual proposal, however made, by the Seller;

b) Through actions such as, but not limited to, delivering the Products to the Buyer, the Seller unconditionally accepts the contractual proposal, however made, by the Buyer;

c) Through actions such as, but not limited to, sending the Seller a letter of credit or making payment of all or part of the price of the supply, the Buyer unconditionally accepts the novation of the contractual proposal made by the Seller in response to the Buyer's original proposal, however notice thereof is given.

Unless expressly waived in writing, the General Sales Conditions referred to in this document apply to each individual Sale Agreement as described above, even if not expressly stated and accepted. Therefore, any other contractual conditions than those stated herein, even if stated in writing on paperwork (forms, etc.) issued by the Buyer, will have no validity unless expressly accepted in writing by the Seller. In no case may the Seller's conduct be construed as acceptance of any other contractual conditions than those referred to in these General Sales Conditions. Likewise, the Seller's agents' conduct/actions cannot be held against the Seller since the said agents do not have power of representation thereof. Any order cancellations must be sent to PAIOLI SPORT SRL by P.E.C. (certified electronic mail) or recommended letter mail A.R. no later than 30 days from the signing of the order: in default the buyer will not be able to refuse the purchased goods and will be required to pay.

#### 3) Scope of the agreement - Product features

Each Sale Agreement (order) will cover solely the Products (type, quantity, ...) expressly stated in the contractual documents. (i.e. hand writing order and/or web order) The Seller hereby declares that the Products comply with the applicable Italian and European regulations for the industry, but specifies that the representations and/or images thereof included in catalogues, brochures, websites, or the like are merely illustrative and in no way binding. Before entry into each individual Sale Agreement, the Buyer must verify that the Products are suitable for the purpose and/or specific use for which it intends to purchase them. The Buyer must also verify, relieving the Seller from any liability in this regard, that the Products sold comply with the legislation in force in the country where it intends to import them. Without prejudice to the no-fault guarantee, the Buyer will hold harmless the Seller against any claims by its assignees of alleged unsuitability of the Products or that the Products fail to meet their needs. In any case, the Buyer hereby acknowledges the quantitative and qualitative tolerance margins allowed to the Seller in accordance with the uses and/or practices of the sport fishing industry.

#### 4) Delivery terms

The delivery terms must be deemed approximate and the extension thereof will not, in any event, entitle the Buyer to seek compensation. Partial deliveries will also be allowed. If the Buyer does not collect the Product within 10 (ten) days of the date of notice of goods ready, the Seller is entitled to establish a new delivery term. If the Buyer subsequently fails to collect the Products within the second term established by the Seller, the former will become liable for the warehouse costs which accrue from that time onwards and the Seller will be relieved of any liability for damage or wear to the Products.

#### 5) Packaging - Delivery methods - Seller's obligations - Buyer's obligations

The Products will be packed and prepared for shipment using the protective systems generally employed by the Seller for the Products in question based on the agreed transport methods. If the Buyer deems it necessary to use special packaging or additional protection, express request thereof must be made to the Seller and the higher costs thereof must be paid by the Buyer. Unless specified otherwise in writing, the Products covered by each individual Sale Agreement will be made available to the Buyer ex works (EXW) at the warehouse of Bologna. Upon delivery, the Seller undertakes solely to load the Products onto the delivery vehicle sent by the Buyer, with all further obligations hereby excluded, such as, but not limited to, those relating to customs clearance operations. The Seller will not be liable for any loss or damage to the Products following delivery. Any loss of or damage to the Products following delivery will not exonerate the Buyer from payment of the price thereof. The goods are always sold ex our warehouse (EXW) and in any case, even if carriage paid or with shipping costs contribution, always travels at the customer's own risk. If the package arrives unconditional and/or broken, to activate the transport insurance it is mandatory upon receipt of the goods make a reservation of control by mentioning the type of damage that the package has.

#### 6) Products intended for export - VAT regime - Environment Contribution - CONAI (Italian packaging consortium) - Buyer's obligations

##### 6.1) VAT

With reference to the Sale Agreements for the Products when intended for export, the Buyer, in the event, must notify the Seller in writing of any different destination of the goods with respect to that stated in the transport document, within 72 hours of the date set for delivery to the original destination. Following this notice, the Seller will arrange for VAT requirements to be met. In any case, the Buyer must hold harmless the Seller against any taxes, surcharges, penalties, interest, and expenses resulting from the delivery of the Products to a place other than that stated in the transport documents.

##### 6.2) Environment Contribution - CONAI

Given that the packaging (known as "full packaging") used for the Products intended for export (whose waste is managed abroad) is exempt from the Environment Contribution payment and is outside the scope of CONAI, the Buyer will be exclusively liable for the management of the packaging of the Products purchased for export and, where applicable, for the environment contribution (however named) in the foreign country to which the goods are exported.

Based on the foregoing, if the Product was originally intended for export but subsequently delivered within Italy, and therefore the packaging will be handled in Italy, the Buyer must immediately notify the Seller of the new destination of the full packaging in order to arrange for the said contribution to be duly paid to CONAI.

#### 7) Force majeure

Each party may suspend performance of the obligations arising therefrom from each specific Sale Agreement when such performance becomes impossible or objectively too burdensome as a result of an unforeseeable circumstance beyond the party's control. In such cases the deadline for performance will be extended by the length of time consisting of the duration of the force majeure event. If the impediment persists for over 90 (ninety) days, either party may withdraw from the specific Sale Agreement by notifying the other party thereof in writing. Purely by way of example, the Parties hereby acknowledge that the Seller deems the following situations force majeure events: wars, fires, earthquakes, floods, tsunamis, strikes, pandemics, difficulties arising with the workforce, scarcity or difficulty in procuring raw materials, restrictions concerning energy use, suspension of or difficulties during transportation, plant failures, action by public authorities, or any other situation which cannot reasonably be foreseen or which the Seller cannot remedy with ordinary diligence.

#### 8) Prices - Payment terms - Defaults

The prices of the Products on the price list applicable at the time the agreement is entered into are stated in euros, before VAT, and refer to the Seller's standard packaging methods for ex-work deliveries. Statutory VAT must be paid as stated on the invoice. The sums due for any costs and expenses charged to the Buyer, such as the cost of additional packaging, must be paid in advance by the Buyer to the Seller. The place of payment is hereby established as the Seller's registered premises, even in the event of issue of bank drafts or direct debits, or bills of exchange. Any acceptance by the Seller of bills of exchange, promissory notes, assignments, or bank cheques is always understood as agreed under usual reserve and/or subject to recourse and without novation of the debt. Payment is due in full as per the methods and terms stated in the specific Sale Agreement; if the agreement does not specify the terms and conditions of payment, these must be finalised when the Products are delivered. In no event will the Buyer be discharged by payments made to the Seller's sales agents. In the event of failure to make timely payment for the Products according to the agreed terms, in addition to any other protection offered by the law or the specific Sale Agreement, the Seller may also suspend deliveries that have not yet been processed and apply interest on arrears in accordance with the provisions of Italian legislative decree n. 231 dated 2002. Once 30 (thirty) days have elapsed since expiry of the term of payment without the payment being made, the Seller may consider every single Sale Agreement in force with the Buyer terminated and demand immediate payment of all outstanding receivables originating therefrom, regardless of the payment terms originally agreed (including any deferred payments). In the aforesaid event, the Seller will be able to offset the receivables due thereto for provisions supplied against any payables due thereby resulting from the collection of any advances. The Seller may also suspend deliveries of the Products in the event that the Buyer - even if not yet in arrears to the Seller - has experienced a decrease in its assets or has failed to provide the guarantees promised. Without prejudice to the suspension of performance of the aforesaid individual Sale Agreements, the Seller may withdraw from each individual agreement if the Buyer fails to provide an adequate guarantee of its solvency within 15 (fifteen) days of this being requested. The selling party and the buying party agree that interest will be paid on late payments at the market rate.

#### 9) Retention of title

The Products covered by each individual Sale Agreement will remain the property of the Seller until the Buyer has paid the price thereof in full. Until payment has been made in full, the Buyer will undertake the obligations and responsibilities of bailee and will not be able to sell, loan for use, or allow the Products to be sequestered or attached without declaring the Seller's ownership thereof. In the event of such activities/measures, the Buyer must immediately notify the Seller by recorded delivery letter with advice of receipt.

#### 10) Guarantee

The Seller guarantees that the Products are faultless and flawless. The guarantee falls within the limits of Art. 1495 of the Italian Civil Code and is subject to the further limitations set out in this article, as well as the customary tolerances. Any specification of weights, sizes, dimensions, colours, shades, and other data contained in the Seller's catalogues, brochures, and folder are illustrative only and in no way binding. In any case, the Seller's guarantee is limited to first class products only, that is, they are not sold as disposable goods or as seen and liked. Upon receipt of the Products, the Buyer is required to perform a thorough visual inspection thereupon. In the event that the Buyer finds faults in the Products, the former must file a complaint to the Seller in writing within eight (8) days of receipt thereof and keep the entire consignment of material at the Seller's disposal. Failure to comply herewith will result in forfeiture of the guarantee. The complaint must contain the relative invoicing data and a detailed description of the claimed fault, accompanied, where possible, by photographs. If the complaint should prove to be unfounded, the Buyer must make good to the Seller the expenses incurred for any inspection activities performed (appraisals, travel, etc.). Hidden faults must be reported to the Seller in writing within eight (8) days of the date of discovery thereof and failure to comply herewith will result in forfeiture of the guarantee. In any case, the Buyer's action to exercise the guarantee for faults must take place within 12 (twelve) months as of the date on which the Products were delivered. If the faults reported by the Buyer are confirmed, the Seller will replace the faulty Products at its own expense. If replacement is not possible, the Buyer will be entitled to a refund for the price paid and to reimbursement of the carriage costs, with any other compensation for direct and/or indirect damage caused by the faulty nature of the Products hereby expressly excluded. The costs for returning the Products will be borne by the Seller. The Parties acknowledge and agree that the warranty for obvious defects will expire following tampering with the Product. Likewise, the Purchaser acknowledges and declares excluded from the warranty any flaw or defect resulting from incorrect use, modification or alteration of the Products themselves, attributable to the Buyer.

#### 11) Solve et Repete

The Buyer will not be able to suspend or delay payment for the Products for any reason, including alleged faults or flaws therein, without - naturally - prejudice to the right to a refund when it can be demonstrated that a payment has been made unduly.

#### 12) The Seller's trademarks and distinctive signs

The Buyer is authorised to use the Seller's trademarks, names, or other distinctive signs for the sole purpose of distinguishing and advertising the Products thereof, but use of the aforesaid distinctive signs on the Buyer's headed paper, advertising material, or on other material in any way aimed at third parties must be agreed with the Seller in advance in writing. The Buyer's right to use the Seller's trademarks, names, or other distinguishing signs will cease 180 (one hundred and eighty) days after the date on which the Parties enter into the last Sale Agreement. The Buyer will inform the Seller of any infringement of the Seller's trademarks, names, or other distinctive signs which may come to its knowledge.

#### 13) Confidentiality

The Buyer is bound to maintain utmost confidentiality regarding any technical and commercial information obtained through each individual Sale Agreement. The confidentiality duty is undertaken for the entire duration of the relationship between the Parties and for one (1) year as of the date on which the Parties enter into the last Sale Agreement. Failure to comply with this confidentiality duty will result in the right to compensation for any damage which may arise.

14) Applicable Law - Competent Authority For each Sale Agreement entered into between the Buyer and the Seller, all matters not expressly governed by these General Sales Conditions will be governed by Italian law. In the event of an international sales relationship, for all matters not governed by these General Sales Conditions, the Vienna Convention of 1980 will apply and for all matters not governed by the latter, the Italian Civil Code will apply. Any dispute arising between the Parties regarding the interpretation, validity, or performance of each Sale Agreement governed by these General Sales Conditions will be submitted to the exclusive jurisdiction of the Court of Bologna, subject to the jurisdiction of the Business Division of the Court of Bologna for the matters within the remit thereof. However, only the Seller is entitled to take action before the competent authority within the geographical jurisdiction of the Buyer.

#### 15) Personal data processing

The Parties hereby declare that they mutually authorise the processing of personal data for the purposes of performing the individual Sale Agreements entered into with the application of these General Sales Conditions.

#### 16) Final provisions

Any invalidity of individual provisions of these General Sales Conditions, either in whole or in part, will not affect the validity of the remaining provisions. These General Sales Conditions may be amended or supplemented exclusively by the Seller and solely in writing.
